# President's Foreword

Hon Andrew LEUNG Kwan-yuen, President of the Legislative Council.

The Sixth Legislative Council ("LegCo") sailed through an eventful first session and operated smoothly at large in the 2017-2018 legislative session. I am delighted to see a number of encouraging changes amid challenges.

In this session, one of the most controversial businesses that the Council dealt with was amendments to the Rules of Procedure ("RoP") of LegCo which govern the proceedings on transaction of business in the Council. Since the Fourth LegCo, there have been calls for amendment to RoP to deal with filibuster tactics deployed by some Members to delay the proceedings of the Council and the Finance Committee ("FC") as a means to express disapproval of certain government policies or to demand certain causes. On many occasions the Committee on Rules of Procedure ("CRoP") had studied various procedural options to deal with filibusters and had consulted Members, but no consensus could be reached.

The Council eventually passed on 15 December 2017 two resolutions respectively moved by two Members to amend 50 Rules in RoP. Apart from textual amendments, there were substantive amendments such as the number of Members constituting a quorum of a committee of the whole Council, the procedure for following up a petition presented to the Council as well as the President's power to reconvene a Council meeting to complete the unfinished business on the agenda after the adjournment of the Council because of a lack of a quorum.

The whole amendment exercise went through a three-step process involving the consideration by CRoP, the House Committee ("HC") and the Council. In my view, the amendments as passed have not in any way compromised Members' right to participate in the legislative process nor adversely affected their discharge of duties as Members. Instead, the operation of LegCo as a law-making body has become more efficient and the work of Members has garnered greater public support.

The amendments to RoP aside, the calls for the establishment of an effective mechanism to deal with Members' repeated disorderly conduct in the Council and committees remain strong. In this session, the proceedings in the Council and committees were disrupted on several occasions because of Members' disorderly conduct. It is regrettable that a few Members had resorted to physical acts which led to injuries of some Secretariat staff in their execution of duties. The Legislative Council Commission, being the employer of Secretariat staff, has relayed its concerns to CRoP and requested it to examine the introduction of measures to sanction Members' repeated disorderly conduct at meetings of the Council and its committees. I understand that CRoP is actively following up the matter and has consulted Members on the best way to take forward the matter.

During the session, LegCo passed 27 government bills, of which 16 were passed with amendments. The number of government bills approved is more than twice the number in the previous session. One Member's bill was passed without amendment.

Amongst the bills passed, the Guangzhou-Shenzhen-Hong Kong Express Rail Link (Co-location) Bill ("the Co-location Bill"), introduced into the Council on 31 January 2018, was controversial. The Co-location Bill sought to implement the co-location arrangement at West Kowloon Station of the Hong Kong section of the Guangzhou-Shenzhen-Hong Kong Express Rail Link. It was a relatively short bill containing eight clauses and five schedules. However, as Members had diverse views on its constitutionality and merits, the relevant Bills Committee had held 17 meetings, which consumed 45 hours in total, with the government officials deliberating on the details of the Co-location Bill. It also held two whole-day public hearings, which took 19 hours in total, to collect views from 218 attending deputations or individuals on the Co-location Bill before the resumption of its Second Reading debate in the Council.

In handling the proposed amendments to the Co-location Bill by a number of Members, I observed the rules and practices of LegCo and made reference to precedents. In deciding on the debate arrangements, I attached great importance to balancing Members' right of expressing views on the Co-location Bill and ensuring the smooth conduct of Council business in accordance with the Basic

Law ("BL") and RoP. While I fully respect Members' right to express their views on this contentious bill, as President, I have the responsibility to ensure the orderly, efficient and fair disposition of LegCo's business in discharging my power and function to preside over meetings under BL. Had Members made good use of the meeting time, they should have sufficient time to engage in a meaningful debate on the Co-location Bill.

On 14 June 2018, the Co-location Bill without amendment was passed by the Council. From the resumption of the Second Reading debate to the passage of the Co-location Bill, the Council spent nearly 38 hours to complete all the proceedings.

Some Members who opposed the passage of the Co-location Bill were dissatisfied with my rulings on the amendments and debate arrangements, triggering the moving of the motion on a vote of no confidence in me. The motion was negated after a full debate in the Council. I listened humbly to the views expressed by Members during the debate on the motion and I will continue to strengthen communication with Members in the days ahead.

