

**Panel on Environmental Affairs**

**List of follow-up actions arising from the discussion  
at the meeting on 28 June 2004**

- (1) To consider extending the consultation period for the Consultation Document for the Harbour Area Treatment Scheme Stage 2 to end 2004.
- (2) To provide a quantitative analysis on the effect of ferric chloride used in the Chemically Enhanced Primary Treatment (CEPT) on the water quality of the Harbour.
- (3) To advise how the problem of chlorination will be dealt with if chlorine is used as a disinfectant for CEPT treated flow.
- (4) To seek the views of the three local members of the former International Review Panel on the findings of the trials and studies relating to the Harbour Area Treatment Scheme (HATS) Stage 2.
- (5) To advise the design parameters, including the changes in population and commercial activities, adopted in the planning of HATS Stage 2.
