3 July 2020

Clerk, Legislative Council Panel on
Information Technology and Broadcasting
Legislative Council Complex
1 Legislative Council Road
Central, Hong Kong
(Attn.: Mr Daniel SIN)

Dear Mr SIN,

**Panel on Information Technology and Broadcasting
Follow-up to Meeting on 8 June 2020**

At the meeting of the Legislative Council Panel on Information Technology and Broadcasting on 8 June 2020, Members requested the Government to provide the following supplementary information on the Subsidy Scheme to Extend Fibre-based Networks to Villages in Remote Areas (Subsidy Scheme):

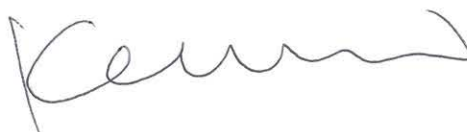

Regarding the rolling out of fibre-based lead-in connections to a total of 235 villages as required under the Subsidy Scheme, selected fixed network operators (FNOs) have made additional service commitments for some of the villages, e.g. providing villagers with broadband services at a speed of 1 000 Mbps or above, installing Wi-Fi hotspots within the common area of villages for provision of free Wi-Fi services and/or providing broadband services to villagers at the prevailing market prices during the first three years upon project completion (see **Annex A** for details). The two selected FNOs are now undertaking various works

/Cont'd....

planning and applying for relevant statutory permits and approvals. After the specific works arrangements are confirmed, the relevant stakeholders will be informed.

Regarding the network termination points at the entrances of the villages, the Office of the Communications Authority consulted all relevant Rural Committees between November 2018 and March 2019. The tender documents of the Subsidy Scheme have clearly specified the coordinates indicating the reference location(s) of the network termination point(s) for each village covered under the Subsidy Scheme (see **Annex B** for details). Selected FNOs are required to establish the network termination points of fibre-based lead-in connections at suitable locations on public streets or on unleased Government land within 15 metres from the reference locations. The actual locations of the network termination points for the villages concerned may be adjusted in the light of the works requirements and the views of villagers concerned.

Yours sincerely,

(Keith GIANG)

for Secretary for Commerce and Economic Development

Encls.

c.c. Director-General of Communications (Attn.: Mr LO Tsz-him, Andrew)
(Fax: 2123 2187)
