President's Foreword

Hon Andrew LEUNG Kwan-yuen, President of the Legislative Council

Introduction

As it is often said, “The Legislative Council (“LegCo”) is an epitome of Hong Kong society.” In the past few years, Hong Kong has gone through drastic changes and unprecedented challenges, so has LegCo. The social unrest and violence in 2019 prompted the Central Government to enact the Law of the People’s Republic of China on Safeguarding National Security in the Hong Kong Special Administrative Region. Hong Kong has quickly restored its governance and social stability from the state of chaos. The improved electoral system has ensured “patriots administering Hong Kong”, thereby enabling the steadfast and successful implementation of “One Country, Two Systems” in Hong Kong. As the silver lining started to show up, LegCo has returned to its long-awaited rationality and order in this session. The efficiency of meetings has improved significantly, which was in line with public expectation. I am particularly relieved and pleased to witness from the President’s podium that LegCo and the community are finally able to get rid of internal rift and gradually return to the right track.

NPCSC's decision on extension of the Sixth LegCo and the change of membership

The COVID-19 epidemic situation became worse in the summer of 2020. Pursuant to the Decision of the Standing Committee of the National People's Congress ("NPCSC") made on 11 August 2020, the Sixth LegCo, whose term of office originally scheduled to end on 30 September 2020, continued to discharge duties for not less than one year until the seventh term of office of LegCo began. With the passage of a bill to improve the electoral system, the term of office of the Sixth LegCo ended on 31 December 2021.

While some Members decided not to continue to serve as Members of LegCo and resigned at the end of 2020, the Members who remained in office have continued to discharge their duties dutifully and carry out their work in LegCo in a rational and pragmatic manner. The Sixth LegCo eventually acted in the best interests of Hong Kong and met public expectation. When this term of LegCo stood prorogued, all the bills that required LegCo's scrutiny had been completed. This was the first time since the Third LegCo that there was no outstanding bill at the time of prorogation.

Improving Electoral System

The passage of the Improving Electoral System (Consolidated Amendments) Bill 2021 ("Improving Electoral System Bill") marked an important milestone in the history of LegCo and constitutional development of Hong Kong.

In the past few years, some LegCo Members tried every possible means to filibuster and obstruct the proceedings of meetings in order to delay or even paralyse the operation of LegCo and bring the Legislature and Hong Kong to a standstill. The restoration of constitutional order in the Hong Kong Special Administrative Region ("HKSAR") and the faithful implementation of "patriots administering Hong Kong" could brook no delay. On 11 March 2021, the National People's Congress adopted the Decision on Improving the Electoral System of HKSAR ("the Decision") and authorized NPCSC to amend Annexes I and II to the Basic Law on the method for selecting the Chief Executive and the method for the formation of LegCo and its voting procedures.

To expedite the implementation of the improved electoral system, the House Committee ("HC") decided to form a subcommittee ("the Subcommittee") to commence the relevant discussions prior to the Government's introduction of the Improving Electoral System Bill into LegCo. Upon the introduction of the Bill, the Subcommittee was immediately transformed into a Bills Committee to scrutinize the Bill in detail. The Subcommittee and the Bills Committee held a total of 17 meetings, spanning 47 hours, on this important and urgent task. The Government accepted a number of Members' suggestions and proposed 369 amendments to

the Bill. This reflected a positive interaction between the Executive Authorities and the Legislature, with checks and balances as well as mutual cooperation. The Bill, with all the amendments thereto, was passed by LegCo on 27 May 2021 with the support of Members. With the improved electoral system, the 2021 LegCo General Election was successfully held on 19 December 2021 and it was the first time in Hong Kong's history that each and every constituency was contested.

Overview of Council business in 2020-2021 session

In the 2020-2021 session, LegCo restored rationality and effectively handled a huge backlog that had been long outstanding, including a number of livelihood-related bills.

The Council held a total of 49 meetings in this session during which there were no further instances of grossly disorderly conduct by Members necessitating suspension or adjournment of meetings. All agenda items were dealt with in an efficient and timely manner. For this session alone, a record of 46 Government bills were passed, which had more than doubled the yearly average of about 20 bills passed in the past few terms.

