25 May 2006

The Legislative Council Secretariat
Legislative Council Building
8 Jackson Road, Central
Hong Kong
(Attn: Ms Joanne MAK)

Dear Ms Mak,

**Renovation of Libraries Phase 2 –
Supplementary Information to Panel on Home Affairs**

As requested by Members at the meeting of the Panel on Home Affairs on 12 May 2006, we write to provide supplementary information on the above project in the paragraphs below.

Need for the proposed works

All the six libraries included under phase 2 of the renovation of libraries project were opened in the 1980s. Their layouts, setting and facilities were designed to meet the needs at the time. Public expectations of library services nowadays, on the other hand, are substantially different from those of the 1980s. Over the years, for instance, there has been a strong demand for a more extensive use of sophisticated information technology in the provision of public library services. In response to this

demand, the Hong Kong Public Libraries has installed different automation systems such as book detection system, self-charging machines, and provided computer terminals in libraries for users' access to the internet and use of multi-media library materials. A proper layout is required to accommodate these facilities. The proposed renovation works will improve and upgrade the layout as well as the overall setting of the libraries concerned, enabling them to meet the present-day requirements. It will also ensure the smooth functioning of library operation and proper use of resources. The renovation works is therefore considered necessary.

Reprovisioning of Yuen Long Public Library

Yuen Long Public Library (YLPL) is located at 1/F, Yuen Long Government Offices, 2 Kiu Lok Square. It would be reprovisioned under the Public Library and Indoor Recreation Centre in Area 3 in Yuen Long, which is one of the 25 priority projects announced in CE's Policy Address in January 2005. Under a fast-track programme, the project is expected to commence construction in late 2008 for completion in late 2011. The site of the new library is located adjacent to the Yuen Long Theatre. The new library would be commissioned in 2012 (six months after the completion of the project taking into account the pre-commissioning preparatory work).

The existing YLPL has been in use for over 20 years and has not undergone any major renovation. There is an urgent need for improvements to the overall environment, internal fitting and facilities to meet the present-day library requirements. In view of the anticipated commissioning of the new library in 2012, the proposed scope of renovation for the existing library has been adjusted to cover only the essential items such as expanding the existing computer room to a computer and information centre, improving the overall layout of the library and upgrading the air-conditioning system. The project cost of the renovation works is estimated at \$5.98M and will be carried out as a minor works item in 2006-07.

Reprovisioning of Yau Ma Tei Public Library

The Yau Ma Tei Public Library (YMTPL) is located at the Yau Ma Tei Multi-storey Carpark Building. The Carpark Building would be demolished to make way for the implementation of the Central Kowloon Route (CKR) and the tentative schedule for commencement of construction is set for 2011-12. The decanting of the YMTPL would be

completed by March 2011. We consider it not appropriate to undertake major renovation works for the library at this stage. Notwithstanding this, apart from regular maintenance, the YMTPL had undertaken minor improvement works in 2001-02. According to the present planning, the YMTPL will be reprovisioned to the planned new Yau Ma Tei Multi-storey Carpark Building at Ferry Street. The project is expected to commence construction in 2008.

Consultation with District Councils

We consulted the concerned District Councils (DCs) between January to April 2006 on the proposed renovation of the six libraries under phase 2. At the request of the Wanchai DC, we jointly conducted with the DC two public consultation sessions in February 2006 on the renovation of the Lockhart Road Public Library. Moreover, we had gauged the views of library users on the proposed renovation works through a series of customer liaison meetings conducted in November 2005. A table setting out the details of these public consultation sessions is at the Annex.

Yours sincerely,

(Peter Kwok)
for Secretary for Home Affairs
