LEGISLATIVE COUNCIL BRIEF

District Councils Ordinance (Chapter 547)

**DECLARATION OF CONSTITUENCIES
(DISTRICT COUNCILS) ORDER 2003**

INTRODUCTION

At the meeting of the Executive Council on 13 May 2003, the Council ADVISED and the Chief Executive ORDERED that the Declaration of Constituencies (District Councils) Order 2003, at **Annex A**, should be made under section 6 of the District Councils Ordinance (DC Ordinance).

JUSTIFICATIONS

The Electoral Affairs Commission Report

Statutory Requirements

2.   Under section 4(a) of the Electoral Affairs Commission Ordinance (EAC Ordinance), Cap. 541, one of the functions of the Electoral Affairs Commission (EAC) is to consider or review the boundaries of District Council Constituencies (DCCs) for the purpose of making recommendations as to the delineation of DCCs and the name for each DCC for a DCs ordinary election.

3.   The EAC is required under section 18 of the EAC Ordinance to submit a report to the CE on its recommendations for the DCCs not more than 36 months from the preceding DCs ordinary election.   As the last DCs ordinary election was held on 28 November 1999, the EAC should have submitted its report and recommendations for the 2003 DCs election to the CE by 27 November 2002.   However, as a result of the Administration's decision to add ten elected seats for the second term DCs, which was effected by the Electoral Provisions (Miscellaneous

Amendments) Ordinance 2002 passed by the Legislative Council (LegCo) on 18 December 2002, the CE extended the period for submission of the EAC Report to 27 May 2003, in accordance with section 18(4) of the EAC Ordinance.

4.   In making recommendations on the delineation of DCCs, the EAC is bound by certain provisions under the EAC Ordinance and the DC Ordinance.   The combined effect of the relevant provisions of these two Ordinances is as follows –

> (a)   there are to be 400 elected members in the 18 DCs (**section 5(1) of the DC Ordinance and section 10 of the Electoral Provisions (Miscellaneous Amendments) Ordinance 2002**);

> (b)   each constituency is to have one elected member (**section 7 of the DC Ordinance**);

> (c)   the population in each constituency should be as near the population quota[1] as practicable, and where it is not practicable to comply with this requirement, the population in that constituency should not exceed or fall short of the population quota by more than 25% (**section 20(1)(c) & (d) of the EAC Ordinance**);

> (d)   the EAC may depart from the strict application of (c) above only where it appears that a consideration provided in section 20(3) of the EAC Ordinance, i.e. community identities, the preservation of local ties and physical features such as size, shape, accessibility and development of the relevant area, renders a departure necessary or desirable (**section 20(5) of the EAC Ordinance**); and

> (e)   the EAC must follow the existing boundaries of Districts specified under the DC Ordinance (**section 20(4A) of the EAC Ordinance**).

---

[1]   Population quota means the total population of Hong Kong divided by the total number of elected members to be returned in the election.

Relevant extracts from the EAC Ordinance, the DC Ordinance and the Electoral Provisions (Miscellaneous Amendments) Ordinance 2002 are at **Annexes B, C** and **D** respectively.

Provisional Recommendations of EAC

(A)   Working Principles (paragraph 2.4 of the Report)

5.   Under section 19(1) of the EAC Ordinance, the EAC is required to exhibit the maps showing the delineation of the proposed DCCs for inspection by the public when it has provisionally determined its recommendations.

6.   In making its provisional recommendations, a primary consideration of the EAC was to ensure that the population criterion was complied with.   Based on the forecast figures provided by an inter-departmental working group chaired by the Planning Department, the population of Hong Kong as at the end of June 2003 will be 6 877 553. With 400 constituencies, the population quota is 17 194.   The permissible range of population based on a ±25% deviation is from 12 896 to 21 493.

7.   The EAC adopted a number of working principles when arriving at its provisional recommendations, including the following :

(a)   for those existing DCCs where the population falls within the permissible range of 12 896 to 21 493, their boundaries will not be changed;

(b)   for those existing DCCs where the population falls outside the permissible range, but the situation was allowed for the 1999 ordinary election and the justifications have remained valid, their boundaries will not be changed;

(c)   for those existing DCCs other than those in (b) where the population falls outside the permissible range, their boundaries will be adjusted for compliance with the population quota requirement.   This may

necessitate revising the boundaries of the adjoining DCCs. Where there is more than one way to adjust the boundaries of the DCCs concerned, the one which affects the least number of existing DCCs will be adopted, or the one with the least departure from the population quota will be adopted; and

(d) factors with political implications will not be taken into consideration.