Many of the bills passed were conducive to people's livelihood, including the Landlord and Tenant (Consolidation) (Amendment) Bill 2021 which sought to regulate tenancies of subdivided units, the Employment (Amendment) Bill 2021 which sought to progressively increase the number of statutory holidays to align with that of general holidays, the Medical Registration (Amendment) Bill 2021 which sought to provide a new type of registration for non-locally trained medical practitioners to practise in Hong Kong, the Smoking (Public Health) (Amendment) Bill 2019 which sought to prohibit e-cigarettes and heated tobacco products, and the Waste Disposal (Charging for Municipal Solid Waste) (Amendment) Bill 2018 which sought to establish a charging scheme for the disposal of municipal solid waste.

Members were also concerned about the well-being of the public, and two Members introduced their bills respectively in the session. Both bills were passed without amendments, including the Waterworks (Waterworks Regulations) (Amendment) Bill 2021 which sought to combat overcharging of water charges by landlords from tenants of subdivided units, and the Organized and Serious Crimes (Amendment) Bill 2021 which sought to provide law enforcement officers with more investigative and enforcement powers to combat illegal trade in endangered species.

The Council also dealt with 324 items of subsidiary legislation through negative or positive vetting procedure, two proposed resolutions on judicial appointments, and 1 644 Members' questions seeking oral or written replies from the Government.

In the last session, the Council had no opportunity at all to debate Members' motions not intended to have legislative effect due to a huge backlog of agenda items. As LegCo finally returned to the right track in this session, a total of 35 such motions covering a wide range of issues of public concern were debated, of which 30 were passed with or without amendments and five were negatived.

Amending Rules of Procedure

The effective functioning of LegCo is of particular importance to society and it is necessary to ensure that LegCo would not cease operation as a result of the severe epidemic. In this connection, the Council passed a motion under Article 75 of the Basic Law ("BL") at the meeting of 13 January 2021 to authorize Panels, Bills Committees and subcommittees to hold remote meetings by videoconferencing. As such, committees are able to continue to perform their functions under the Rules of Procedure ("RoP") and the House Rules ("HR") while observing social distancing.

On the other hand, the Committee on Rules of Procedure ("CRoP") also conducted a comprehensive review of RoP and HR to address a number of unresolved issues, including frequent filibustering at meetings of the Council and its committees, the lengthy election process of committee chairmen, the disruptions to meetings due to grossly disorderly conduct of Members and abuse of procedures, and the negative impact on the operation of committees due to their exceedingly large membership sizes. In addition, preparations were also needed to cater for the increased membership of the Seventh LegCo from 70 to 90 Members. Amendments were proposed to the relevant provisions to address the above matters.

On the recommendations of CRoP, the Council passed three proposed resolutions under BL 75 to amend the relevant provisions of RoP, and HC approved consequential amendments to HR. These amendments sought to ensure the orderly, effective and proper conduct of business by the Council and its committees. Details of the amendments are set out in the relevant section in this Annual Report.

The Council also passed the Legislative Council (Disciplinary Sanctions and Remote Sitting) (Miscellaneous Amendments) Bill 2021 at the meeting of 15 September 2021 to define LegCo's power to impose financial penalties on individual Members who are suspended from the service of LegCo due to their grossly disorderly conduct or whose absence from a Council meeting without valid reasons caused an adjournment of LegCo due to a lack of quorum. The Bill also allows meetings of the Council or its committees be conducted remotely in exceptional circumstances.

Overview of the work of Finance Committee

During the session, the Finance Committee ("FC") performed its functions efficiently in scrutinizing and approving public expenditure proposals presented by the Government to ensure the proper use of public money.

FC held 48 meetings spending about 127 hours. While the total numbers of meetings and meeting hours were less than those in the previous session, the Committee approved 120 financial proposals in this session, which is a record high in this term of LegCo.

The approved financial proposals, comprising 63 public works and 57 non-works proposals, involved a total commitment of \$327.8 billion. The main items approved included the fourth round of funding injection of about \$6.4 billion to the Anti-epidemic Fund, as well as funding provisions for the development of the Chinese Medicine Hospital in Tseung Kwan O and a new acute hospital at Kai Tak Development Area, the expansion plans of two other hospitals, and the development of a new facilities building of the Hong Kong Sports Institute.

