(Amendment) Bill 2000

Dear Miss Tai,

Family Status Discrimination (Amendment) Bill 2000

Thank you for your letter of 12 May 2000 inviting our views on the above Bill.

The Federation supports the Bill in the belief that the proposed amendments will help clarify the existing requirements of the Ordinance. With such clarification, possible disputes over the arrangement of employment-related benefits could be effectively avoided. Hence, employers would be more at ease in providing such benefits to family members of their employees.

Yours sincerely,

Andrew Leung
Deputy Chairman
