

**LegCo Panel on Health Services  
List of issues to be considered**

**1. Review on health care financing**

A Consultancy Study on Financing Hong Kong's Health Care System was completed in December 1998 and the Report was submitted to the Administration in January 1999. The Administration was urged to release the Report as soon as possible, to be followed by the consultation paper in due course. The subject will be discussed at a special meeting of the Panel, the tentative date of which is 29 March 1999 at 8:30 am.

**2. Utilization of the Clinical Pathology Laboratory Centre (CPLC) of the Department of Health after the setting up of a Laboratory Automation System (LAS)**

In approving the Director of Health's proposal of setting up a LAS to enhance the capacity and efficiency of the CPLC, the Finance Committee at its meeting on 9 October 1997 requested the Administration to explore the feasibility of allowing the private health care sector to make use of the spare capacity of the system to offset costs.

**3. Visiting health teams for the elderly**

At the meeting held on 14 July 1998, Mr LAW Chi-kwong proposed to discuss the visiting health teams for the elderly which the Administration had pledged to set up in 1998-99 in the 1997 Policy Address.

**4. Investigation report on the kidney dialysis incident at the Hong Kong & Sanatorium Hospital**

Dr LEONG Che-hung proposed to discuss the subject when the report was made available.

**5. Control of proprietary Chinese medicine**

Referring to the death of a woman who was suspected of taking a slimming proprietary Chinese medicine containing western drug, Dr LEONG Che-hung proposed at the meeting on 14 December 1998 to discuss the control of proprietary medicines at a future meeting.

**6. Monitoring of Private Hospitals**

The subject was last discussed at the meeting on 9 November 1998. Members remained concerned about the lack of a monitoring mechanism for private hospitals and agreed to have a follow-up discussion on the recommendations of the Medical Development Advisory Committee.

**7. Registration of ancillary dental personnel**

The subject was discussed at the meeting on 11 January 1999. The Administration will conduct consultation and report to the Panel in due course.

**8. Dental policy and review of oral health goals**

The subject was discussed at the meeting on 11 January 1999 and the Administration was asked to provide supplementary information on the dental policy in writing. The Panel noted that the Working Group on Revision of Oral Health Goals would present its report to the Dental Subcommittee in February 1999 and requested the Administration to keep members informed of the progress.

**9. Undesirable medical advertisements**

Having regard to medical and dental services provided in the mainland were advertised in Hong Kong, members considered it necessary to discuss the issue with the Hong Kong Medical Council as its Code of Practice prohibited doctors from advertising their services.

**10. Mental Health Service**

The subject was last discussed at the meeting on 8 February 1999. The Administration will report to the Panel on the outcome of the longitudinal prospective study which aims to find out the causes of the increase in first attendance of outpatient services.

**11. Control of unregistered pharmaceutical and blood/blood products in Hong Kong**

The meeting on 8 February 1999 did not have the time to discuss the control of blood products. Members may therefore wish to discuss the subject at a future meeting. As the Pharmacy and Poison Board is conducting a review on the existing mechanisms controlling the imports of pharmaceuticals, the Administration will brief members on the outcome in due course.
