Capital Works Reserve Fund Block Allocations for 2007-08

INTRODUCTION

This paper briefs Members on the forthcoming funding submission (draft attached) to the Public Works Subcommittee (PWSC)/Finance Committee (FC) for the Capital Works Reserve Fund (CWRF) block allocations for 2007-08.

BACKGROUND

- 2. Over the years, FC has approved the establishment of block allocations under different Heads of Expenditure of the CWRF, covering different types of public works, acquisition of land, capital subventions and computerisation projects. Among the current 24 block allocations, 21 of them are subject to a financial ceiling of \$15 million (or \$10 million in case of computerisation) in spending on each item. Projects exceeding such ceilings in cost are submitted to the PWSC/FC for funding approval on a project basis. In the case of the three remaining block allocations **Subheads 1004CA** and **1100CA** under **Head 701 Land Acquisition** and **Subhead 5001BX Landslip Preventive Measures** under **Head 705 Civil Engineering**, the relevant controlling officers are empowered under delegated authority of the FC to approve individual items without a financial limit, provided the spending is a proper charge to the subheads and the aggregate expenditure does not exceed the annual allocation approved by FC.
- 3. We propose to create in 2007-08 a new block allocation **Subhead 7016CX District Minor Works Programme** under **Head 707 New Towns and Urban Area Development** for implementing district-based minor works by District Councils. Details of the proposal are set out in paragraphs 8 to 12 of the attached draft PWSC paper.

4. In accordance with the established practice, we seek FC's approval for the funding allocations for the existing and proposed new block allocations on a yearly basis. The proposed CWRF block allocations for 2007-08 are estimated to be \$8,519.0 million.

ADVICE SOUGHT

5. Members are invited to note the contents of the draft PWSC submission on the CWRF Block Allocations for 2007-08.

Block allocations

Members are invited to recommend to Finance Committee –

- (a) the approval of a total allocation of \$8,519.0 million for 2007-08 for existing and proposed new block allocations under 11 Heads of Expenditure in the Capital Works Reserve Fund (CWRF); and
- (b) the creation of a new block allocation Subhead7016CX under Head 707 for implementation of district minor works.

I. PROPOSED PROVISION FOR 2007-08

PROPOSAL

We propose a total allocation of \$8,519.0 million for existing and proposed new block allocations under the following Heads of Expenditure for 2007-08 -

Head	Description	2007-08 proposed allocation (\$ million)
701	Land Acquisition	1,889.0
702	Port and Airport Development	0.0
703	Buildings	2,208.0
704	Drainage	120.0
705	Civil Engineering	1,213.0
706	Highways	740.1
707	New Towns and Urban Area Development	241.0
708	Capital Subventions and Major Systems and Equipment	1,083.1
709	Waterworks	480.0
710	Computerisation	540.0
711	Housing	4.8
	Total for all Heads	8,519.0

Subject to approval, we would include the provisions in the CWRF draft Estimates for 2007-08.

/JUSTIFICATION

JUSTIFICATION

- 2. Unless otherwise approved, expenditure items under the CWRF must generally be approved by FC on a project-by-project basis in accordance with the terms of the Resolution made by the Legislative Council in establishing the CWRF. To enable Members of FC and Public Works Subcommittee (PWSC) to make better use of their time and concentrate on the more important and higher value projects, FC has authorised the Administration to seek funding for these block allocations on a lump-sum basis once every year. Within the lump sum approved for each CWRF block allocation, FC has further delegated to the Administration the power to approve expenditure on individual projects subject to the respective financial ceilings.
- 3. Block allocations underpin the delivery of capital works projects in two main ways: firstly, they provide funds for works departments to establish the technical feasibility and prepare the detailed design/tender documents of major capital works projects prior to seeking FC/PWSC's funding approval for the construction works; and secondly, they enable works departments to carry out standalone minor improvement items of a smaller scale or at district level (e.g. minor building works for schools and public facilities, local roadworks and drainage improvements) in a more efficient manner.