8. In the course of its work, the EAC invited District Officers to attend meetings to discuss its preliminary findings. District Officers' views on community identities, local ties and physical features were carefully considered by the EAC before the provisional recommendations were made.

(B) Public Consultation (paragraphs 3.1 – 3.8 of the Report)

9. As required by section 19 of the EAC Ordinance, the EAC conducted a public consultation exercise for a period of 30 days from 6 January to 4 February 2003 on its provisional recommendations. During this period, members of the public could send their representations in writing to the EAC. Two forums were also held in January 2003 at which members of the public could attend and express their views to the EAC direct. The DCs of two districts, namely Sham Shui Po and Kwai Tsing, held meetings to discuss the provisional recommendations relating to them. Representatives from the Registration and Electoral Office were present to address queries.

10. In total, the EAC received 262 written representations. The two forums were attended by about 200 people, 72 of whom expressed their views on the provisional recommendations. The original texts of the written representations and the minutes of the meetings of the two DCs are contained in Volume 3 of the EAC Report. Summaries of the written representations, oral representations and representations raised at the meetings of the two DCs are set out by district in Appendix III of Volume 1 of the Report.

(C)   Key Issues Raised During Public Consultation (Paragraph 4.5 of the Report)

11.   Among the representations received, there were 90 which supported the EAC's provisional recommendations.   For the others, the majority stressed the importance of maintaining community identities and local ties even though the population deviation in the DCCs concerned might exceed the permissible limits.   Some pointed out that the EAC's proposed delineation would disrupt the community identity and the well-established cohesiveness of residents, greatly affecting the integrity of the community.

12.   In considering the representations, the EAC gave due weight to community identities and local ties.   Reasonable suggestions to alter the provisional recommendations on the grounds of community, geographical and development considerations were accepted.   In some cases, the EAC allowed the population of DCCs to deviate from the population quota beyond the 25% limits to preserve local ties.

Final Recommendations of EAC (paragraphs 4.2 – 4.4, and 4.6 – 4.7 of the Report)

13.   In drawing up its final recommendations, the EAC adopted the following approach.

(a)   For representations regarding DCCs which were provisionally determined to remain the same as those of the DCCs in 1999 ("unaltered DCCs"), modifications to their boundaries would be considered only if –

(i)   they were supported by cogent reasons and would result in substantial and apparent improvement on community, geographical and development considerations;

(ii)   they would not in turn affect an unacceptable number of unaltered DCCs;

(iii) all the resulting populations would not depart from the population quota by more than 25%; and

(iv) no representation supporting the retention of the provisional recommendations in respect of the same unaltered DCCs had been received.

The EAC considered it inappropriate to accept representations on unaltered DCCs solely for the sake of improving population distribution. If the EAC were to accept these representations, many DCCs would have to be re-delineated and included in the final recommendations without the benefit of further public consultation as to their acceptability.

(b) For representations regarding new DCCs, all suggestions with sufficient cause on better population distribution or on community considerations would be accepted, except those adopting an approach entirely different from the EAC's and affecting an unacceptable number of unaltered DCCs.

14.   In the end, the EAC adjusted the boundaries of 62 DCCs and changed the names of eight DCCs. A breakdown of these changes by district is at **Annex E**. It allowed 27 constituencies, listed at **Annex F**, to exceed or fall short of the population quota by more than 25%. For the majority of these cases, this is due to the need to preserve community identity and local ties.

15.   The EAC submitted its final recommendations to the CE on 22 April 2003. The main text of the Report is at **Annex G**, we will separately provide each LegCo Member with a set of the full report.

The Order

16.   According to section 21 of the EAC Ordinance, the EAC Report received by the CE shall be considered by the CE in Council as soon as practicable. The decision of the CE in Council will be effected by way of an Order under section 6(1) of the DC Ordinance which has to

be tabled in the LegCo for negative vetting. Under section 23 of the EAC Ordinance, the Administration is also required to table the EAC Report in LegCo for public information within 30 days of its submission to the CE.

