

Powerpoint presentation material provided by Clear The Air CB(1527/05-06/06)

Central is a flat surface?

All the buildings are gone!!!

Jimmy Fung (HKUST)

To meet AQO is to safeguard the **health** and well being of our community.

Quota from EPD website: "Possible ways to achieve and maintain AQO include **preventive measures** through **intervention in the planning stage** ..."

Our government must take a preventive measure and to do a **new Environmental Impact Assessment** for air quality for CR111 and must use a proper model that include the "**street canyon effect**" of our buildings in trapping air pollutants due to traffic road emissions ...
