

LEGISLATIVE COUNCIL BRIEF
Declaration Of Constituencies (District Councils) Order 1999

INTRODUCTION

At the meeting of the Executive Council on 25 May 1999, the Council ADVISED and the Chief Executive ORDERED that the Declaration of Constituencies (District Councils) Order 1999 at Annex A should be tabled in the Legislative Council (LegCo).

BACKGROUND AND ARGUMENT

General Background

2. The Electoral Affairs Commission (EAC) is a statutory independent body responsible for making recommendations to the Chief Executive (CE) on the delineation of constituencies for District Councils (DCs) election. The procedures for making recommendations are prescribed under the Electoral Affairs Commission Ordinance. There are also statutory criteria which EAC must follow in making its recommendations (see paragraph 6 below). These requirements are to ensure transparency of the procedures and public acceptance of the final decision.

3. For the first DCs election in 1999, EAC is required to publish its provisional recommendations for public consultation for not less than 14 days and it may hold meetings to receive representations. It must have regard to all representations received when making its recommendations to the CE. EAC must submit a report containing its recommendations to the CE not later than 31 May 1999.

4. According to section 21 of the Electoral Affairs Commission Ordinance, EAC's report received by the CE shall be considered by the CE in Council as soon as practicable. The CE in Council must have regard to EAC's recommendations when making a decision on the delineation of constituencies which will be effected by way of an Order under section 6(1) of the District Councils Ordinance. The Order has to be tabled in the Legislative Council (LegCo) for

negative vetting. Under section 23 of the Electoral Affairs Commission Ordinance, the Administration is required to table EAC's report in the LegCo within 30 days of its submission for public information.

5. In accordance with the statutory requirement, EAC published its provisional recommendations for public consultation on 22 March and submitted the Report containing final recommendations to the CE on 15 May. The Report will be tabled in LegCo on 2 June 1999.

Statutory Criteria for Making Recommendations

6. In making recommendations on the delineation of constituencies, EAC is bound by certain provisions under the Electoral Affairs Commission Ordinance and the District Councils Ordinance. The combined effect of the relevant provisions of these two Ordinances is as follows -

- (a) there are to be 390 elected members in the 18 DCs (**section 5(1) of the District Councils Ordinance**);
- (b) each constituency is to have one elected member (**section 7 of the District Councils Ordinance**);
- (c) the population in each constituency should be as near the population quota as practicable, and where it is not practicable to comply with this requirement, the population in that constituency should not exceed or fall short of the population quota by more than 25% (**section 20(1)(c) & (d) of the Electoral Affairs Commission Ordinance**);
- (d) EAC may depart from the strict application of (c) above only where it appears that a consideration provided in section 20(3) of the Electoral Affairs Commission Ordinance, i.e. community identities, the preservation of local ties and physical features such as size, shape, accessibility and development of the relevant area, renders a departure necessary or desirable (**section 20(5) of the Electoral Affairs Commission Ordinance**);
and

- (e) EAC must follow the existing boundaries of Districts specified under the District Councils Ordinance (**section 20(4A) of the Electoral Affairs Commission Ordinance**).

Provisional Recommendations of EAC

(A) Working Principles (paragraphs 5.2 -5.16 in Volume 1 of the Report)

7. The primary consideration of EAC in making its provisional recommendations was to ensure that the population criterion was complied with. Based on the forecast figures provided by an inter-departmental working group chaired by the Planning Department, the population of Hong Kong as at the end of March 1999 was 6,646,656. With 390 constituencies, the population quota is 17,043. The range of population based on a $\pm 25\%$ deviation is from 12,782 to 21,304.