17.   The Order at **Annex A** declares areas to be DCCs and to give names to these constituencies, in accordance with the EAC's final recommendations. The boundaries and names of the constituencies are shown in the Schedule to the Order.

LEGISLATIVE TIMETABLE

18.   The legislative timetable will be as follows: -

Publication in the Gazette	16 May 2003
Tabling at the LegCo	21 May 2003

19.   We will also table the EAC Report in LegCo on 21 May 2003 for public information as required by law.

IMPLICATIONS OF THE ORDER

20.   The Order is in conformity with the Basic Law, including the provisions concerning human rights. They will not affect the current binding effect of the relevant Ordinances and existing Regulations. The Order has no additional financial and staffing implications. It has no economic, civil service, productivity, environmental or sustainability implications.

PUBLIC CONSULTATION

21.   The provisional recommendations of the EAC were well publicised during the consultation period. Details are set out in paragraphs 9 and 10 above.

PUBLICITY

22.   A press release has been issued to announce the publication

of the Order in the Gazette. A spokesman will be available for answering media enquiries.

ENQUIRY

23. Any enquiries on the brief should be addressed to Ms Eva Yam, Principal Assistant Secretary (Constitutional Affairs) 4, on 2810 2908.

CHAPTER 1

INTRODUCTION

Section 1 : The Responsibility of the Electoral Affairs Commission

1.1 Under section 4(a) of the Electoral Affairs Commission Ordinance ("EACO") (Chapter 541 of the Laws of Hong Kong), the functions of the Electoral Affairs Commission ("EAC" or "Commission") include the consideration and review of the boundaries of the district council constituencies ("DCCs") for the purpose of making recommendations as to the boundaries and names of DCCs for a District Councils ("DCs") ordinary election.

1.2 The Commission is required under section 18 of the EACO to submit a report to the Chief Executive ("CE") on its recommendations for the DCCs not more than 36 months from the preceding DCs ordinary election. As the last DCs ordinary election was held on 28 November 1999, the EAC should have submitted its report and recommendations to the CE by 27 November 2002. However, as a result of the Administration's decision to increase ten elected seats for the second term DCs, the CE extended the period for submission of the report to 27 May 2003. Details of the increase in the number of elected seats are set out in Section 2.

1.3   Under section 21 of the EACO, the CE in Council shall consider the Commission's report.   Subject to CE in Council's approval, the boundaries and names proposed by the Commission would be adopted for the DCs ordinary election to be held in late 2003.

Section 2 : Changes arising from the increased number of elected seats

1.4   The Administration's original decision was to maintain the status quo in the composition of the second term DCs which meant that the number of seats of elected members, ie 390, should remain unchanged. With the approval of the Executive Council ("ExCo"), the Administration consulted the Legislative Council ("LegCo") and DCs on its initial proposal to maintain status quo for the second term DCs.   The consultation exercise ended on 31 July 2002.

1.5   Having regard to the public views received during the consultation period, the Administration subsequently proposed to increase the number of elected seats for **Yuen Long, Sai Kung and Islands** DCs, by **six, three and one** respectively to cater for the sharp population growth in the new towns of Tin Shui Wai, Tseung Kwan O and Tung Chung.

1.6   On 24 September 2002, the ExCo endorsed the increase in the number of elected seats from 390 to 400.   The enabling legislation was passed by the LegCo on 18 December 2002 and published in the Gazette on 27 December 2002.

1.7　　　　This change in the number of elected seats entailed a series of related changes, namely –

    (a)　the population quota adopted for the demarcation exercise was lowered from 17,635 to 17,194 (see paragraphs 2.1(a) and 2.2);

    (b)　the original public consultation period from 5 September 2002 to 4 October 2002 was changed to between 6 January 2003 and 4 February 2003; and

    (c)　the statutory deadline for submitting the report to the CE was deferred from 27 November 2002 to 27 May 2003.

