**Use of electronic devices/equipment and audio facilities  
during Council meetings**

To avoid causing any disturbance to the proceedings of the Council by electronic devices/equipment, Members are requested to disable the sound-emitting function of their mobile phones, pagers, notebook computers or other equipment before bringing them into the Chamber. Members should also ensure that the sound-emitting function remains disabled throughout a Council meeting.

2. Members are also invited to note that the earpieces in the Chamber and mobile phones/pagers should not be placed near the microphones while they are switched on, so as to avoid creating feedback or interference noise.