This year, Members continued to propose a large number of amendments to the Appropriation Bill 2018 in order to express their views on government policies. A total of 230 amendments, the least number in the past five years, were proposed by 15 Members. With reference to RoP and the established practice, I ruled 65 Members' amendments admissible, striking a proper balance between respecting Members' right to propose amendments and debate the Appropriation Bill 2018, while ensuring the orderly, efficient and smooth operation of LegCo.

The Appropriation Bill 2018, with two amendments proposed by the Financial Secretary on the Government's Caring and Sharing Scheme, was passed by the Council on 10 May 2018. All the amendments proposed by Members were negated. The Council spent a total of about 42 hours on completing all the proceedings on the Appropriation Bill 2018. That was the least hours used since the Fifth LegCo when Members started to filibuster the Appropriation Bills.

Other approved bills in this legislative session that have far-reaching effect on society included the Medical Registration (Amendment) Bill 2017, the Stamp Duty (Amendment) Bill 2017 and the Stamp Duty (Amendment) (No. 2) Bill 2017. The former sought to change the composition of the Medical Council of Hong Kong and amend the arrangements for its preliminary investigation, disciplinary inquiries and hearings on cases concerning registered medical practitioners in Hong Kong. The latter two bills sought to provide arrangements for the imposition of ad valorem stamp duty on instruments of residential properties in order to suppress speculative activities in the residential property market.

In addition, the Council passed 147 items of subsidiary legislation without amendment through the negative vetting procedure and 15 proposed resolutions to amend subsidiary legislation subject to the positive vetting procedure. Members also debated a total of 16 motions not intended to have legislative effect, of which 11 were passed with or without amendment and five were negated.

To monitor the work of the Government, Members raised 150 oral questions and followed up with 719 supplementary questions to government officials. A total of 499 questions seeking written replies were raised. Two adjournment motions were moved under RoP 16(4) to debate issues concerning public interest with a view to eliciting a reply from a designated public officer.

In this session, the Council voted down three Members' motions to appoint select committees with powers under section 9(1) of the Legislative Council (Powers and Privileges) Ordinance (Cap. 382) ("P & P Ordinance") on matters relating to the quality of works of the Shatin to Central Link project of the Mass Transit Railway.

Three petitions were presented to the Council, of which two stood referred to select committees without the authorized powers under the P & P Ordinance in accordance with RoP 20(6) concerning respectively the cost overrun in respect of the construction of the Hong Kong-Zhuhai-Macao Bridge, and the mechanism for assessing the impact of the divestment of assets on residents of subsidized housing. The two select committees are pending activation of work. Another petition with regard to the Co-operation Arrangement between the Mainland and Hong Kong Special Administrative Region on the Establishment of the Port at West Kowloon Station of the Guangzhou-Shenzhen-Hong Kong Express Rail Link

for Implementing Co-location Arrangement was not referred to HC as there was insufficient number of Members supporting the request. Meanwhile, another select committee without the authorized powers under the P & P Ordinance, which was formed in the previous session, to inquire into the matters about the agreement between Mr LEUNG Chun-ying and the Australian firm UGL Limited ("UGL Select Committee") continued its work.

The Council also dealt with two motions moved in accordance with RoP 49B(1A) to censure Members for misbehaviour and/or breach of oath under BL 104. After deliberation, the Council decided not to take further action on the motion to censure Dr Hon Junius HO Kwan-yiu concerning his public speech that allegedly incited violence. On the other hand, the motion to censure Hon HUI Chi-fung in respect of his alleged misbehaviour of grabbing the mobile phone and documents from a public officer executing duties in the LegCo Complex was referred to an investigation committee for establishing the relevant facts.

The Investigation Committee on the motion to censure Dr Hon CHENG Chung-tai formed in the previous session had completed its work and reported to the Council. The Committee considered that Dr CHENG's conduct of openly and deliberately humiliating the national flag and regional flag at the Council meeting of 19 October 2016 constituted both "breach of oath" and "misbehaviour" under BL 79(7), and came to the unanimous view that the facts as established constituted grounds for the censure of Dr CHENG. The censure motion, after debate, was negatived by the Council. The Investigation Committee formed in the previous session on the motion to censure Hon Holden CHOW Ho-ding, who was alleged to have conspired with and assisted Mr LEUNG Chun-ying to interfere with and obstruct the inquiry of the UGL Select Committee, continued its work.