Apart from helping the public to tide over the difficulties arising from the epidemic and approving a number of projects that were closely related to people's livelihood, FC also approved a considerable number of financial proposals which carry far-reaching significance to the long-term development of Hong Kong, such as the planning and engineering study for the development of the New Territories North, the Strategic Studies on Railways and Major Roads beyond 2030, and the funding injection to the Hong Kong Science and Technology Parks Corporation to support the development of the Hong Kong-Shenzhen Innovation and Technology Park.

In addition, in light of past operational experience, FC approved at its meeting on 15 October 2021 a number of amendments to the Finance Committee Procedure, with a view to ensuring the orderly and efficient handling of business by FC and its two subcommittees.

Executive-Legislative Relationship

A positive and interactive relationship between the Executive Authorities and the Legislature is essential to good governance. Unfortunately, in the last session, the executive-legislative relationship was so strained that, for example, the Chief Executive's Question Time ("CEQT") held in the form of "short questions, short answers" was repeatedly disrupted by the grossly disorderly conduct of some Members. As such, CEQTs have not been held since June 2019.

Since the executive-legislative relationship improved in this session, CEQT resumed in March 2021 and Members raised questions on issues of grave public concern, such as the COVID-19 epidemic, vaccines, and quarantine-free travel to the Mainland. As rationality has been restored in LegCo, I hope that the Executive Authorities and the Legislature can continue to join hands in safeguarding the constitutional order and overall interests of Hong Kong so as to ensure its long-term prosperity and stability.

Interaction with Central Authorities officials

The future of Hong Kong is deeply connected with the national development. Riding on the opportunity of the beginning of the implementation of the National 14th Five-Year Plan (“the 14th Five-Year Plan”), the Central Authorities organized a delegation to visit LegCo on 23 August 2021 to attend a seminar. The delegation, comprising senior officials from the Central Authorities and experts from national think-tanks, delivered speeches and had in-depth and fruitful exchanges with Members on that occasion.

The seminar focused on discussing the role of Hong Kong in complementing the implementation of the 14th Five-Year Plan and the opportunities for us to reinforce and strengthen the city’s competitive edge. I believe the seminar would help Members to make recommendations to the Government in a broader perspective in the future, which would be beneficial to the development of our country and Hong Kong.

Concluding remarks

The Seventh LegCo, which commenced in January 2022, has a new composition and an expanded membership to 90. To accommodate the increasing need for meeting venues and office space, an expansion project of the LegCo Complex will begin in mid-2022 with its targeted completion by mid-2025. The LegCo Secretariat is working closely with relevant Government departments to ensure that the expansion project will be carried out smoothly while LegCo business in the Complex can continue as usual. Despite the increase in the number of Members, no additional resources have been provided to the Secretariat. I would like to take this opportunity to thank the Secretariat for its dedication and continual provision of professional services to the Council and offering comprehensive and impartial advice to Members. The colleagues of the Secretariat were also rigorous in helping me as President of LegCo to make each and every ruling which was lawful, sensible and reasonable.

At the time of writing this Foreword, we are in the midst of the fifth wave of the COVID-19 epidemic. Containing the epidemic, safeguarding public safety and health as well as stabilizing the Hong Kong community are the overriding missions. At this critical juncture, all Members of the Seventh LegCo are committed to working with the Government and the public to fight against the virus. With wholehearted support of the Central Government and the concerted efforts of the entire community, we will do our utmost to win this anti-epidemic battle and make Hong Kong shine again!

Chapter 1

The Legislative Council

The Basic Law of the Hong Kong Special Administrative Region (“HKSAR”) stipulates that the HKSAR shall be vested with legislative power and the Legislative Council shall be the legislature of the Region.

