

One-off Grant to the Hospital Authority for Minor Works Projects

Report on 2018-19 and Forecast for 2020-21

To provide sufficient resources and to allow greater flexibility for the Hospital Authority (HA) to plan and implement more intensive programmes to improve the condition and environment of HA's ageing facilities and enhance their service capacity to complement other major new hospital or hospital renovation projects, the Legislative Council (LegCo) Finance Committee approved on 20 December 2013 a one-off grant of \$13 billion under the Capital Works Reserve Fund (CWRF) **Head 708 Subhead 8083MM** to HA for minor works projects for use in the next ten years or so starting from 2014-15. Each individual item is subject to a financial ceiling of \$75 million.

2. Since April 2014, the one-off grant under **Subhead 8083MM** has replaced the block allocation to HA through CWRF **Head 708 Subhead 8100MX** – “Hospital Authority – improvement works, feasibility studies, investigations and pre-contract consultancy services for building projects” until the one-off grant under **Subhead 8083MM** is depleted. Projects funded under **Subhead 8083MM** can be broadly grouped into “Facility Rejuvenation”, “Capacity Enhancement”, “Safe Engineering”, “Universal Accessibility” and “Others”, which are for regular maintenance, minor works or preparatory works for major capital works projects.

3. To ensure transparency and accountability on the use of the one-off grant, HA is required to deposit with the LegCo Secretariat annually a full list of all items proposed to be funded by the one-off grant in the following financial year. HA is also required to provide the Panel on Health Services and the Public Works Subcommittee of the LegCo with annual reports on the key minor works projects implemented in the past financial year as well as those to be implemented in the coming year, and to prepare audited financial statements on the use of the one-off grant on an annual basis.

Projects Implemented in 2018-19

4. In 2018-19, HA originally planned to deploy \$1,275 million from the one-off grant under **Subhead 8083MM** to fund around 1 260 minor works projects. As the actual cost of some of the projects was lower than expected, a total expenditure of about \$1,270 million was finally incurred in the year for implementing 1 307 on-going and new projects, including 183 items for facility rejuvenation, 61 items for capacity enhancement, 48 items for safe engineering, 35 items for enhancement of universal accessibility and 980 items for regular maintenance/minor works and preparatory works for major capital projects. The total cost of these 1 307 projects is estimated to be \$5,236 million.

5. Among the 1 307 projects, 362 are new projects. Upon completion of these new projects in two to three years' time, HA will improve the environment of 66 in-patient wards, provide an addition of 48 beds and four consultation rooms, modernise 51 lifts and three emergency generators. Details of the implementation of minor works projects in 2018-19 are provided at **Annex A**.

2018-19 Audited Accounts

6. Mazars CPA Limited, the appointed external auditor, has completed the audit for the year ended 31 March 2019 and given an unqualified audit opinion on the accounts as set out at **Annex B**.