HC continues to serve as a platform for regular communication between Members and the Administration. Members' views were conveyed by the Chairman and Deputy Chairman of HC to the Chief Secretary for Administration ("CS") at their regular meetings.

In light of the unprecedented severe and extensive damage caused by Super Typhoon Mangkhut to people's livelihood, transport and environment in the city, HC held a special meeting on 4 October 2018 to receive briefing by CS together with nine Secretaries of Bureaux and relevant Heads of Departments on the Government's preparations, emergency response and recovery efforts arising from the typhoon. During the two-hour special meeting, a total of 31 Members raised questions to seek information from the attending government officials or ask for official action with regard to the issue.

In this session, there was obvious improvement in the time taken by FC and its two subcommittees in the scrutiny of public expenditure proposals put forward by the Government. FC deliberated on and approved 98 financial proposals involving a total commitment of \$251.4 billion, including \$168.1 billion on public works projects and \$83.3 billion on non-public works expenditure. The main items approved included the Central Kowloon Route Main Works, the redevelopment of five hospitals, a funding for promoting innovation and technology in Hong Kong and a provision for six universities to build student hostels. The committed amount is record high since the 2012-2013 legislative session. On average, FC spent about 1.4 hours on each item in this session, compared to four hours in the last session.

The improved efficiency, in my view, is attributed to the better executive-legislative relationship, as well as amendments to the Finance Committee Procedure which resulted in better use of FC's meeting time. I hope this positive trend will continue so that FC can perform its functions effectively and efficiently.

The importance of a harmonious and interactive executive-legislative relationship to effective governance cannot be overstated. While performing their respective functions under checks and balances, government officials and Members must demonstrate mutual trust and respect to work together for the betterment of Hong Kong.

Since the Chief Executive ("CE") Mrs Carrie LAM CHENG Yuet-ngor took office, she has pledged to enhance communication with Members across the political spectrum. In addition to the regular Chief Executive's Question and Answer

Sessions that are normally held four times a year, CE has accepted my proposal to attend an additional Chief Executive's Question Time ("Question Time") once a month when the Council is in session. Each Question Time is conducted in a "short question, short answer" format and lasts for about 30 minutes during which CE could answer questions from about 10 Members.

Through the Question Time, CE is able to respond immediately to Members' concerns and to act on and address topical issues promptly, for instance, the delinking of the prices of subsidized housing with the private property market, the introduction of a new tax regime on vacant residential properties, and the provision of cash withdrawal services in post offices in remote areas. During the session, CE attended 11 LegCo meetings and answered a total of 139 questions (excluding supplementary questions) from Members.

For the first time in the past nine years, the Council passed the Motion of Thanks after CE delivered her Policy Address in October 2017. It is a good sign of an improving relationship between the Legislature and the Executive.

In April 2018, 32 Members conducted a successful and fruitful duty visit to the Guangdong-Hong Kong-Macao Greater Bay Area ("the Bay Area"). During the three-day visit, Members visited five cities in the Bay Area to gain a better understanding of the latest development of the Bay Area, and met with representatives of the Guangdong Provincial Government and the Municipal Governments of the five cities to exchange views on issues of mutual concern.

On 23 April 2018, the Director of the Liaison Office of the Central People's Government in Hong Kong Special Administrative Region, Mr WANG Zhimin, visited the LegCo Complex and attended a luncheon with 50 Members. I hope there will be more opportunities for Members to exchange views on matters of mutual concern with the officials of the Mainland authorities. When suitable opportunities arise, I hope all Members would participate in a duty visit to the Mainland such as the Yangtze River Delta Economic Zone to better understand the development of our country.

To sustain and excel what this Council has achieved in this session, all Members will need to bury the hatchet and work hand in hand to better serve the community we live in and the people we care.

Last but not least, I would like to express my heartfelt appreciation to the Secretariat staff who have worked tirelessly and professionally to provide support services for the Council.

The Basic Law of the Hong Kong Special Administrative Region ("HKSAR") stipulates that the HKSAR shall be vested with legislative power and the Legislative Council shall be the legislature of the Region.