Powers and functions

Pursuant to Article 73 of the Basic Law, the Legislative Council of the Hong Kong Special Administrative Region shall exercise the following powers and functions:

- To enact, amend or repeal laws in accordance with the provisions of the Basic Law and legal procedures;
- To examine and approve budgets introduced by the government;
- To approve taxation and public expenditure;
- To receive and debate the policy addresses of the Chief Executive;
- To raise questions on the work of the government;
- To debate any issue concerning public interests;
- To endorse the appointment and removal of the judges of the Court of Final Appeal and the Chief Judge of the High Court;
- To receive and handle complaints from Hong Kong residents;
- If a motion initiated jointly by one-fourth of all the members of the Legislative Council charges the Chief Executive with serious breach of law or dereliction of duty and if he or she refuses to resign, the Council may, after passing a motion for investigation, give a mandate to the Chief Justice of the Court of Final Appeal to form and chair an independent investigation committee. The committee shall be responsible for carrying out the investigation and reporting its findings to the Council. If the committee considers the evidence sufficient to substantiate such charges, the Council may pass a motion of impeachment by a two-thirds majority of all its members and report it to the Central People’s Government for decision; and
- To summon, as required when exercising the above-mentioned powers and functions, persons concerned to testify or give evidence.

Composition

According to the Basic Law, the Legislative Council (“LegCo”) of the Hong Kong Special Administrative Region shall be constituted by election. The Sixth LegCo comprises 70 Members,¹ of whom 35 were returned by geographical constituencies through direct elections and 35 were returned by functional constituencies. The election for the Sixth LegCo was held on 4 September 2016. The sixth term of office commenced on 1 October 2016. The President of LegCo is elected by and from among the Council’s Members.

The original end date of the Sixth LegCo was 30 September 2020. In view of the severe COVID-19 epidemic situation, the Government postponed the general election for the Seventh LegCo. On 11 August 2020, the Standing Committee of the National People’s Congress (“NPCSC”) decided, pursuant to the relevant provisions of the Constitution of the People’s Republic of China and the Basic Law, that after 30 September 2020, the Sixth LegCo is to continue to discharge duties for not less than one year until the Seventh LegCo begins.

¹ Composition of the Sixth LegCo and the changes in the membership are provided in [Appendix 1](#).