8. EAC adopted the following working principles in arriving at its provisional recommendations :

- (a) the boundaries of the 1994 District Board (“DB”) constituencies should form the basis of the current delineation exercise;
- (b) for DB constituencies whose populations did not exceed or fall short of the population quota by more than 25%, their boundaries would be adopted as far as possible to form new DC constituencies;
- (c) for DB constituencies whose populations exceeded or fell short of the population quota by more than 25%, but had been allowed to do so in 1994 and the supporting reasons at that time were still valid, their boundaries would still be maintained as far as possible to form new DC constituencies; and
- (d) other than (c) above, for DB constituencies whose populations exceeded or fell short of the population quota by more than 25%, adjustments would be made to their boundaries and also those of adjacent DB constituencies to form new DC constituencies.

The benefits of adopting the above working principles are that the statutory criteria for delineating the DC constituencies are almost identical to those for the DB constituencies in 1994. The DB constituencies were drawn up by the former Boundary and Election Commission after full and careful reflection of all views obtained at that time. Local residents have either accepted or become accustomed to the boundaries since 1994.

(B) Public consultation
(paragraphs 6.1 - 6.10 in Volume 1 of the Report)

9. EAC conducted a public consultation exercise from 22 March to 17 April. Apart from appealing through the mass media, EAC also held four public forums to hear public representations. At the end of the consultation period, 204 written representations were received and 55 participants made verbal representations at the public forums. Upon invitation, the Chief Electoral Officer or his deputy of the Registration and Electoral Office attended meetings of four Provisional District Boards namely Southern, Wong Tai Sin, Kwun Tong and Central & Western to gather their views on EAC's provisional recommendations. During the consultation exercise, EAC appealed to the public to make known their views if they supported the provisional recommendations. As a result, EAC received 83 written and oral representations that supported its recommendations. A summary of all the views gathered during the public consultation exercise is at Appendices V and VI in Volume 1 of the Report.

(C) Key Issues Raised During Public Consultation

10. Given the relatively small area of a DC constituency, it is not surprising that many representations focused on details such as whether a residential block should be added to or removed from a particular constituency. It is common to have contradictory proposals in some of these representations, reflecting the diverse interests they represented.

11. Public reactions to changes to existing DB boundaries were mixed. On the one hand, some people pointed out that the community identity and cohesiveness of the residents that had already been established in some areas since the 1994 DB election would be disrupted if the 1994 DB boundaries were changed. Some further questioned the need for adjusting the boundaries of a large number of DB constituencies as there would only be an increase of 44 DC seats when compared with

the 346 DB seats in 1994. On the other hand, there were opposing views that the 1994 DB boundaries should be adjusted if there were changes in population and the adjustments could result in a more even distribution of population among constituencies.

12. Some representations challenged the population figures published by EAC in support of its provisional recommendations. However, these representations were based on either personal estimates or information from unofficial sources. The inter-departmental working group on population forecast (see paragraph 7) had been requested to verify the population figures in all these representations and the figures adopted by EAC were confirmed to be accurate.

Final Recommendations of EAC

(A) General Approach

(paragraphs 6.11 - 6.15 in Volume 1 of the Report)

13. In deliberating on the representations made on its provisional recommendations, EAC adopted the following approach :

- (a) For DC constituencies whose boundaries were the same as the 1994 DB constituencies (“unaltered constituencies”), suggested adjustments would be considered only if :
 - (i) they were supported by cogent reasons and would result in substantial and apparent improvement on community, geographical and development considerations;
 - (ii) they would not in turn affect a large number of unaltered constituencies;
 - (iii) all the resulting populations would not exceed or fall short of the population quota by more than 25%; and
 - (iv) no representation supporting the provisional recommendations had been received.

EAC considered it inappropriate to adjust the unaltered constituencies solely for the purpose of having a more

even population distribution. By doing so, many constituencies would have had to be re-delineated and these re-delineated constituencies would then become the final recommendations of EAC without any other possible public consultation as to their acceptability.

- (b) For new constituencies, all suggestions with sufficient cause on better population distribution or on community considerations would be accepted, except those adopting an approach entirely different from that of EAC and affecting an unaccepted number of unaltered constituencies.

