**6. Exemption from regulation 53(2) of the Road Traffic (Traffic Control) Regulations (Cap. 374 sub. leg. G) for vehicles used for canvassing activities**

To be confirmed

At the Subcommittee to Study Four Items of Subsidiary Legislation under the Road Traffic Ordinance, some members of the Subcommittee considered that the Administration should take a broader view and the proposed Amendment Regulations should aim at facilitating not only the float parades to be held at the Hong Kong Disneyland but also canvassing activities during elections. The Administration was of the view that the safety requirements for standing passengers on such vehicles went beyond the ambit of the then legislative amendments, but the Administration undertook to separately examine this proposal in detail.

**7. Legislative amendments relating to lighting, reflectors and markings of vehicles**

To be confirmed

The Administration expects that the draft legislation will be ready within the 2006-07 legislative session. It will consult the Panel before the legislation is tabled at LegCo for negative vetting.

**8. Measures to regulate taxi operation**

To be confirmed

Proposed by the Chairman. In recognition that the present difficult business environment of taxis is partly attributed to the discounts offered by some taxi drivers, the Chairman sees a need for the Administration to actively map out measures to tackle the malpractice and to review the present taxi fare level.

**9. Impact of Ngong Ping Skyrail on New Lantao Bus Company**

To be confirmed

This item is proposed by Mr Albert CHAN. At the meeting on 12 October 2006, Mr CHAN highlighted the urgent need for the Panel to discuss the Ngong Ping Skyrail project as a transport issue in consideration of the impact of its operation on the commercial viability of the New Lantao Bus Company Ltd. and hence the sustainability of bus services to the travelling public on Lantau Island.

(Note: The Administration has pointed out that the Ngong Ping Skyrail commenced operation in September 2006, its impact on the New Lantao Bus Company (1973) Ltd. will only become stabilized at a later stage. Moreover, the Company needs time to ascertain its services and financial position before mapping out any necessary changes to its operation. The Administration suggests confirming the timing of discussion at a later stage.)

**10. Measures to enhance the safety awareness of pedestrians**
