

ITEM FOR ESTABLISHMENT SUBCOMMITTEE OF FINANCE COMMITTEE

**HEAD 47 – GOVERNMENT SECRETARIAT : OFFICE OF THE
GOVERNMENT CHIEF INFORMATION OFFICER**

**HEAD 55 – GOVERNMENT SECRETARIAT : COMMERCE
AND ECONOMIC DEVELOPMENT BUREAU
(COMMUNICATIONS AND TECHNOLOGY BRANCH)**

**HEAD 155 – GOVERNMENT SECRETARIAT :
INNOVATION AND TECHNOLOGY COMMISSION**

**HEAD 180 – TELEVISION AND ENTERTAINMENT LICENSING
AUTHORITY**

Subhead 000 Operational expenses

Members are invited to recommend to Finance Committee the following proposals to facilitate the creation of a new office of Create Hong Kong in the Communications and Technology Branch of the Commerce and Economic Development Bureau with effect from 1 June 2009 –

(a) the creation of the following new grade and rank –

Head of Create Hong Kong
(D3) (\$142,700 – \$151,200)

(b) the creation of the following permanent post under
Head 55 –

/1 Head

1 Head of Create Hong Kong
(D3) (\$142,700 – \$151,200)

to be offset by the deletion of the following permanent post under Head 47 –

1 Administrative Officer Staff Grade C
(D2) (\$122,700 - \$130,300);

- (c) the revision and redistribution of duties among some directorate posts under Head 47; and
- (d) adjustments to the ceiling placed on the total notional annual mid-point salary value of all non-directorate posts in the permanent establishment of the following Heads of Expenditure in 2009-10 –

Head 47

a decrease from \$277,583,000 by \$1,594,000 to \$275,989,000

Head 55

an increase from \$18,328,000 by \$16,618,000 to \$34,946,000

Head 155

a decrease from \$70,424,000 by \$2,254,000 to \$68,170,000

Head 180

a decrease from \$56,634,000 by \$12,769,000 to \$43,865,000

/PROBLEM

PROBLEM

There is a need to establish a dedicated agency within the Government to lead, champion and drive the development of a creative economy in Hong Kong.

PROPOSAL

2. We propose, with effect from 1 June 2009, to –
 - (a) establish a dedicated office to be named Create Hong Kong (CreateHK) in the Communications and Technology Branch (CTB) of the Commerce and Economic Development Bureau (CEDB) by redeploying resources from the Office of the Government Chief Information Officer (OGCIO), the Television and Entertainment Licensing Authority (TELA) and the Innovation and Technology Commission (ITC). CreateHK will take up co-ordination among different Government bureaux/departments (B/Ds) to drive the development of the creative industries;
 - (b) create a post in the new grade and rank of Head of CreateHK (D3) to head the dedicated office, to be offset by the deletion of an Administrative Officer Staff Grade C (AOSGC) (D2) post in OGCIO;
 - (c) consequentially revise and redistribute the duties and responsibilities among some of the directorate posts in the OGCIO and ITC; and
 - (d) adjust the establishment ceiling placed on the total notional annual mid-point salary (NAMS) value of all non-directorate posts in the permanent establishment under Heads 47, 55, 155 and 180 in 2009-10 to facilitate the cost-neutral transfer of non-directorate posts as a result of (a).

JUSTIFICATION

3. The term “creative industries” is a relatively new concept which has different scope and definition among different countries in the world. The United Kingdom defines creative industries as “those industries which have their origin in individual creativity, skill and talent and which have a potential for wealth and job creation through the generation and exploitation of intellectual property”¹.

/4.

¹ Department for Culture, Media and Sport (1998 and 2001), *The Creative Industries: Mapping Document*.

4. Using the above definition, we feel that Hong Kong has an edge in a number of creative industry domains, including motion pictures, television, design, architecture, animation and comics, advertising and digital entertainment, etc. These creative industries are already important economic drivers of Hong Kong. They help increase the innovation capacity of the economy as a whole and can be a powerhouse for economic growth. There are now more than 172 000 practitioners working in our creative industries, with close to 32 000 establishments and total value-added exceeding \$60 billion a year, representing around 4% of our Gross Domestic Product. If they can be supported and nurtured effectively, the potential of the creative economy is substantial.

5. While Hong Kong has an edge in the various creative industries sectors mentioned above, competition from the neighbouring regions and cities is keen, and there is inclination that other places may catch up with us very soon. Over the past few months, the Government has met with various creative industries representatives and stakeholders to gauge their views on how to drive the development of our creative industries and build Hong Kong into a creative capital in the region. There is strong support for the Government to set up a dedicated office to co-ordinate Government policy and efforts regarding creative industries as well as to set aside dedicated resources for supporting the development of creative industries. There is a need to set up a dedicated office to focus Government's resources catering for the promotion and speeding up of the development of creative industries in Hong Kong. The new office will work closely with the trade to boost the development of creative industries. In addition, it will also provide more effective support for our creative industries through the integration of resources.

Establishment of the dedicated office – CreateHK

6. Although the Government currently renders support to different sectors of the creative industries through various Government B/Ds, including CEDB, Home Affairs Bureau (HAB), OGCIO, TELA, ITC and Trade and Industry Department (TID), such efforts are scattered and the results are not as notable as we have expected. A dedicated office like CreateHK should be established to provide a focus for Government's efforts in support of the creative industries. With the establishment of CreateHK, there will be better co-ordination within the Government to drive creative industries development and we would be able to respond more effectively to industries' demands and better serve the trade through a one-stop service. The office will become the champion to drive the development of the creative economy.