OVERVIEW OF THE PROPOSED ALLOCATION

4. The proposed allocation for CWRF block allocations for 2007-08 totals \$8,519.0 million. This represents a 7.2% increase against the approved total allocation for 2006-07 as set out below –

		Funding for CWRF block allocations		
Head	Description	2006-07 approved allocation (\$ million)	2007-08 proposed allocation (\$ million)	Percentage Change
701	Land Acquisition	1,816.7	1,889.0	+ 4.0%
702	Port and Airport Development	0.0	0.0	+ 0.0%
703	Buildings	2,176.0	2,208.0	+ 1.5%
704	Drainage	100.0	120.0	+20.0%
705	Civil Engineering	1,094.5	1,213.0	+ 10.8%

		block allocations		
Head Description		2006-07 approved allocation (\$ million)	2007-08 proposed allocation (\$ million)	Percentage Change
706	Highways	650.0	740.1	+13.9%
707	New Towns and Urban Area Development	201.0	241.0	+ 19.9%
708	Capital Subventions and Major Systems and Equipment	911.9	1,083.1	+18.8%
709	Waterworks	450.0	480.0	+ 6.7%
710	Computerisation	540.0	540.0	+ 0.0%
711	Housing	6.9	4.8	- 30.4%
	Total for all Heads	7,947.0	8,519.0	+ 7.2%
	Total for works-related Heads (i.e. excluding Heads 701 and 710)	5,590.3	- 6,090.0	+ 8.9%

Funding for CWRF

5. In drawing up the funding requirements for 2007-08, we have taken into account past expenditure patterns, existing commitments and projects expected to be undertaken in the coming financial year under each of the subheads. Balancing the need for fiscal prudence with the need to sustain the momentum of minor works items and preparatory work for major projects, we consider the proposed total allocation for the works-related block allocations appropriate and sustainable.

WORKS-RELATED BLOCK ALLOCATIONS

6. We envisage the following six key expenditure subheads will take up around 80% of the total allocation for works-related block allocations for 2007-08

/Funding

	Funding for CWRF Block allocations		
Subhead	2006-07 approved allocation (\$ million)	2007-08 proposed allocation (\$ million)	Percentage Change
(a) 3004GX – Refurbishment of government buildings (including public facilities with leisure, cultural services and environmental hygiene elements such as parks and public toilets)	1,500.0	1,500.0	+ 0.0%
(b) 5001BX – Landslip preventive measures	936.5	993.0	+ 6.0%
(c) 6100TX – Highway works, studies and investigations	650.0	740.1	+ 13.9%
(d) 3101GX – Minor building works (i.e. mainly to fund new public facilities of relatively minor scale, whereas 3004GX is to fund refurbishment/renovation of facilities already in place)	600.0	630.0	+ 5.0%
(e) 9100WX – Waterworks, studies and investigations	450.0	480.0	+ 6.7%
(f) 8100QX – Alterations, additions, repairs and improvements to education subvented buildings	394.9	439.0	+11.2%
Total for Key Expenditure Subheads	4,531.4	4,782.1	+ 5.5%

BLOCK ALLOCATIONS BY HEADS OF EXPENDITURE

- 7. Details on the funding sought for the existing and proposed new CWRF block allocations for 2007-08 are set out in Enclosures 1 to 11. We have highlighted in each Enclosure
 - (a) a comparison of the proposed allocation for 2007-08 against the 2006-07 approved allocation;
 - (b) the main reasons for variations; and
 - (c) the key on-going expenditure items and new items in 2007-08.

We have deposited a full list of all the items proposed to be funded under each of these block allocations for 2007-08 with the Legislative Council Secretariat.

II. CREATION OF NEW BLOCK ALLOCATION FOR DISTRICT MINOR WORKS

PROPOSAL

8. We propose to create in 2007-08 a new block allocation **Subhead 7016CX** under **Head 707** for implementing district-based works projects by District Councils (DCs) to improve local facilities, living environment and hygienic conditions in the territory. The Controlling Officer of the block vote is the Director of Home Affairs. The details are as follows –

Proposed subhead

Proposed ambit

7016CX – District Minor Works Programme For district-based works projects implemented by District Councils costing up to \$15 million each to improve local facilities, living environment and hygienic conditions in the territory. It covers minor building works, fitting out works and minor alterations, additions and improvement works including furniture and equipment replacement incidental to such works, and slope inspections and minor slope improvement works in respect of all the district facilities under the purview of the District Councils. It also covers all costs to be incurred in the planning of the above projects, such as consultant fees, feasibility studies, site investigation and other studies.

