Proceedings of the forty-third meeting of the Subcommittee on West Kowloon Cultural District Development on Friday, 25 April 2008, at 11:00 am in Conference Room A of the Legislative Council Building

Time marker	Speaker	Subject(s)	Action required
000000 - 000019	Chairman	Confirmation of minutes (Paper No. WKCD-527 and Paper No. WKCD-529)	•
000020 - 000152	Chairman	Opening remarks	
000153 - 001907	Administration	Briefing on Paper No. WKCD-531	
001908 - 002604	Chairman Ms Margaret NG Administration	Ms NG's enquiry on why there were so many high-rise developments near Kowloon Station, and concern whether the future buildings in WKCD would create a wall effect Administration's response that those high-rise developments were approved some years ago and they were not subject to building height restrictions; the building height control was introduced only a few years ago after the completion of the Urban Design Guidelines Study and the incorporation of the Guidelines into the Hong Kong Planning Standards and Guidelines (HKPSG). The WKCD development was subject to building height restrictions and the future West Kowloon Cultural District Authority (WKCDA) would be required to conduct air ventilation and visual impact assessments in preparing the Development Plan (DP) for WKCD	
002605 - 003618	Dr KWOK Ka-ki Administration	Dr KWOK's views that (a) the Administration should elaborate on the height restrictions of the three sub-areas; (b) the Administration should

			provide the layout of the open space in the area; and	•
		(c)	there should be a continuous waterfront promenade in the area for the public	
		Adn	ninistration's response that	
		(a)	the height restrictions ranged from 50mPD to 100mPD; and	
		(b)	the layout of the open space would be available when WKCDA prepared the DP	
003619 - 004835	Miss CHAN Yuen-han Administration	Miss	s CHAN's views that	
	Chairman	(a)	worries about the uncertainty of the future developments in the area were justified because there were many variables in play;	
		(b)	WKCD should be a landmark for the public rather than the real estates sector;	
		(c)	the actual heights of and spacing between buildings would affect the effectiveness of stepped developments in the area;	
		(d)	the ridgelines should be seen from different vantage points;	
		(e)	the open space might end up less than 23 hectares;	
		(f)	the open space should not be fragmented and its layout should be clear;	
		(g)	it would be desirable not to have any residential developments at the southwestern tip of the WKCD site;	

Time marker	Speaker	Subject(s)	Action required
		(h) the location of the waterfront promenade should be specified;	
		(i) there should be good connectivity with neighbouring districts, especially pedestrian links; and	
		(j) it would be difficult to introduce changes after the proposed amendments to the relevant outline zoning plan had been approved	
		Administration's response that	
		(a) there would be various kinds of linkages including pedestrian links connecting WKCD with neighbouring districts;	
		(b) there were various popular vantage points on Hong Kong Island where the ridgelines could be seen; the vantage points were established after extensive public consultation in the Urban Design Guidelines Study and the relevant guidelines had been incorporated in the HKPSG; and	
		(c) details of the layout of various facilities would be available at the detailed design stage when the DP was prepared	
004836 - 005724	Mr Abraham SHEK Administration	Mr SHEK's views that	
	Chairman	(a) connectivity on a human scale was important and the pedestrian links in Central was a practical example;	
		(b) the Administration should adopt an innovative approach in planning WKCD and there should be three-dimensional concept plans for better	

Time marker	Speaker	Subject(s)	Action required
		visualization; (c) the Administration could draw reference from previous WKCD design concepts; and (d) the Planning Department (PlanD) should take up an active and a leading role in formulating a concept plan for the project Administration's response that it would consider preparing three-dimensional concept plans in due course because there were still many unknowns at this stage Chairman's enquiry on the role of PlanD in the formulation of the DP Administration's response that a staff member of PlanD would be seconded to the Home Affairs Bureau to undertake planning work such as preparation of the consultancy briefs for the required technical studies, and if needed, PlanD would render assistance to WKCDA in its preparation of the DP	required
005725 - 010409	Prof Patrick LAU Chairman Administration	Prof LAU's views that (a) the exact locations of the residential developments in the area was an important issue; (b) there should be good connectivity with districts such as Tsim Sha Tsui; (c) there should be plans for the public to visualize the design; and (d) consideration should be given to organizing a master plan design competition for WKCD Administration's response that	

Time marker	Speaker	Subject(s)	Action required
		conceptual plans could be made available in engaging the public for the formulation of the DP	•
010410 - 011100	Mrs Selina CHOW	Mrs CHOW's views that	
		(a) the statutory planning process that had been triggered was the first-stage planning for WKCD whereby the basic development parameters were to be laid down in the statutory plan; the layout of different land uses and the provision of connectivity facilities would be dealt with at the DP preparation stage;	
		(b) the proposed development parameters would provide a framework for the detailed design at the DP stage; the proposed development parameters had already taken into account the views of professionals and the public;	
		(c) while there were different views on the mechanism to be adopted, the need for public engagement was undisputed; and	
		(d) as the public wanted to implement the WKCD project as soon as possible, she disagreed to organizing a master plan design competition because it would require a long time	
		Administration's concurrence with Mrs CHOW's views	
011101 - 012141	Chairman Administration	Chairman's enquiries on (a) the length of the waterfront promenade;	
		(b) whether the public or the	

Time marker	Speaker	Subject(s)	Action required
		Legislative Council would be consulted when preparing the consultancy briefs; and	
		(c) the approach for conducting systematic public engagement	
		Administration's response that	
		(a) the length of the waterfront promenade would be some 1 800 metres;	
		(b) the Administration would finalize the consultancy briefs after consulting all the relevant bureaux and departments; and	
		(c) the consultancy briefs would include requirements for conducting public engagement activities and the consultancy fees would include provisions for organizing public engagement activities such as public forums and briefings	
012142 - 012341	Chairman Administration	Chairman's enquiries on (a) the role of PlanD; and	
		(b) the heights of the developments near Kowloon Station	
		Administration's response that	
		(a) PlanD would appropriately assist WKCDA in preparing the DP; and	
		(b) the heights of the developments near Kowloon Station ranged from about 136mPD to 480mPD	
012342 - 012552	Chairman Dr KWOK Ka-ki	Dr KWOK's view that deputations should be invited to give their views on the proposed development parameters for WKCD	

Time marker	Speaker	Subject(s)	Action required
012553 - 012908	Chairman Mr Abraham SHEK	Mr SHEK's view that the Subcommittee could invite interested parties to prepare concept plans and models to facilitate public discussions	
012909 - 013204	Miss CHAN Yuen-han	Miss CHAN's views that (a) the planning for WKCD should be further discussed; (b) interested parties could prepare their own plans for the design of WKCD; and (c) the Legislative Council had never agreed to the	
		Administration's proposed amendments to the relevant outline zoning plan	
013205 - 013712	Prof Patrick LAU Chairman Administration Mr Abraham SHEK	Prof LAU's views that (a) concept plans should be prepared before conducting public consultation;	
		(b) the scope of the consultancy work should include preparation of three-dimensional concept plans and this should be one of the criteria for selection of consultants; and	
		(c) the public could also come up with their own design concepts	
		Administration's response that	
		(a) concept plans could be made available by the WKCDA for consulting the public when preparing the DP;	
		(b) the public and the Legislative Council could participate in the planning for WKCD because WKCDA would conduct public engagement activities in	

Time marker	Speaker	Subject(s)	Action required
		preparing the DP; and (c) WKCDA should be given sufficient flexibility in planning for WKCD Mr SHEK's view that tertiary institutions and professional organizations could come up with their own design concepts