# Chapter 1 The Legislative Council

## Powers and functions

Pursuant to Article 73 of the Basic Law, the Legislative Council of the Hong Kong Special Administrative Region shall exercise the following powers and functions:

- To enact, amend or repeal laws in accordance with the provisions of the Basic Law and legal procedures;
- To examine and approve budgets introduced by the government;
- To approve taxation and public expenditure;
- To receive and debate the policy addresses of the Chief Executive;
- To raise questions on the work of the government;
- To debate any issue concerning public interests;
- To endorse the appointment and removal of the judges of the Court of Final Appeal and the Chief Judge of the High Court;
- To receive and handle complaints from Hong Kong residents;
- If a motion initiated jointly by one-fourth of all the members of the Legislative Council charges the Chief Executive with serious breach of law or dereliction of duty and if he or she refuses to resign, the Council may, after passing a motion for investigation, give a mandate to the Chief Justice of the Court of Final Appeal to form and chair an independent investigation committee. The committee shall be responsible for carrying out the investigation and reporting its findings to the Council. If the committee considers the evidence sufficient to substantiate such charges, the Council may pass a motion of impeachment by a two-thirds majority of all its members and report it to the Central People's Government for decision; and
- To summon, as required when exercising the above-mentioned powers and functions, persons concerned to testify or give evidence.

## Composition

According to the Basic Law, the Legislative Council ("LegCo") of the Hong Kong Special Administrative Region shall be constituted by election. The Sixth LegCo comprises 70 Members,<sup>1</sup> of whom 35 were returned by geographical constituencies through direct elections and 35 were returned by functional constituencies. The election for the Sixth LegCo was held on 4 September 2016, and the term of office is four years from 1 October 2016 to 30 September 2020.

The President of LegCo is elected by and from among the Council's Members. Details of the composition of the Sixth LegCo are provided in [Appendix 1](#).

<sup>1</sup> Of the six vacancies in the membership of the Sixth LegCo arising from the courts' declaration that six elected Members were disqualified from assuming the office of a Member of LegCo since 12 October 2016, four vacancies have been filled following the LegCo by-election held on 11 March 2018. As of 9 October 2018, there were two vacancies in the membership of the Council.

## Chapter 2 **Legislative Council Meetings**

Meetings of the Legislative Council ("LegCo") are open to the public and may be conducted in Cantonese, English or Putonghua, with simultaneous interpretation and sign language interpretation. The proceedings of Council meetings are broadcast live on the Council's website, reported by the mass media, and recorded verbatim in the Official Record of Proceedings of LegCo. The business transacted at regular Council meetings mainly includes tabling of subsidiary legislation, papers and reports; asking of questions for replies from the Government; consideration of bills; and debates on motions.

Council meetings held	42 (four of which were the Chief Executive's Question and Answer Sessions and seven the Chief Executive's Question Times)
Meeting hours	520

### Tabling of subsidiary legislation, papers and reports

Subsidiary legislation refers to any proclamation, rule, regulation, order, resolution, notice, rule of court, bylaw or other instrument made by designated authorities under or by virtue of relevant ordinances and having legislative effect. Such legislation is subject to the Council's scrutiny through a positive or negative vetting procedure. Members or public officers may move motions in the Council to amend subsidiary legislation.

Papers tabled in Council include annual reports of government departments and public bodies, as well as reports of the Council's committees. Members and public officers may address the Council on these reports.

Subsidiary legislation subject to negative vetting tabled	142
Papers and reports tabled	191

While in session, the Legislative Council normally meets on Wednesdays in the Chamber of the Legislative Council Complex.

## Questions

Any Member may address questions to the Government on its work, either seeking information on a particular matter or asking for official action with regard to that matter. The Member must specify whether an oral or a written reply is required. For questions seeking oral replies, supplementary questions may be put by any Member to request further elaboration after the public officer has replied. Members may, with the President's permission, ask urgent questions on the ground that they are of an urgent character and relate to matters of public importance.

Oral questions	150
Supplementary questions	719
Written questions	499

Members ask questions at Council meetings to seek information on the work of the Government or ask for official action with regard to it.

## Petitions

Petitions may be presented to the Council by Members. The Member presenting a petition may make a summary statement of the number and description of the petitioners and the substance of the petition. On 15 December 2017, Rule 20(6) of the Rules of Procedure ("RoP") was amended to the effect that if a petition is supported by not less than one half of all Members of the Council (instead of not less than 20 Members as previously required), it will stand referred to the House Committee (instead of a select committee as previously required).