Section 3 : Scope of the Report

1.8　　　　The scope and content of this report are based on the requirement stipulated under section 18 of the EACO.　　The report is published in three volumes.　　**Volume 1** primarily describes how the proposed delineation of the boundaries of district council constituency areas ("DCCAs") was worked out and sets out the Commission's recommendations on the boundaries and the names of the DCCAs with the reasons for its recommendations.　　**Volume 2** contains the maps of all the districts showing the proposed boundaries and names of the DCCAs in each district and the related boundary descriptions.　　**Volume 3** records all written representations and minutes of the meetings of those DCs held to discuss the demarcation proposals relating to the their own district.

THE DEMARCATION EXERCISE

Before Public Consultation

Section 1 : Statutory Criteria for Demarcation

2.1   The Commission adopted a set of criteria, as stipulated by section 20 of the EACO, as the basis for making its recommendations. These criteria are –

(a)   The EAC shall ensure that the population in each proposed DCCA is as near the population quota as practicable. "Population quota" means the figure arrived at by dividing the total population of Hong Kong by the total number of elected members to be returned in the DCs ordinary election.

(b)   Where it is not practicable to comply with (a) in a certain proposed DCCA, the EAC shall ensure that the population in that DCCA does not exceed or fall short of the population quota by more than 25%.

(c)   The EAC shall have regard to the community identities, preservation of local ties, and the physical features (such as the size, shape, accessibility, development, etc) of the area.

(d) The EAC must follow the existing boundaries of the districts and the number of elected members to be returned to a DC as specified in Schedules 1 and 3 of the District Councils Ordinance (Cap 547).

(e) The EAC may depart from strict adherence to (a) and (b) only where it appears that considerations referred to in (c) justify such departure.

2.2   For this demarcation exercise, the population quota was 17,635 before the increase in the number of elected seats, ie 6,877,553 (the projected population of Hong Kong as at 30 June 2003 provided by the Administration (see paragraph 2.6)) divided by 390 (the total number of elected members to be returned to DCs in the 2003 ordinary election). After the increase in the number of elected seats, the population quota is 17,194, ie 6,877,553 ÷ 400.   Consequently the permissible range of deviation referred to in (b) above of the population of a DCCA from the population quota is 12,896 - 21,493 while it was previously 13,226 - 22,044.

2.3   After the increase of ten elected seats for the second term DCs, the number of constituencies to be delineated for each district for the 2003 DC ordinary election is 400.   A list of the DCCs is set out in **Appendix I**.

Section 2 : Working Principles

2.4 The Commission also adopted a set of working principles for the demarcation exercise –

(a) For those existing DCCAs where the population falls within the permissible range of 12,896-21,493, their boundaries will not be changed.

(b) For those existing DCCAs where the population falls outside the permissible range, but the situation has been allowed to remain since the 1999 ordinary election and the justifications have remained valid, their boundaries will not be changed.

(c) For those existing DCCAs other than those in (b) where the population falls outside the permissible range, their boundaries will be adjusted for compliance with the population quota requirement. This may necessitate revising the boundaries of the adjoining DCCAs. Where there is more than one way to adjust the boundaries of the DCCAs concerned, the one which affects the least number of existing DCCAs will be adopted, or the one with the least departure from the population quota will be adopted.

(d) Factors with political implications will not be taken into consideration.

(e) The names of the new DCCAs to be formed are coined by making reference to major landmarks, roads or residential settlements in the DCCAs after consultation with the relevant District Offices ("DOs").

(f) The Commission's provisional recommendations on the code references of Districts and constituency areas were that the Districts should be given the alphabetical reference from "A" onwards, with the omission of "I" and "O" to prevent confusion, starting from Central and Western on Hong Kong Island, followed by the Districts in Kowloon and the New Territories. The numbering of constituency areas in a District was to be prefixed by the alphabet reference for the District and started from the first numeral. "01" should be allocated to the most densely populated area, or the area traditionally considered most important or prominent or the centre of the District and the number proceeded consecutively in a clockwise direction so that as far as possible two consecutive numbers should be found in two areas contiguous to each other. The Commission hoped that by adopting this system, any one who consults the maps would find it easier to understand them and locate the constituency areas. These

methods were employed since 1994 and the public should be generally familiar with them.

(g) When constituency boundaries had to continue into the sea, the DCCA boundary lines were, as far as possible, drawn perpendicular to the District boundary lines on the sea.

