

## NOTE FOR PUBLIC WORKS SUBCOMMITTEE OF FINANCE COMMITTEE

### Year-end Report on Submissions to Public Works Subcommittee for the 2001-02 Legislative Session

To improve the consultation process on financial proposals for capital works projects, the Administration undertook to provide Members with an overview of capital works items to be upgraded to Category A during a particular legislative session.

2. For the 2001-02 legislative session, we provided Members with the list of 139 potential items vide PWSCI(2001-02)36. This year-end report summaries the deviations between the actual submissions and the forecast shown in PWSCI(2001-02)36. Members are requested to note the following –

- (a) **Enclosures 1 and 2** : 115 of the 139 potential items shown in PWSCI(2001-02)36 were submitted to Public Works Subcommittee (PWSC) as scheduled. The main reasons for exceptions in relation to the remaining 24 potential items are included.
- (b) **Enclosure 3** : 12 injection items not included in the original forecast have been submitted to PWSC for consideration.

The total number of items actually submitted to PWSC for consideration in the 2001-02 legislative session was therefore 127.

3. To avoid confusion, we will no longer issue exception reports based on forecasts of PWSC items set out in the printed Estimates for each financial year (versus each legislative session).