Petitions presented	3
---------------------	---

Before RoP 20(6) was amended, at the Council meeting of 13 December 2017, the following two petitions were referred to select committees:

- a petition jointly presented by Dr Hon KWOK Ka-ki and Hon Jeremy TAM Man-ho requesting the Council to inquire into matters relating to the further cost overrun in respect of the construction of the main bridge of the Hong Kong-Zhuhai Macao Bridge; and
- a petition jointly presented by Hon Jeremy TAM Man-ho and Dr Hon KWOK Ka-ki requesting the Council to inquire into matters relating to the mechanisms for the Government to regularly review the impact of the divestment of shopping centres by the Housing Authority on residents of subsidized housing, and to replenish facilities of housing estates that are lacking due to the divestment.

After RoP 20(6) was amended, at the Council meeting of 10 January 2018, a petition was jointly presented by Hon Charles Peter MOK and Hon WU Chi-wai requesting the Council to inquire into matters relating to the decision on the Co-operation Arrangement between the Mainland and the Hong Kong Special Administrative Region on the Establishment of the Port at West Kowloon Station of the Guangzhou-Shenzhen-Hong Kong Express Rail Link for Implementing Co-location Arrangement. As the petition did not obtain sufficient support from Members, it was not referred to the House Committee.

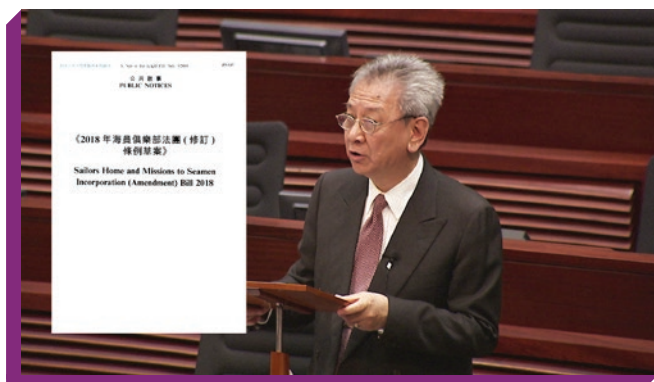

Members rise in support of a request that a petition be referred to a select committee at the Council meeting of 13 December 2017.

## Bills

The Government is primarily responsible for proposing new legislation or amendments to existing legislation in the form of bills for consideration by the Council. Subject to certain conditions, Members may introduce bills into the Council. A bill has to be given three readings for its passage by the Council. A copy of every bill passed by the Council, certified as a true copy by the Clerk to the Legislative Council, shall be submitted to the Chief Executive for signature.

Bills introduced	
- By the Government	23
- By Member	1
Bills passed	
- Government bills with amendment	16
- Government bills without amendment	11
- Member's bill with amendment	0
- Member's bill without amendment	1

Members may introduce bills in accordance with the Basic Law and legal procedures, provided that they do not relate to public expenditure or political structure or the operation of the Government.

## Motions

Motions are the mechanism through which most Council business is transacted. The consideration of a bill takes place by way of a series of motions moved, debated and voted upon by Members. Amendments to bills and the approval for or amendments to subsidiary legislation subject to positive vetting are also effected through motions. Subsidiary legislation subject to negative vetting may also be amended by way of motions.<sup>1</sup>

The Government may move motions under Article 73(7) of the Basic Law ("BL") to seek the endorsement of the Council on the appointment of judges, and other motions.

In addition, Members may debate motions not intended to have legislative effect. These debates provide opportunities for Members to express views on issues concerning public interest and call on the Government to take actions. ## Requests for leave of the Council to give evidence of Council proceedings

Requests for leave of the Council to give evidence of Council proceedings under section 7 of the Legislative Council (Powers and Privileges) Ordinance (Cap. 382) and Rule 90 of the Rules of Procedure ("RoP") shall be submitted to the Clerk to the Legislative Council ("the Clerk") and placed on the Agenda for a Council meeting as appointed by the President. Unless on a motion moved by a Member the Council determines that such leave be refused, the Council shall be deemed to have ordered that such leave be granted. Where the request for leave of the Council is sought during any recess or adjournment or dissolution of the Council, such leave may be given by the President under section 7(2) of Cap. 382 and RoP 90(4).