(B) Final Recommendations
(paragraphs 6.16 - 6.19 in Volume 1 of the Report)

14. In arriving at its final recommendations, EAC considered carefully the views expressed in the representations. As a result of public representation, EAC adjusted the boundaries of 49 constituencies and names of five constituencies. A breakdown of these adjustments by districts is at Annex B.

15. In EAC's final recommendations, there are 204 DC constituencies whose boundaries are the same as the 1994 DB boundaries. EAC has allowed 14 constituencies listed at Annex C to exceed or fall short of the population quota by more than 25%. For eight of them this is due to the need to maintain the integrity or homogeneity or local ties of the communities while for the remaining six it is because of their large geographical areas with scattered population.

16. EAC considers that it has struck a proper and fair balance between the population quota criterion and the other statutory criteria in drawing up the constituency boundaries. Detailed explanations of the rationale of EAC's final recommendations and reasons for accepting or rejecting each representation have been given in Appendices V and VI in Volume 1 of the Report.

PUBLIC CONSULTATION

17. The provisional recommendations of EAC were well publicized during the consultation period. Its Chairman appeared on Radio Television Hong Kong's radio programme "Talkabout" on 13 April 1999 to publicize the public consultation exercise. EAC also held four public forums to hear oral representations from the public. The Chief Electoral Officer or his deputy of the Registration and Electoral Office attended meetings of four Provisional District Boards to gather their views on the provisional recommendations.

BASIC LAW IMPLICATIONS

18. The Department of Justice has advised that the Order does not conflict with the provisions of the Basic Law carrying no human rights implications.

HUMAN RIGHTS IMPLICATIONS

19. The Department of Justice has advised that the Order is consistent with the human rights provisions of the Basic Law.

FINANCIAL AND STAFFING IMPLICATIONS

20. The making of the Order has no direct financial or staffing implications.

LEGISLATIVE TIMETABLE

21. The Order will be gazetted on 28 May and will be tabled in the LegCo on 2 June for negative vetting.

PUBLICITY

22. A press release will be issued before the Order is published in the Gazette. A spokesman will be available for answering media enquiries.

DECLARATION OF CONSTITUENCIES (DISTRICT COUNCILS) ORDER 1999

(Made by the Chief Executive in Council under section 6 of the District Councils Ordinance (8 of 1999))

1. Interpretation

In this Order -

"approved map" (獲批准地圖), in relation to any District, means the map or maps -

- (a) submitted together with the report referred to in section 18(1) (b) of the Electoral Affairs Commission Ordinance (Cap. 541) by the Electoral Affairs Commission to the Chief Executive on 15 May 1999;
- (b) specified in column 4 of the Schedule;
- (c) identified by reference to a plan number (Plan No.) prefixed "DCCA";
- (d) approved by the Chief Executive in Council on 25 May 1999; and
- (e) copies of which are deposited in the offices of the Electoral Registration Officer and the Designated Officer respectively;

"constituency boundary" (選區分界), in relation to an area declared to be a constituency in this Order, means -

- (a) the boundary represented by the unbroken edging coloured red delineating, or partially delineating, that area and described as "Constituency Boundary" in the legend of the relevant approved map; or
- (b) where any part of a district boundary joins or abuts any boundary partially delineating that area as mentioned in paragraph (a), or circumscribes or otherwise partially delineates that area -
 - (i) that part of that district boundary; and
 - (ii) that boundary partially delineating that area as so mentioned;

"district boundary" (地方行政區分界), in relation to any District, means the boundary represented by the broken edging coloured red delineating that District and described as "District Boundary" in the legend of the relevant approved map.

2. Declaration of District Councils constituencies

Each area named in column 3 of the Schedule and delineated on the approved map mentioned opposite that area in column 4 of the Schedule is declared to be a constituency for the purposes of an election to elect the members of the District Council established for the District mentioned opposite that area in column 2 of the Schedule, and the name of the constituency is specified opposite that area in column 5 of the Schedule.