JUSTIFICATION

- 9. Currently, there are three separate sources of funding for carrying out minor works and facility improvements at the district level -
 - (a) CWRF **Subhead 7015CX** Urban Minor Works Programme (Controlling Officer: Director of Home Affairs);
 - (b) CWRF **Subhead 3101GX** Minor Building Works (Controlling Officer: Director of Architectural Services); and
 - (c) Minor Environmental Improvement works not exceeding \$600,000 per item under the DC Funds earmarked for "Environment improvement and community involvement projects" (Controlling Officer: Director of Home Affairs).
- 10. Subject to approval, the new block vote will cover projects currently funded under **Subhead 7015CX** and DC Funds, and the upgrading and enhancement of community/leisure facilities under the purview of Home Affairs Department and Leisure and Cultural Services Department currently funded under **Subhead 3101GX** which will come under the purview of the DCs. The following are some examples of the types of projects which may be implemented under the new block vote
 - (a) upgrading works for community halls, sports venues, district libraries, leisure grounds, swimming pools and public beaches;
 - (b) provision and improvement of rain shelters, pavilions, arbours, benches, information boards, etc.;
 - (c) eradication of hygiene black spots; and
 - (d) provision and improvement of local open space, parks, sitting out areas, rest gardens, promenades and other amenity and recreational facilities.

The cost ceiling of each project initiated and endorsed by DCs should remain at \$15 million. On the other hand, rural area minor improvement works would continue to be implemented under **Subhead 7014CX** – Rural Public Works Programme whose policy objective is to upgrade the infrastructure and improve the living environment of the rural areas in the New Territories.

- 11. For 2007-08, we propose to keep the current funding mechanism under **Subheads 3101GX** and **7015CX** intact and only implement the above new mechanism in four pilot districts (Wan Chai, Wong Tai Sin, Sai Kung and Tuen Mun), with a proposed allocation of \$20 million. These four districts will be given greater flexibility in planning for the implementation of district minor works under the new approach. Hence, a project list has not been included in this submission for the proposed allocation so as not to pre-empt the decisions of the respective DCs under the pilot scheme.
- 12. From 2008-09 onwards, we intend to increase the provision for the dedicated capital works block vote to \$300 million per year, to be partly offset by allocations under the existing sources of funding. The new dedicated block vote would then replace the existing three separate sources of funding to support all district minor works implemented by DCs¹. On-going projects committed under **Subhead 3101GX** would continue until their completion and there would be no need to transfer the residual cash flow of existing projects under **Subhead 3101GX** to the new block vote. On the other hand, projects under **Subhead 7015CX** would be subsumed into the new vote with the required cash flow for completing these outstanding projects reflected in the annual provision from 2008-09 onwards.

FINANCIAL IMPLICATIONS

13. The total proposed allocation for all the block allocations under the CWRF for 2007-08 is \$8,519.0 million.

PUBLIC CONSULTATION

14. We circulated the funding proposals in this paper to the Legislative Council (LegCo) Panel on Planning, Lands and Works on 20 November 2006. Government Chief Information Officer consulted the LegCo Panel on Information Technology and Broadcasting on the funding requirement of the block allocation under **Head 710 - Computerisation** for 2007-08 on 13 November 2006. Panel Members had no objection to the proposal. The Home Affairs Bureau also consulted the LegCo Panel on Home Affairs on 10 November 2006 on the implementation of the recommendations in the DC Review. Members noted the proposed arrangements for this new block vote for DCs to implement district-based minor works and have no objection to its submitting the proposal to the PWSC/FC.

/BACKGROUND

For **Subhead 3101GX**, only the provision for district minor improvement works will be replaced by the new block vote; works of other nature (like construction of additional storeys to existing columbarium, relocation and ungrading refuse collection points, etc.) will continue to be funded under **Subhead 3101GX**.

BACKGROUND INFORMATION

- 15. Over the years, the FC has approved the establishment of block allocations under the CWRF on various types of public works projects, acquisition of land, capital subventions, and computerisation. Twenty-one of the existing 24 block allocations are subject to a financial ceiling of \$15 million (or \$10 million in case of computerisation) in spending on each item. Projects exceeding such ceilings in cost are submitted to the PWSC/FC for funding approval on a project basis.
- 16. In the case of the three remaining block allocations Subheads 1004CA and 1100CA under Head 701 Land Acquisition and Subhead 5001BX under Head 705 Civil Engineering (landslip preventive measures), the relevant controlling officers have delegated authority of the FC to approve individual items without a financial limit, provided the spending is a proper charge to the subheads and the aggregate expenditure does not exceed the annual allocation approved by FC.
- 17. As in past years, we include in this submission the proposed allocation for **Head 710 Computerisation**, which provides funds for computerisation projects under the CWRF i.e. non-works items, for approval by the FC via PWSC each year in a single exercise.
- 18. Following the Chief Executive's 2005-06 Policy Address, the Administration carried out a review on the role, functions and composition of DCs. The review recommended, amongst others, the creation of a dedicated capital works block vote under the CWRF for the departments concerned to implement the decisions of DCs and to better support DCs in initiating and implementing minor works in the districts. This proposal has the unanimous support of DCs and the general public. On completion of a three-month public consultation in July this year, the Administration announced on 28 September 2006 the way forward for implementing the recommendations contained in the 2006 DC Review consultation document.
- 19. We estimate that the proposed allocation of \$6,090.0 million for works-related block allocations in 2007-08 will create about 9 750 jobs (9 150 labourers and another 600 for professional/technical staff) providing a total employment of 117 000 man-months.

