

Bills Committee on
Road Traffic Legislation (Amendment) Bill 2000

Introduction

At the Bills Committee held on 9 June 2000, Members requested the Administration to provide the following information –

- (a) a list of the trunk roads and primary distributors in the new towns with speed limit of 50 km/h which will be included in the speed limit review; and
- (b) a list of the remaining highways and approaches to road tunnels on which the Administration will install road signs/road markings.

List of Trunk Roads and Primary Distributors

2. The Administration has reviewed the trunk roads and primary distributors in the new towns and identified that there are 15 road sections in the periphery of new towns with speed limit set at 50 km/h (**Annex A**). The Administration will review the speed limit of these roads, and aim to complete the review by the end of 2000.

Road Signs/Road Markings

3. Apart from the list sent to Members on 9 June 2000, the Transport Department will install road signs/road markings on the slip roads listed in **Annex B**. We aim to complete the installation works by the end of 2000. The two lists together cover all expressways and approaches to road tunnels in Hong Kong.

**List of Trunk Roads and Primary Distributors
with speed limit of 50 km/h in New Towns
which will be included in the speed limit review**

1. Texaco Road
