Mr Daniel SIN
Clerk, Panel on Information Technology and Broadcasting
Legislative Council
Legislative Council Complex
1 Legislative Council Road
Centre, Hong Kong

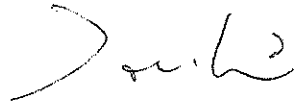

Dear Mr SIN,

**Follow-up action arising from the Special Meeting of
the Panel on Information Technology and Broadcasting
held on 25 May 2021**

At the special meeting of the Panel on Information Technology and Broadcasting on 25 May 2021, the Chairman asked about a comparison between the outputs of civil servants and other categories of manpower in Radio Television Hong Kong (RTHK) (which included contract staff, T-contract staff and Cat II service providers).

2. As we explained in the meeting, the civil servants in RTHK are responsible for a wide range of duties including programme formulation, programme production, office administration, staff supervision, etc. Cat II service providers are engaged for a specific

purpose in the production of particular programmes (e.g. presenters, scriptwriters, researchers, etc.) while engagement of other contract staff aims at meeting various operational need of the department. Given the scope of work are different, their outputs are not directly comparable.