(h) Suggestions and comments from members of the public received since the last demarcation exercise will be taken into consideration and, where appropriate, accepted.

The criteria and working principles mentioned above were also adopted for the demarcation exercise of the 1999 DCs election.

Section 3 : Working Partners

2.5 The Registration and Electoral Office ("REO"), being the executive arm of the Commission, provided the manpower required for carrying out the exercise.

2.6 An ad hoc subgroup ("AHSG"), formed under the Working Group on Population Distribution Projections set up in the Planning Department ("PlanD"), took up the primary task of providing the Commission with the necessary population forecasts, the most essential information required for the conduct of the exercise. The AHSG was

chaired by an Assistant Director of the PlanD and comprised representatives from a number of bureaux and departments, including the Constitutional Affairs Bureau ("CAB"), Census and Statistics Department, Home Affairs Department ("HAD"), Housing Department ("HD"), Lands Department ("LandsD"), and the REO.   To enhance the accuracy of the result produced, the AHSG was requested to project the population distribution figures as at a date as close to the election date as practicable. The AHSG provided a population forecast as at 30 June 2003, assuming that the DCs ordinary election would be held in November 2003.

2.7   The LandsD rendered assistance in producing maps for the Commission, including the base maps (maps with street blocks, population figure in each block, existing DCCA boundaries and district boundaries) and maps with the proposed DCCA boundaries and boundary descriptions.   The LandsD also helped by making films of the maps for printing purposes.

2.8   The DOs of the HAD provided strong support in the demarcation exercise.   Input from the DOs was sought in view of their local knowledge about the community identities, local ties, and physical developments in the DCCAs in their districts.

2.9   The Information Services Department ("ISD") contributed expert advice for mapping out the publicity strategy and ideas for designing the publicity materials for the consultation exercise.

Section 4 : The Work Process

Start of work

2.10   The AHSG held its first meeting in early January 2002 to work out the method to be adopted for compiling the data and the work schedule.   In mid-April 2002 the forecast population figures were made available, on the basis of which the LandsD prepared the base maps. When these base maps were ready, the REO staff proceeded to work on the preliminary proposed delineation of the boundaries.

EAC meetings with the DOs

2.11   When the REO staff had finalised their preliminary recommendations on the boundaries and names of the DCCAs, they presented them to the Commission for consideration.   The Commission invited all the DOs, who are familiar with the local circumstances, to attend a series of meetings in mid-June 2002 to discuss the proposals relating to their district.

Revising the initial proposal

2.12   On the basis of the Commission's decisions on the initial demarcation proposals, the REO staff proceeded to prepare for the public consultation exercise, which was originally scheduled for September-October 2002.   However, as a result of the addition of ten elected seats

for three districts the population quota was lowered from 17,635 to 17,194.   This resulted in many DCCAs having their population deviating beyond the permissible range referred to in paragraph 2.2 and therefore the initial demarcation proposals had to be revised.

2.13   The REO staff went through the initial proposals and noted that those relating to six districts could remain unchanged because their population deviations were still within the new permissible limits, despite the new population quota.   These six districts were: Wan Chai, Eastern, Yau Tsim Mong, Sham Shui Po, Tsuen Wan and Tai Po.   The staff then proceeded to work on the other 12 districts and consulted the DOs on the revised proposals.   Thereafter the proposals were presented to the Commission for consideration.   In mid-November 2002 the Commission invited the 12 DOs concerned again to a series of meetings to discuss the revised proposals relating to their district.

2.14   After the EAC had reached agreement with the DOs concerned on the proposals and come up with the provisional recommendations, the REO staff started to make the necessary preparation for the public consultation exercise, launched for a period of 30 days, from 6 January to 4 February 2003.

2.15   In the provisional recommendations, the boundaries of 182 DCCAs had to be changed and 47 DCCAs were renamed.   The EAC allowed the permissible limits of the population quota to be exceeded in 16 DCCAs for one reason or the other.   The names of these DCCAs, the percentages of deviation and the reasons for allowing the permissible limits to be exceeded are shown in **Appendix II**.   Details of the provisional recommendations are contained in the two volumes of publication published for the public consultation exercise.

