Subject:

LEGISLATION of ARTICLE 23!

"Brian McCaig"

AGAINST

"I can understand if individual organizations and individual members of the public have doubts [about Article 23 legislation]. That doesn't mean the general public has doubts." -- Regina Ip, downplaying the significance of objections voiced by the Bar Association, 14/02/2003"

--article23org.hk/

As a general public of Hongkong, my fellow family members, friends and myself **DO have doubts** about the Article 23 legislation. And I **DO oppose** the legislation of Article 23!

I urge the government do take the matter seriously and genuinely with conscience. By far, I am truly disappointed on how the government is taking the opinion of us, as the government promotes and should, "minded-openly".

Angrily,

TC Billy Leung