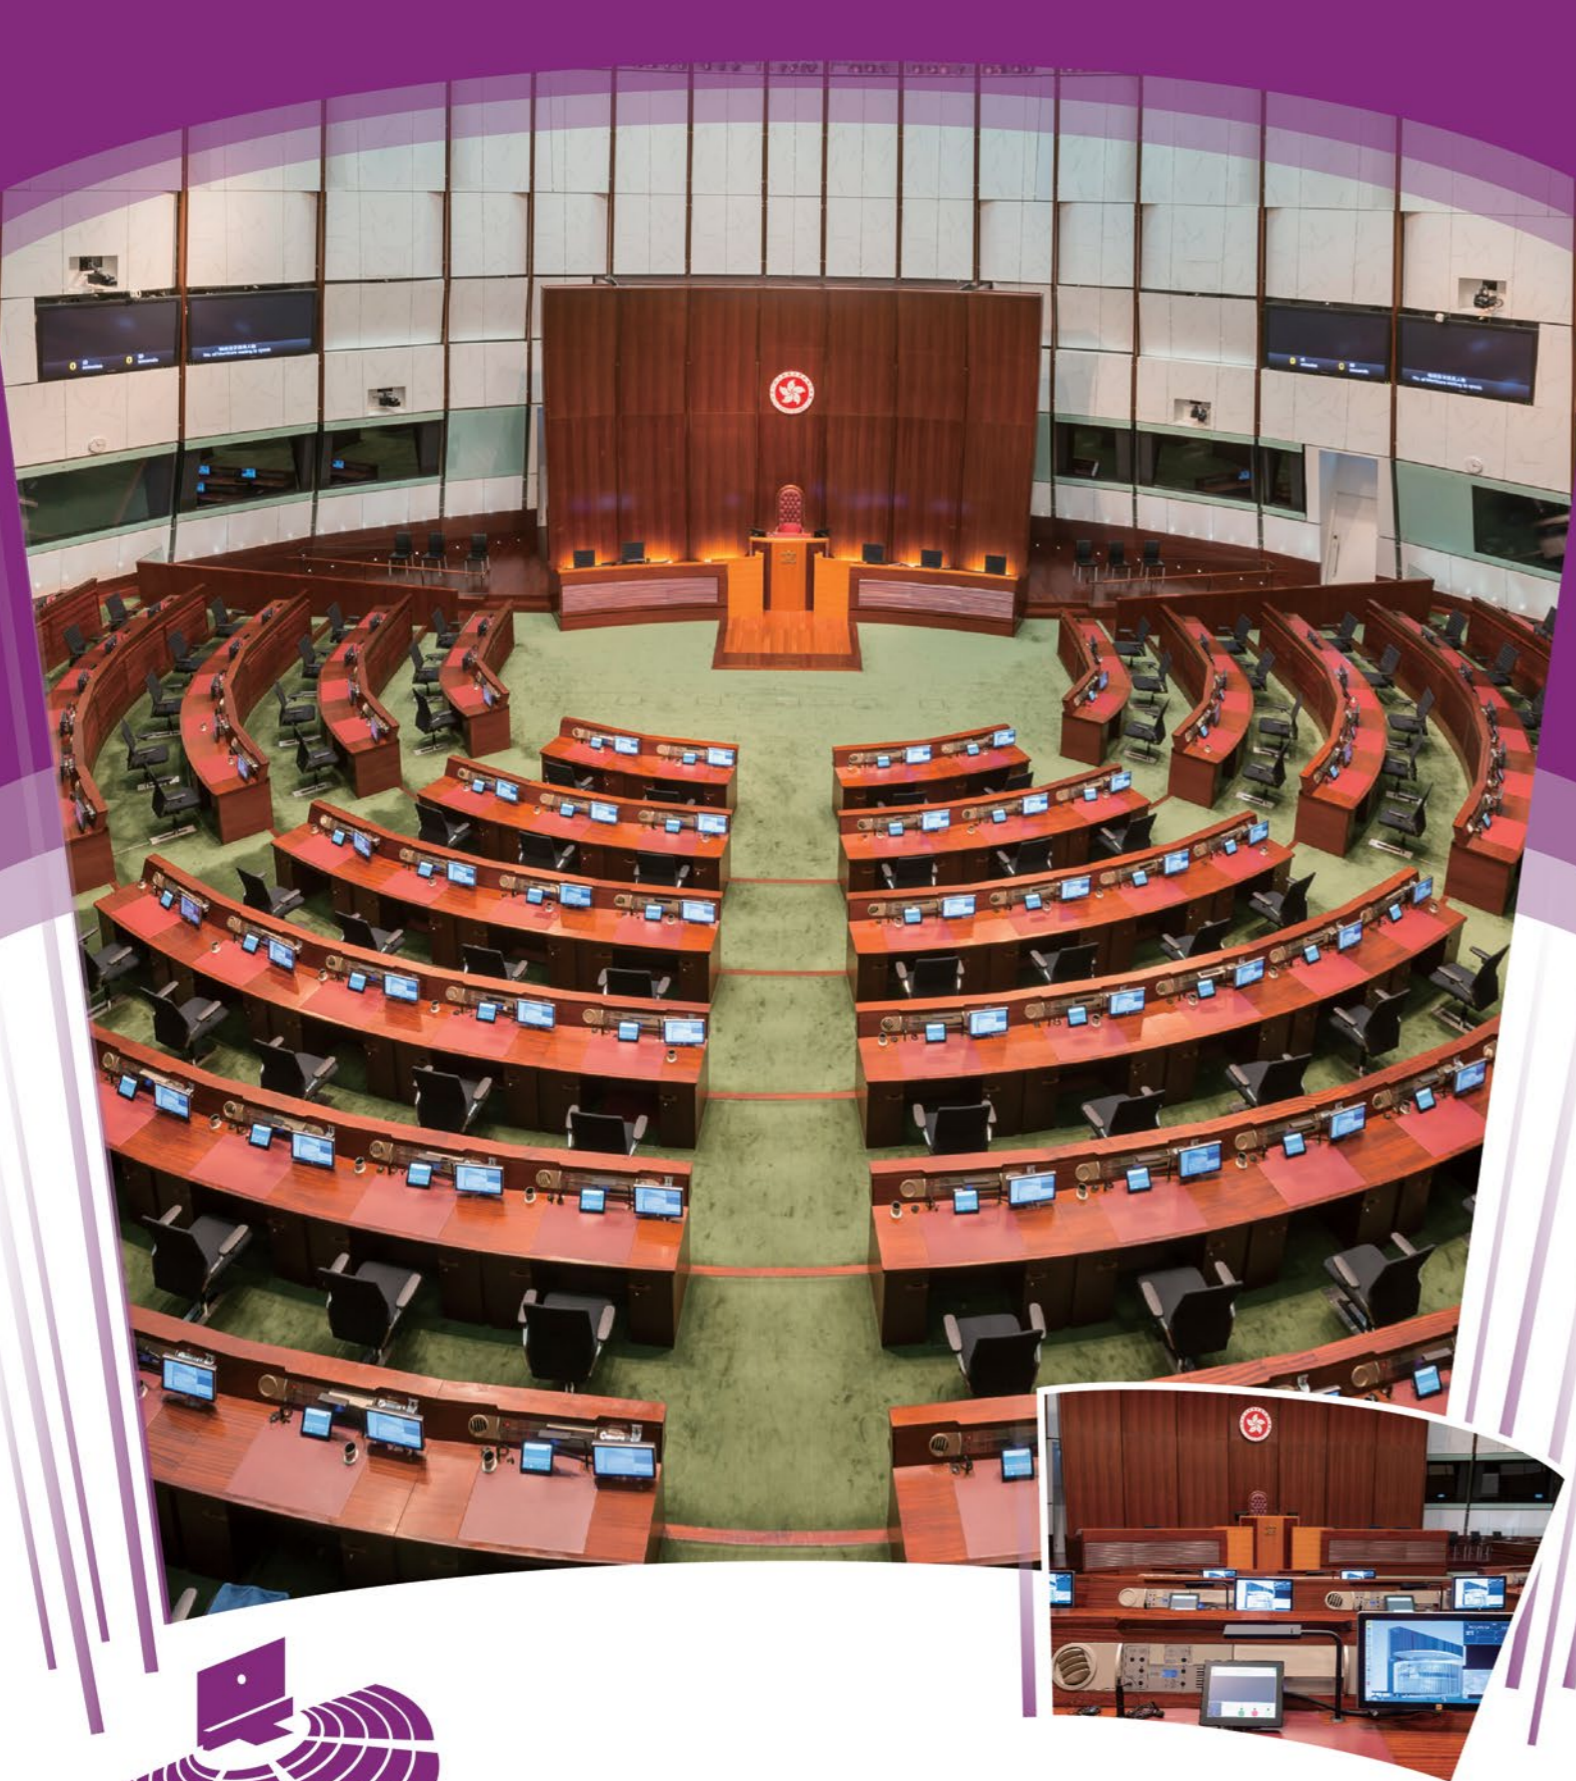

In March 2021, the National People’s Congress passed the Decision on Improving the Electoral System of the Hong Kong Special Administrative Region (“the Decision”) and authorized the NPCSC to amend Annex I to the Basic Law on Method for the Selection of the Chief Executive of the Hong Kong Special Administrative Region and Annex II to the Basic Law on Method for the Formation of the Legislative Council of the Hong Kong Special Administrative Region and its Voting Procedures.

To implement the Decision, the Improving Electoral System (Consolidated Amendments) Ordinance 2021 was enacted by LegCo in May 2021. Pursuant to that Ordinance, the general election for the Seventh LegCo was held on 19 December 2021. In accordance with section 4(3) of the Legislative Council Ordinance (Cap. 542), the Chief Executive in Council has specified 1 January 2022 as the commencement date of the Seventh LegCo. Pursuant to Article 69 of the Basic Law, the Seventh LegCo will last for four years from the date of its commencement.

The Seventh LegCo is composed of 90 Members, with 40 Members returned by the Election Committee, 30 Members by functional constituencies and 20 Members by geographical constituencies through direct elections.

Chapter 2 Legislative Council Meetings

Meetings of the Legislative Council (“LegCo”) are open to the public and may be conducted in Cantonese, English or Putonghua, with simultaneous interpretation and sign language interpretation. The proceedings of Council meetings are broadcast live on the Council’s website, reported by the mass media, and recorded verbatim in the Official Record of Proceedings of LegCo. The business transacted at regular Council meetings mainly includes tabling of subsidiary legislation, papers and reports; asking of questions for replies from the Government; consideration of bills; and debates on motions.