Requests for leave	2
Leave given by the President on <u>21 February 2018</u> under section 7(2) of Cap. 382 and RoP 90(4) for the Clerk to give evidence in respect of Applications for Leave to Apply for Judicial Review (HCAL 1094, 1095 and 1120 of 2017).

## Chapter 3 Committees

Members perform the functions of scrutinizing bills and subsidiary legislation, examining and approving public expenditure and monitoring the work of the Government through a committee system.

There are three standing committees of the Legislative Council, namely the Finance Committee, the Public Accounts Committee and the Committee on Members' Interests. Standing committees, by virtue of section 9(1) of the Legislative Council (Powers and Privileges) Ordinance (Cap. 382), may order any person to give evidence, while all other committees may also have this power, where so authorized by the Council, under section 9(2) of Cap. 382.

There are other committees of a standing nature with specific functions stipulated in the Rules of Procedure ("RoP"), namely the Committee on Rules of Procedure, the Committee on Access to the Legislature's Documents and Records, the House Committee and Panels.

The Committee on Rules of Procedure reviews RoP of the Council and the committee system and proposes to the Council such amendments or changes as are considered necessary.

The Committee on Access to the Legislature's Documents and Records determines whether a document or record of the Legislature (or its committee) should be made available for access earlier than the expiry of the closure period specified in the Policy on Access to the Legislature's Documents and Records.

The House Committee considers any matters relating to the business of the Council and monitors progress made in studying bills and subsidiary legislation. Bills and subsidiary legislation that require more in-depth study are scrutinized respectively by Bills Committees and subcommittees, and these committees would report their deliberations to the House Committee.

In addition, a petition presented to the Council will be referred to the House Committee under RoP 20(6), as amended at the Council meeting of 13 December 2017, if the request for the petition to be referred is supported by no less than one half of all Members of the Council. The House Committee shall decide the manner of consideration of the petition and may present a report to the Council after the consideration of the petition.

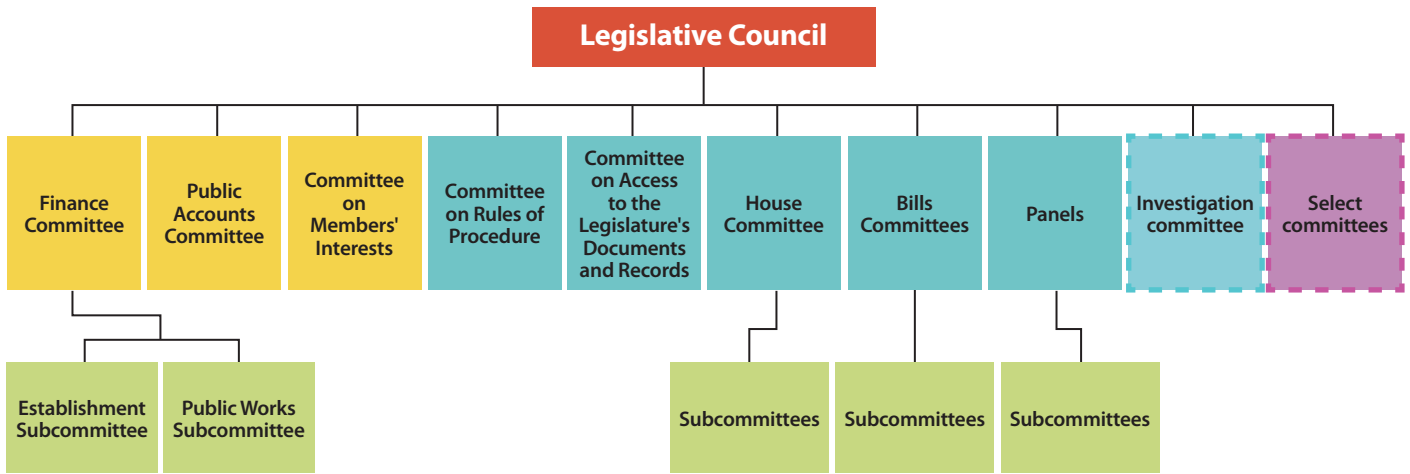

The committees that monitor and examine policy issues are called Panels. There are currently 18 Panels, the formation and terms of reference of which were approved by the Council on the recommendation of the House Committee.

Apart from the above, an investigation committee may be established under RoP 49B(2A) (Disqualification of Member from Office) upon the moving of a censure motion under RoP 49B(1A). After completing its work, the investigation committee is required to report to the Council and is dissolved after tabling of its report.

