Dear James

Re : Immigration (Amendment) Bill 1998 - Two-way Permit Holders

We know that the above mentioned Bill has been tabled at the Legislative Council and we understand that it is currently being reviewed by your committee. We wish to make the following submission.

In our opinion the prosecution will have to prove employment status of the two-way permit holders arrested on a construction site before it could secure a conviction of the site controller. This is also an understanding which we have got in our meeting with the Secretary for Security.

We hope the committee will consider our opinion favourably.

Yours sincerely,

Jimmy Tse