Tabling of subsidiary legislation, papers and reports

Subsidiary legislation refers to any proclamation, rule, regulation, order, resolution, notice, rule of court, bylaw or other instrument made by designated authorities under or by virtue of relevant ordinances and having legislative effect. Such legislation is subject to the Council’s scrutiny through a positive or negative vetting procedure. Members or public officers may move motions in the Council to amend subsidiary legislation.

Papers tabled in Council include annual reports of government departments and public bodies, as well as reports of the Council’s committees. Members and public officers may address the Council on these reports.

While in session, the Legislative Council normally meets every Wednesday in the Chamber of the Legislative Council Complex to conduct business

Questions

Any Member may address questions to the Government on its work, either seeking information on a particular matter or asking for official action with regard to that matter. The Member must specify whether an oral or a written reply is required. For questions seeking oral replies, supplementary questions may be put by any Member to request further elaboration after the public officer has replied. Members may, with the President's permission, ask urgent questions on the ground that they are of an urgent character and relate to matters of public importance.

Bills

The Government is primarily responsible for proposing new legislation or amendments to existing legislation in the form of bills for consideration by the Council. Subject to certain conditions, Members may introduce bills into the Council. A bill has to be given three readings for its passage by the Council. A copy of every bill passed by the Council, certified as a true copy by the Clerk to the Legislative Council, shall be submitted to the Chief Executive for signature.

Motions

Motions are a mechanism through which most Council business is transacted. Consideration of a bill takes place by way of a series of motions moved, debated and voted upon by Members. Amendments to bills and approval for or amendments to subsidiary legislation subject to positive vetting are effected through motions. Subsidiary legislation subject to negative vetting may also be amended by way of motions.¹

In addition, the Government may move motions under Article 73(7) of the Basic Law (“BL”) to seek the Council’s endorsement of the appointment of the judges of the Court of Final Appeal and motions not intended to have legislative effect.

The Finance Committee held eight special meetings between 12 to 16 April 2021 to examine the 2021-2022 Estimates of Expenditure.

Chapter 3 Committees

Members perform the functions of scrutinizing bills and subsidiary legislation, examining and approving public expenditure and monitoring the work of the Government through a committee system.

There are three standing committees of the Legislative Council, namely the Finance Committee, the Public Accounts Committee and the Committee on Members' Interests. Standing committees, by virtue of section 9(1) of the Legislative Council (Powers and Privileges) Ordinance (Cap. 382), may order any person to give evidence, while all other committees may also have this power, where so authorized by the Council, under section 9(2) of Cap. 382.

There are other committees of a standing nature with specific functions stipulated in the Rules of Procedure ("RoP"), namely the Committee on Rules of Procedure, the Committee on Access to the Legislature's Documents and Records, the House Committee and Panels.

The Committee on Rules of Procedure reviews RoP of the Council and the committee system and proposes to the Council such amendments or changes as are considered necessary.

The Committee on Access to the Legislature's Documents and Records determines whether a document or record of the Legislature (or its committee) should be made available for access earlier than the expiry of the closure period specified in the Policy on Access to the Legislature's Documents and Records.

The House Committee considers any matters relating to the business of the Council and monitors progress made in studying bills and subsidiary legislation. Bills and subsidiary legislation that require more in-depth study are scrutinized respectively by Bills Committees and subcommittees, and these committees would report their deliberations to the House Committee.