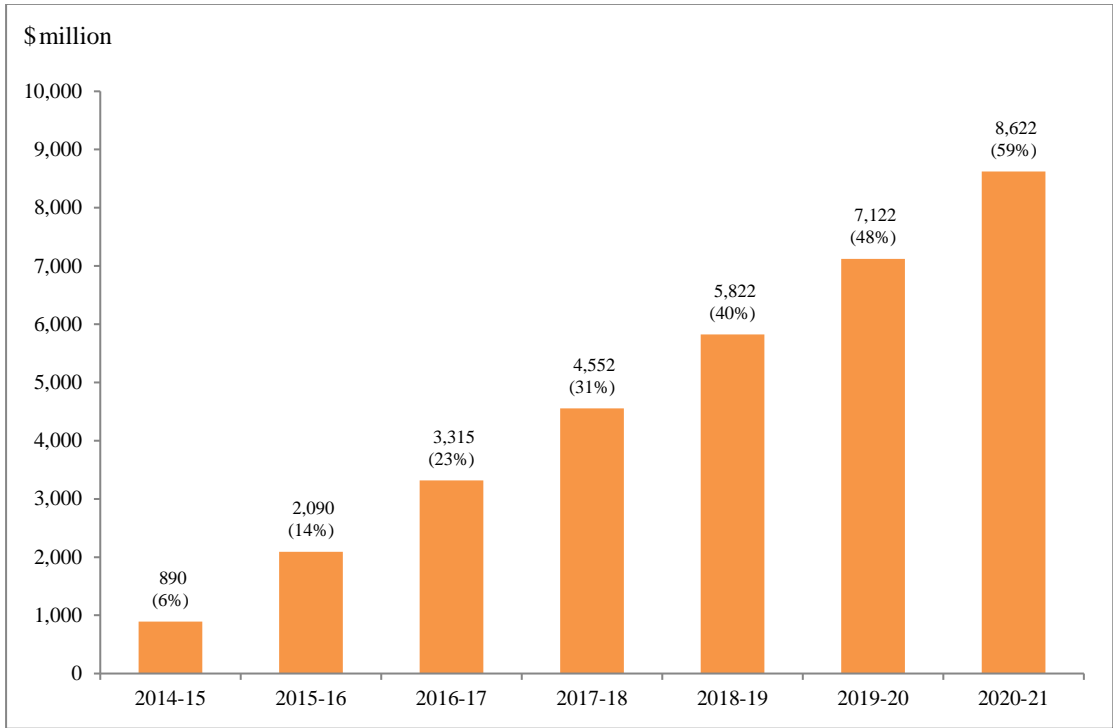

Planned Projects in 2020-21

7. For 2020-21, HA plans to implement around 1 321 on-going and new projects with an annual expenditure of about \$1,500 million. This represents an increase of about 15% in funding requirement against the planned expenditure of \$1,300 million in 2019-20¹. Among those planned projects, 520 are new projects which include 75 items for facility rejuvenation, three items for capacity enhancement, 13 items for safe engineering and 429 items for regular maintenance and preparatory works for major capital projects. The completion of these new projects in two to three years' time will result in the improvement of the environment of 78 in-patient wards and one clinic, adding 103 beds and two operating theatres, modernisation of 34 lifts, upgrading of three emergency generators and three main distribution switchboards.

8. Details of the on-going and proposed new minor works projects to be implemented in 2020-21 are provided at **Annex C**. A full list of all the items proposed to be funded by the one-off grant in 2020-21 has also been deposited with LegCo Secretariat, some of which are subject to site availability or technical feasibility. Adjustment may be made to the list during the course of the year to cater for evolving service needs or actual site situations.

9. The accumulated expenditure of the one-off grant for implementing minor works projects in HA is projected to reach \$8,622 million as at end of 2020-21 with details as shown below –

¹ We reported vide CB(2)890/18-19(01) to the Panel on Health Services on 27 February 2019 and PWSC138/18-19(01) to the Public Works Subcommittee on 28 February 2019 that we planned to proceed with around 1 397 minor works projects at an annual expenditure of about \$1,300 million in 2019-20.

Note: Percentage of accumulated expenditure is calculated based on the one-off grant of \$13 billion together with the interest generated from investment.

Hospital Authority
Minor Works Funded Under the Capital Works
Reserve Fund Head 708 Subhead 8083MM
- One-Off Grant to the Hospital Authority for
Minor Works Projects
For the year ended 31st March 2019

Independent Auditor's Report

To the Board of
The Hospital Authority

Opinion

We have audited the accounts of the Hospital Authority (“HA”) - Minor Works Funded Under the Capital Works Reserve Fund Head 708 Subhead 8083MM – One-off grant to the HA for minor works projects (“SH8083MM Minor Works Accounts”) set out on pages 4 to 14, which comprise the balance sheet as at 31 March 2019, and the income and expenditure account for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, the SH8083MM Minor Works Accounts for the year ended 31 March 2019 have been properly prepared, in all material respects, in accordance with the accounting policies set out in Note 2 to the SH8083MM Minor Works Accounts.

Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). Our responsibilities under those standards are further described in the “Auditor's Responsibilities for the Audit of the Accounts” section of our report. We are independent of the HA in accordance with the HKICPA's Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 2(a) to the SH8083MM Minor Works Accounts which describes the basis of accounting. This report is intended solely for HA to file with FHB for submission to the Legislative Council or other related parties of the Hong Kong Special Administrative Region Government (if necessary), and should not be used for any other purpose. Our opinion is not modified in respect of this matter.

HA's Responsibilities for the Accounts

HA is responsible for the preparation of the SH8083MM Minor Works Accounts in accordance with the accounting policies of the SH8083MM Minor Works Accounts as set out in Note 2 to the SH8083MM Minor Works Accounts, and for such internal control as management determines is necessary to enable the preparation of the SH8083MM Minor Works Accounts that are free from material misstatement, whether due to fraud or error.

In preparing the accounts, HA is responsible for assessing its ability to continue the SH8083MM Minor Works Accounts as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless HA intends to cease operations, or have no realistic alternative but to do so.

The HA is responsible for overseeing the financial reporting process.

