#### **4. Improving the business environment**

Second half of  
2006

Issues relating to improving the business environment were discussed at the Panel meeting on 10 June 2002 and on 10 May 2004. A Motion Debate on "Actively Improving the Business Environment for Small and Medium Enterprises" moved by Hon Vincent FANG, as amended by Hon Fred LI and Hon CHAN Kam-lam was carried on 8 June 2005. The progress report has been issued to all Members on 31 August 2005 vide LC Paper No. CB(3)831/04-05.

The same subject was covered in paragraphs 16 to 18 and paragraph 61 of the Chief Executive's 2004 and 2005 Policy Address respectively. Hon Mrs Sophie LEUNG expressed the view that the Government should strive to provide the business and industrial sectors with an "enabling environment".

Under the steer of the former Economic and Employment Council (EEC), the Subgroup on Business Facilitation and its dedicated task forces have been studying ways to remove outdated or unnecessary regulations on business sectors that have significant impact on the economy and employment. Concrete recommendations have been made to simplify and improve the regulatory regimes impacting on the real estate, construction, retail and entertainment business sectors. The concerned government bureaux and departments are taking forward the improvement measures where consensus has been reached, including simplification of lease conditions, setting up of an enquiry system on land matters, parallel processing the modification and ordinance-related issues pertaining to land leases; and simplifying and improving the food retail and cinema licensing regimes.

At the Panel meeting held on 12 October 2004, Hon Mrs Sophie LEUNG recapped her concern about the importance of an "enabling" business environment. She said that the Panel might wish to explore the subject further with the Administration and that in due course, the Panel might consider requesting the Research and Library Services Division of the Secretariat to conduct some research on the subject.

With the disbanding of the EEC and its Subgroup on Business Facilitation, a Business Facilitation Advisory Committee (BFAC) has been set up in January 2006 to take forward the business facilitation efforts. The BFAC will advise and report to the Financial Secretary the development and implementation of programmes and measures to facilitate business, and take up the work of the former EEC Sub-group in developing and overseeing a programme to review government regulations and procedures

impacting on business. It will steer the task forces and the Economic Analysis and Business Facilitation Unit to take forward the ongoing regulatory reviews and business facilitation initiatives and examine other relevant areas to facilitate business as appropriate.