CHAPTER 3

THE PUBLIC CONSULTATION

Section 1 : The Consultation Period and Public Forums

3.1   In compliance with the requirement of section 19 of the EACO, the Commission conducted a public consultation exercise on its provisional recommendations from 6 January to 4 February 2003 for a period of 30 days.   During this period, members of the public might send in their representations, in writing, to the Commission to express their views on the provisional recommendations on the boundaries and names of the DCCAs put forth by the Commission.

3.2   The public consultation was widely publicised through radio/TV APIs, press releases, newspaper advertisements, posters and websites on the Internet.

3.3   On the first day of the consultation period, ie 6 January 2003, the Commission held a press conference to launch the public consultation exercise and invited the public to give their views on the Commission' provisional recommendations.   The Commission also appealed to the public that not only those who had opposing or different views should speak up, but also those who supported the provisional recommendations should do likewise.   This was to enable the EAC to more accurately

gauge the public's views and degree of acceptance on the provisional recommendations.

3.4   Two forums were conducted from 10.30 am to 4.30 pm daily on 23 and 24 January 2003 at Meeting Rooms 606-607 in the Hong Kong Convention and Exhibition Centre in Wan Chai and at the Exhibition Gallery in the Kwai Tsing Theatre in Kwai Tsing respectively, where members of the public could personally attend and express their views to the Commission directly.   Audio-visual aids were used to facilitate visualising the representations by making reference to maps.

Section 2 : Number of Representations Received

3.5   During the consultation period the Commission received a total of 262 written representations.   On the two days of the forums, 207 persons turned up and 72 of them expressed their views on the provisional recommendations.

3.6   The DCs of two districts, namely Sham Shui Po and Kwai Tsing, held meetings to discuss the provisional recommendations relating to them.   Representatives from the REO were present at these meetings to address queries from members of the DCs.

3.7   Among the representations received, there were 90 which supported the EAC's provisional recommendations.   A few were not related to delineation of boundaries or naming of the DCCAs but related

to such issues as district boundaries, arrangements for the conduct of the public forums and locations of polling stations.   The Commission took note of these views and instructed the REO to take the necessary follow-up action.

3.8   The original texts of the written representations and minutes of the meetings of the two aforementioned DCs are contained in **Volume 3** of this report.   Summaries of the written representations, oral representations and representations raised at the meetings of the two DCs are shown by district on **Appendix III** of this volume.

CHAPTER 4

THE DEMARCATION EXERCISE

After the Public Consultation

Section 1 : Deliberations on the Representations

4.1   As soon as the public consultation period ended, the EAC went through the representations, written and oral, to consider whether they should be accepted.

General Approaches adopted by the Commission

4.2   For representations regarding DCCAs which were provisionally determined to be the same as those of the DCCAs in 1999 ("unaltered DCCAs"), modifications to their boundaries would be considered only if :

     (a)   they are supported by cogent reasons and would result in substantial and apparent improvement on community, geographical and development considerations;

     (b)   they would not in turn affect an unacceptable number of unaltered DCCAs;

(c)   all the resulting populations will not depart from the population quota by more than 25%; and

(d)   no representation supporting the retention of the provisional recommendations in respect of the same unaltered DCCAs has been received.

4.3   The Commission considered it inappropriate to accept representations on unaltered DCCAs which proposed solely improvement on population distribution.   If the Commission were to accept them, many DCCAs would have to be re-delineated and included in the final recommendations without the benefit of further public consultation as to their acceptability.

4.4   For representations regarding new DCCAs, all suggestions with sufficient cause on better population distribution or on community considerations would be accepted, except those adopting an approach entirely different from the Commission's and affecting an unacceptable number of unaltered DCCAs.

The Commission's General Views

4.5   In considering the representations, the Commission also took the following factors into account –

(a) <u>Preserving community identity and local ties</u>

The majority of representations made to the Commission stressed the importance of maintaining local community identities and ties eventhough the population deviation in the DCCAs concerned would exceed the permissible limits. Some representers pointed out that the Commission's proposed delineation had disrupted the community identity and cohesiveness of the residents already well established, and would greatly affect the integrity of the community.