Independent Auditor's Report

To the Board of
The Hospital Authority

Auditor's Responsibilities for the Audit of the Accounts

Our objectives are to obtain reasonable assurance about whether the SH8083MM Minor Works Accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the SH8083MM Minor Works Accounts.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the SH8083MM Minor Works Accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by HA.
- Conclude on the appropriateness of the use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on HA's ability to continue the SH8083MM Minor Works Account as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause HA to cease to continue the SH8083MM Minor Works Accounts as a going concern.

Hospital Authority

Minor Works Funded Under the Capital Works Reserve Fund Head 708 Subhead 8083MM - One-Off Grant to the Hospital Authority for Minor Works Projects

Notes to the Accounts

For the year ended 31st March 2019

1. BACKGROUND

With the approval of the Finance Committee of the Legislative Council on 20th December 2013, the Government provided a one-off grant of HK\$13,000,000,000 (under Capital Works Reserve Fund (CWRP) Head 708 Subhead 8083MM) to the Hospital Authority (“HA”) on 12th February 2014 for carrying out minor works projects in the next ten years or so starting from 2014-15 to improve the condition and environment of HA’s ageing facilities and enhance their service capacity to complement other major new hospital or hospital renovation projects. Minor works projects under five planned programmes, with costing not more than HK\$75 million for each individual item, are funded by the one-off grant. The five programmes are facility rejuvenation programme, capacity enhancement programme, safe engineering programme, universal accessibility programme and regular maintenance/minor works and preparatory works for major capital works projects. For the use of funds, HA has to seek prior approval from the Government for each individual project before implementation.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The significant accounting policies adopted in the preparation of the accounts of HA - Minor Works Funded Under the Capital Works Reserve Fund Head 708 Subhead 8083MM – One-off grant to the Hospital Authority for minor works projects (“SH8083MM Minor Works Accounts”) are set out below. The SH8083MM Minor Works Accounts have been prepared on a going concern basis and under the historical cost convention for the specific purpose of presenting the receipt and management of the one-off grant and the applications of this grant on those minor works projects which are mentioned in note 1.

(b) Recognition of income

The one-off grant received from the Government under Capital Works Reserve Fund Head 708 Subhead 8083MM – One-off grant to the Hospital Authority for minor works projects is recognised in the reserve fund upon receipt of cash by HA.

Each year, cash flow earmarked for minor works projects to be funded by this one-off grant is transferred from the reserve fund and recognised as income for the reporting period.

The interest from the placement with the Exchange Fund and bank deposits is recognised in the reserve fund when the amount is received. Any exchange gains/losses arising from translating foreign currency deposits at the rates of exchange ruling at the transaction dates or reporting date, are also dealt with in the reserve fund.

(c) Expenditure

All payments for the minor works projects funded under Head 708 Subhead 8083MM – One-off grant to the Hospital Authority for minor works projects are charged as expenses in the statement of income and expenditure upon payments by HA.

Audit fee of SH8083MM Minor Works Accounts is borne by HA Head Office.

2. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(d) Placement with the Exchange Fund

Placement with the Exchange Fund includes the principal sum and interest on the placement to be paid annually on 31st December of each year but has not yet been withdrawn by HA at the end of the reporting period.

(e) Bank deposits

Bank deposits represent time deposits with maturity periods within one year and are stated at purchase cost.

3. PLACEMENT WITH THE EXCHANGE FUND

As approved by the Government, HA has placed HK\$7,300,000,000 with the Exchange Fund over a period of six years since 11th April 2014. The interest on the placement is at a fixed rate determined annually in January and payable annually in arrears on 31st December. Currently, the rate of return is calculated on the basis of the average annual rate of return on certain investment portfolio of the Exchange Fund over the past six years or the average annual yield of three-year government bond in the previous year (subject to a minimum of zero percent), whichever is the higher. This rate of return has been fixed at 4.6% and 2.9% per annum for January to December 2018 and January to December 2019, respectively. The interest received up to 31st December 2018 has not been withdrawn by HA and it continues to bear interest at the same rate payable for the principal amount.

The placement with the Exchange Fund is analysed as follows:

	2019 <i>HK\$'000</i>	2018 <i>HK\$'000</i>
Original principal amount	7,300,000	7,300,000
Interest received up to reporting date	<u>1,478,206</u>	<u>1,092,167</u>
	8,778,206	8,392,167
Less: non-current portion	<u>(7,300,000)</u>	<u>(7,300,000)</u>
Current portion	<u><u>1,478,206</u></u>	<u><u>1,092,167</u></u>
Interest for January to March	<u><u>62,770</u></u>	<u><u>95,188</u></u>

Interest for January to March 2019 will be recognised in the reserve fund upon receipt in the next accounting year in accordance with the accounting policy set out in note 2(b).
