Subject: Proposed Legislation of Article 23 of the Basic Law

2002/12/20 05:31 PM

Dear Sir / Madam,

I share the concern with many people and organizations worldwide regarding the proposed legislation of Article 23.

The people in Hong Kong enjoy a high degree of freedom of expressions and human rights. This is what obviously makes Hong Kong vibrant and unique. The enactment of Article 23 will undermine the "One Country, Two Systems" plan and ruin the future of Hong Kong.

I urge you to oppose the enactment of Article 23 because implementing it is like taking a step back into the dark ages of mankind.

Sincerely,

Joseph Weng