Some representers also emphasized that the residents of the affected areas would likely have a weaker sense of belonging to the DCCAs to which they have been newly assigned, and this in turn, would adversely affect the voters' turnout rate. Moreover, the DC Member of a constituency might have difficulty in serving two or more heterogeneous communities though some other representers held contrary views that it would not impose any particular problems under the circumstances.

The Commission fully understood the sentiments and wishes of the representations and has considered all of them very carefully.   Community identities and local ties were given due weight.   Reasonable suggestions to alter the Commission's provisional recommendations on the grounds of

community, geographical and development considerations would be accepted.   The Commission has allowed some DCCAs to have their populations deviating from the population quota in excess of the permissible limits.   The rationale was to strike a balance between the population quota requirement and local sentiments to bring about an acceptable reality to the public.

(b)   <u>The estimated population figures</u>

There were representations objecting to the provisional recommendations on the grounds that they queried the accuracy of the estimated population figures which the Commission adopted for the demarcation exercise.   They quoted other figures known to them, which were different from those used by the Commission.   The Commission believed that the queries were merely based on personal estimation and/or information obtained from other sources eg the HD, which might not be appropriate for the exercise. The Commission's view in this aspect was that the estimated population figures used was supplied by the AHSG, which was set up solely for the purpose of the demarcation exercise. It had conducted comprehensive researches before compiling the relevant data by a systematic methodology.

The Commission therefore held that the official data provided by the AHSG should remain as the sole and authoritative basis for the demarcation work.

(c) Supporting views

Where there were supporting representations received on the one hand and opposing ones relating to the same DCCA(s) on the other, the EAC would examine the acceptability of both sides in the light of the reasons given vis-à-vis the working principles.

Section 2 : The Recommendations

4.6   At its meeting on 13 March 2003 the Commission met the DOs concerned to discuss its revised recommendations, having taken into consideration the representations received.   Its views on the representations are recorded in the last column of **Appendix III**.

4.7   In its finalised recommendations the Commission altered the boundaries of 64 DCCAs and changed the names of 8 DCCAs.   Details of the alterations and changes are set out in **Appendices IV and V** respectively.

4.8   In its finalised recommendations the EAC allowed the population in 27 DCCAs to deviate from the permissible limits of population quota for reasons specified in **Appendix VI**.

4.9   A summary of the Commission's final recommendations is shown in **Appendix VII** of this volume.   The details of these final recommendations with reference to maps and boundary descriptions are in **Volume 2**.

CHAPTER 5

A CONCLUDING NOTE

Section 1 : Acknowledgements

5.1   With the completion of this demarcation exercise, the Commission would like to express its gratitude towards the following units for their contributions : the AHSG, for its provision of the population forecasts; the DOs of the HAD, for their input on the basis of their district knowledge; the LandsD, for their production of the various maps and films for the conduct of the consultation exercise and production of the report; the ISD for their contribution to the publicity programme relating to the consultation exercise, the Printing Department for the printing of the consultation materials and this report, the Leisure and Cultural Services Department for their permission to use the Kwai Tsing Theatre as one of the venues for holding a public forum, and the CAB for their advice throughout the exercise.

5.2   The Commission is particularly thankful to the staff of the REO for their dedicated and concerted efforts in the preparation work.

5.3   The last but not the least, the Commission is most grateful to those members of the public for their representations, put forth in writing or personally voiced in the public forums.   Some of them have given suggestions relating to boundary descriptions, such as deletion of

buildings which had been demolished and addition of buildings which have recently come into existence.   These suggestions would make the boundary descriptions more accurate and clear or help correct mistakes in the descriptions due to oversight.   These suggestions were constructive and gratefully accepted by the Commission.

Section 2 : The Important Principle

5.4   As in previous demarcation exercises, the EAC has adhered to the statutory requirements and its working principles as far as practicable. The EAC has made every effort to observe the population quota requirement and at the same time to accommodate the suggestions from the public with reference to the community considerations in their districts, particularly in cases where the suggestions would result in substantial improvement on community ties, geographical accessibility and development.   But as always, the Commission has paid no regard to any suggestions with political implications.

5.5   Delineation of constituency boundaries is an integral part of an election.   The Commission is committed to conducting each and every election under its supervision in an open, fair and honest manner. The Commission has all the time held on to this important principle in this demarcation exercise.