Select committees may be appointed by the Council for in-depth consideration of matters or bills.

## The committee system of the Legislative Council

- An investigation committee may be established under RoP 49B(2A) following the moving of a motion to censure a Member.

Besides, the Committee also approves proposals from FS to expend money from certain Funds<sup>1</sup> established under section 29 of the Public Finance Ordinance (Cap. 2) pursuant to the Resolutions on the Funds.

The Legislative Council operates a Redress System to receive and handle complaints from members of the public who are aggrieved by government actions or policies. It also deals with public representations on government policies and legislation, as well as other matters of public concern.

Members take turns, in groups of seven, to be on duty each week to oversee the Redress System, and to receive and handle representations of and complaints made by deputations. During their duty week, Members also take turns to undertake "ward duty" during which they meet with individual members of the public and provide guidance to staff on the processing of cases.

## Significant cases handled

### *Nuisances caused by a waste plastics recycling plant*

A deputation solicited Members' assistance on the nuisances caused by a waste plastics recycling plant in Tai Po Industrial Estate. Since toxic gases and pollutants which might be generated from the waste plastics recycling plant would jeopardize the health of factory workers and undermine the safety of the food and medicine production processes in the nearby factories, the deputation called on the Administration to terminate the short-term tenancy granted to the recycler. At the case conference held with Members, the Environmental Protection Department ("EPD") clarified that the recycler would not conduct incineration process at the site, and hence no toxic gases would be formed. Nevertheless, in response to Members' concern, EPD undertook to increase the frequency of scheduled inspections as well as conduct surprise site inspections to ensure the recycler's compliance with the environmental legislation. If need be, referral would be made to the Lands Department for appropriate action for breach of the tenancy terms, including termination of the short-term tenancy. The recycler also undertook to adopt extra measures to achieve better environmental performance and improve the monitoring effectiveness, such as the use of advanced air purification system and the construction of a covered area inside the site for storage of recycling materials to reduce odour emission.

### *Application of pesticides*

A complainant sought Members' assistance on the application of pesticides at Tamar Park ("the Park"). Expressing grave concern that pesticides which were toxic and detrimental to health were being applied when the Park was open to the public, the complainant urged the Leisure and Cultural Services Department ("LCSD") to cordon off the Park when applying pesticides. In response to Members' referral, LCSD reviewed the operation plan for spraying pesticides. To minimize the impact on park-goers, LCSD undertook to conduct the operation by zones, with warning signs posted in appropriate areas before and after the operation, and cordon off the affected area for a specified period upon application of pesticides.

### *Safety of a food lift*

A deputation comprising kitchen workers sought Members' assistance on the safety of a food lift in their workplace. Notwithstanding their complaint with the Electrical and Mechanical Services Department ("EMSD") on the malfunctioning of the food lift door which could be opened even when the lift was not in position and hence workers' safety would be at stake as they might fall into the lift shaft, EMSD did not take appropriate follow-up action. At Members' request, EMSD conducted a site inspection and affirmed that the food lift was not operating in normal condition. Apart from requesting the concerned contractor to fix up the door opening device, EMSD also deducted the contractor's performance monitoring points under the Contractors' Performance Rating System for non-compliance with the service quality performance standards.

### *Preservation of a tree*

A complainant sought Members' assistance on the repeated damages made to a tree in Tuen Mun Riverside Park. Although LCSD had followed up on his previous complaint to release the tied-up aerial roots of the tree, the complainant later found that the aerial roots were improperly pruned. Upon receipt of Members' referral of the complaint for follow-up, LCSD conducted an investigation and noted that a worker of the horticultural maintenance contractor ("the Contractor") engaged by LCSD had, contrary to the Departmental Guidelines for handling trees with aerial roots when carrying out maintenance work and without seeking the advice of LCSD's venue staff, trimmed the aerial roots of the tree to make room for mowing the weeds underneath the crown of the tree. In response to Members' grave concern on the repeated damages made by the Contractor to the tree, LCSD undertook that its venue staff would closely monitor the performance of the Contractor to prevent recurrence, and a default notice, which would result in LCSD's deduction of the monthly fee payable and the Government's unfavourable consideration of its future tenders, would be issued to the Contractor if a similar mistake was made.
