

Bills Committee on Construction Industry Council (No. 2) Bill

**List of follow-up actions arising from discussion
at the meeting on 8 December 2005**

The Administration is requested to –

Clause 10

- (a) clarify the policy intention of appointing members for not more than two consecutive terms or not more than six years and reflect the policy intention in the clause. In any event, members consider the proposed amendment to subclause (2) unclear;

Clause 12(a)

- (b) clarify how the seeking of the Council's permission for absence from meetings will operate. Please provide information on how statutory bodies such as District Councils and Hospital Authority enforce a similar provision; and

Clause 12(d)

- (c) review the appropriateness of using the plural form of the word "functions". Members are concerned that the proposed amendment will cause uncertainty as to whether a member will be removed because of his inability to perform functions in whole or in part.