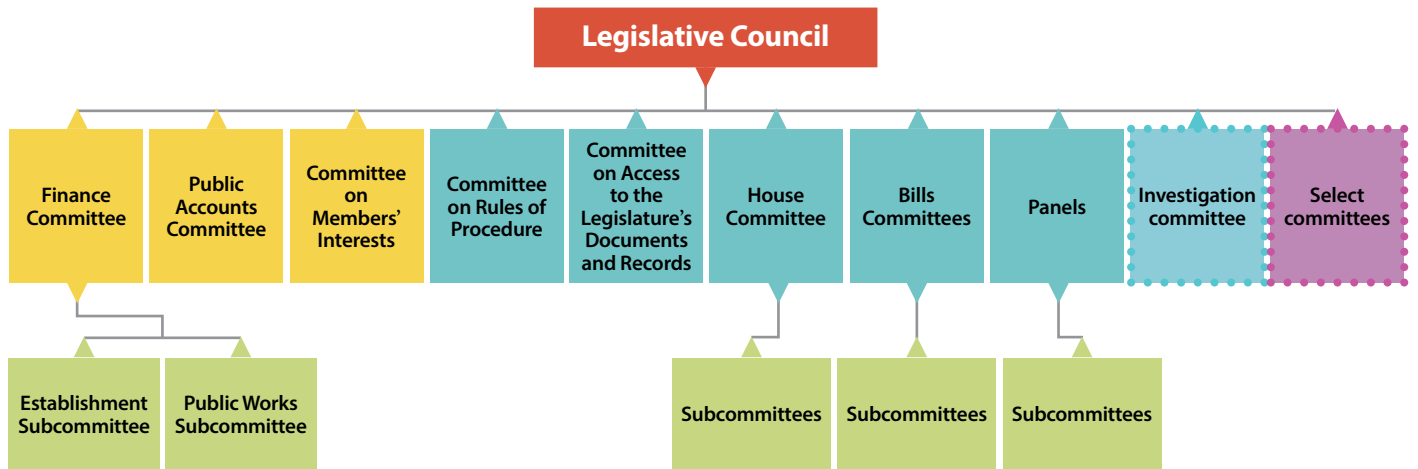

In addition, a petition presented to the Council will be referred to the House Committee under RoP 20(6) if the request for the petition to be referred is supported by no less than one half of all Members of the Council. The House Committee shall decide the manner of consideration of the petition and may present a report to the Council after the consideration of the petition.

The committees that monitor and examine policy issues are called Panels. There are currently 18 Panels, the formation and terms of reference of which were approved by the Council on the recommendation of the House Committee.

Apart from the above, an investigation committee may be established under RoP 49B(2A) (Disqualification of Member from Office) upon the moving of a censure motion under RoP 49B(1A). After completing its work, the investigation committee is required to report to the Council and is dissolved after tabling of its report.

Select committees may be appointed by the Council for in-depth consideration of matters or bills.

Significant cases handled

Waiving of fees for staying in temporary accommodation sites for compulsory quarantine

A deputation sought Members' assistance on the difficulty of Hong Kong residents returning from the Mainland in fulfilling the Government's requirement for paying fees for accommodation and meal arrangements during their stay in temporary accommodation sites for compulsory quarantine. According to the deputation, those residents who had lost their means of living in the Mainland had to return to Hong Kong. Notwithstanding their explanation about the difficulty in settling the payment owing to their financial hardship, the Government continued to issue demand notes to them, indicating that civil proceedings might be instituted for their failure for payment. In view of the plight faced by those residents, the deputation called on the Government to waive such payment. Subsequent to the case conference held with Members, the Administration undertook to exercise discretion to waive the payment of those who had genuine financial hardship and could successfully apply for the Comprehensive Social Security Assistance.

Enhancement to online application system

A complainant sought a Member's assistance on the inconvenience encountered for submission of electronic application forms under the Working Family Allowance Scheme. According to the complainant, when submitting electronic application forms, applicants had to either pay subscription fees for Hongkong Post electronic certificates or get ready printers for printing out the declaration pages for signature, which brought about inconvenience to applicants. Since the said inconvenience would dampen applicants' initiative to submit applications via electronic means which went against the Government's advocacy for reducing paper consumption, the Member took up the complainant's concern with the Administration. In response, the Working Family and Student Financial Assistance Agency undertook that enhancement to its online application system would be made by August 2021, allowing applicants to digitally sign and submit electronic application forms free of charge.

Revision to the Service Handbook for New Arrivals

A complainant expressed grave concern that new arrivals to Hong Kong, due to their unfamiliarity with the local situation, might face the risk of being evicted by mortgagees who had not consented to the lease of mortgaged real estates when leasing residential properties. A Member took up the complainant's concern with the Administration. In response, the Administration advised that the information on the lease of mortgaged real estates was available on the websites of the Estate Agents Authority and the Government of the Hong Kong Special Administrative Region. Yet, since new arrivals might not be aware of such, the Member urged the Administration to consider including such information in the Service Handbook for New Arrivals to facilitate new arrivals' reference and their making of informed decision before leasing residential properties. Upon the Member's repeated requests, the Administration undertook to include such information in the forthcoming edition of the Service Handbook for New Arrivals.