Proposed Allocation in 2007-08 for the Block Allocations under Head 701 – Land Acquisition

There are two block allocations under **Head 701**, namely, **Subheads 1004CA** and **1100CA**. The proposed allocation for 2007-08 is \$1,889 million. This represents a 4.0% increase from the approved allocation for 2006-07 of \$1,816.7 million.

- 2. The bulk of the proposed allocation for 2007-08 is to meet the deferred payment of around \$1,000 million for the compensation claims arising from Penny's Bay Reclamation from 2006-07 to 2007-08 (i.e. item 1 of Part I at **Annex 1B**). The estimates for other items are principally assessed by making reference to the past expenditure patterns and latest resumption/compensation amounts of items already resumed and in the pipeline.
- 3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 1A** and **1B**.

Proposed Allocation in 2007-08 for the Block Allocations under Head 705 – Civil Engineering

There are three block allocations under **Head 705**, namely, **Subheads 5001BX**, **5101CX** and **5101DX**. The proposed allocation for 2007-08 is \$1,213 million. This represents a 10.8% increase from the approved allocation for 2006-07 of \$1,094.5 million.

- 2. The proposed increase in allocation for **Subhead 5101CX** (increased from \$128 million in 2006-07 by \$54 million to 182 million in 2007-08) and **Subhead 5101DX** (increased from \$30 million in 2006-07 by \$8 million to \$38 million in 2007-08) is mainly due to a number of new projects commencing and the higher cashflow requirements of the ongoing projects in 2007-08.
- 3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 5A** to **5C**.

Proposed Allocation in 2007-08 for the Block Allocations under Head 707 – New Towns and Urban Area Development

There are at present three block allocations under **Head 707**, namely, **Subheads 7014CX**, **7015CX** and **7100CX**. The Home Affairs Bureau proposes to create a new block allocation **Subhead 7016CX** under **Head 707** in 2007-08. The proposed allocation for these four subheads for 2007-08 is \$241 million, including an allocation of \$20 million for the proposed **Subhead 7016CX** subject to the approval of the Finance Committee for creating the new block allocation. This represents a 19.9% increase from the approved allocation for 2006-07 of \$201 million.

- 2. The proposed increase in allocation for **Subhead 7100CX** (increased from \$41 million in 2006-07 by \$28 million to \$69 million in 2007-08) is mainly due to a larger number of new items which will incur expenditure and the higher cashflow requirements of the ongoing projects in 2007-08.
- 3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 7A** to **7D**.

Proposed Allocation in 2007-08 for the Block Allocations under Head 708 – Capital Subventions and Major Systems and Equipment

There are five block allocations under **Head 708**, namely, **Subheads 8100BX**, **8100EX**, **8100MX**, **8100QX** and **8001SX**. The proposed allocation for 2007-08 is \$1,083.1 million. This represents an 18.8% increase from the approved allocation for 2006-07 of \$911.8 million.

- 2. The proposed increase in the allocation for **Subhead 8100EX** from \$259 million by \$43 million to \$302 million is mainly due to the higher cashflow requirements for ongoing items in 2007-08. The proposed increase in the allocation for **Subhead 8100MX** from \$240 million by \$80 million to \$320 million is mainly due to the increasing amount of improvement and renovation works for hospitals due to ageing of hospital buildings. The proposed increase in the allocation for **Subhead 8001SX** from \$12.226 million by \$4.074 million to \$16.3 million is mainly due to the deferred payment of a project (i.e. item 2 at Enclosure 8E, Part I) from 2006-07 to 2007-08.
- 3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 8A** to **8E**.