/7.

7. At present, there are various schemes and funding sources supporting the development of creative industries in Hong Kong. These are managed by different offices within the Government, for example, the Film Development Fund (FDF) under the auspices of TELA, the DesignSmart Initiative (DSI) and the funding support for the operation of Hong Kong Design Centre (HKDC) under ITC, the Cyberport Digital Entertainment Incubation-cum-Training Programme funded by the Innovation and Technology Fund. Through redeployment and consolidation of these existing resources, CreateHK will further enhance and strengthen measures to support creative industries.

8. CreateHK will work together with the creative industries sectors to identify areas for strengthening collaboration in Hong Kong and elsewhere. Moreover, the office will establish a mechanism to more actively engage industry representatives such that we would be in a better position to understand the needs and expectations of the industries. With the setting up of CreateHK, there will be a closer tie between the Government and the industries, thus accelerating the development of our creative economy.

Our vision and mission

9. Our vision is to build Hong Kong into a regional creative capital. With this vision, the mission of CreateHK is to foster a conducive environment in Hong Kong to facilitate creative industries development. Based on consultation with the creative industries representatives, we have worked out a preliminary development strategy for CreateHK which will adopt a comprehensive and multi-pronged approach covering the following areas –

- (a) nurturing a pool of creative human capital which will form the backbone of our creative economy;
- (b) facilitating start-ups and the development of creative establishments;
- (c) generating demand for innovation and creativity and expanding local market size for creative industries;
- (d) promoting our creative industries on the Mainland and overseas to help explore outside markets;
- (e) fostering a creative atmosphere within the community;
- (f) developing creative clusters in the territory to generate synergy and facilitate exchanges; and
- (g) promoting Hong Kong as Asia's creative capital.

Funding to support Creative Industries

10. The Financial Secretary has earmarked \$300 million in the 2009-10 Budget to support Hong Kong's creative industries and the development of a creative economy in the coming three years. This is on top of the various funding schemes we have provided to support creative industries, for example, the injection of \$300 million into FDF, the setting up of the \$250 million DSI, the \$100 million allocation for supporting the operation of HKDC, etc.

Organisation of CreateHK

Encls. 2
& 3

11. CreateHK, which will be established under CTB, will be led by the Head of CreateHK with some 40 staff to be redeployed from OGCI, TELA and ITC. The existing and proposed organisation chart of CTB after the establishment of CreateHK and the proposed organisation chart of CreateHK are at Enclosures 2 and 3 respectively.

12. The Head of CreateHK will be responsible for the overall management of CreateHK and spearheading the strategy for driving and implementing various measures to support the development of creative industries. The work under the purview of CreateHK will be heavy and complex, with a significant impact on the long-term development of the industries. As such, we propose that the new Head of CreateHK post should be pitched at D3 level, reporting directly to the Permanent Secretary for Commerce and Economic Development (Communications and Technology) (PSCT).

13. The creation of a new Head of CreateHK post at D3 level is considered necessary as –

- (a) the post-holder will have a heavy work schedule to deal with various sectors of the creative industries, including motion pictures, television, design, animation and comics, and digital entertainment, as well as areas not currently addressed by any Government agency, e.g. architecture, advertising, etc.;
- (b) the post-holder will have to co-ordinate the work of various B/Ds in creative industries related work, e.g. culture and performing arts with HAB, training of talent with the Education Bureau, etc., and manage various funding schemes involving a sizeable amount of public funding. Pitching the post at D3 level would reflect the level of responsibility of the post and the actual needs for co-ordinating initiatives among various Government agencies;

/(c)

- (c) the post-holder will have to secure for CreateHK the integration of manpower resources coming from redeployment of different grades of officers from different agencies under CEDB. It is necessary for the post-holder to possess the leadership skills to manage different grades of officers and build up an effective team;
- (d) as the champion for the creative industries in Hong Kong, the post-holder should establish himself/herself as the focal point for the diversified creative industries in the territory, and be able to represent Hong Kong in the international arena. Filling the post by an officer of a sufficiently high ranking would be able to command the appropriate respect and status both within and outside the Government; and
- (e) pitching of the post at D3 level will give the public and the industries the confidence that the Government is firmly committed to driving the development of the creative economy.

Encl. 4 14. The proposed job description of the Head of CreateHK post is at Enclosure 4.

15. All the duties and responsibilities of the Head of CreateHK require a high level of analytical and organisational capability with broad business and operational experience to appreciate and understand the specific needs of the creative industries in Hong Kong. The post-holder should also possess relevant experience and connection with the creative industries sectors which is necessary for CreateHK to work closely in collaboration with the industries. Due to the new and unique tasks to be handled by the Head of CreateHK, and to ensure that we can access a wider pool of candidates for recruitment and to tap the resources and talent of the private sector, we propose to create a new grade and rank for the post and fill the post through open recruitment.

Changes in directorate establishment

Reshuffling of duties of directorate posts in OGCIO

Encl. 5 16. The Finance Committee (FC) approved the establishment of OGCIO by merging the information technology-related divisions of CTB of the then Commerce, Industry and Technology Bureau and the then Information Technology Services Department in June 2004 vide EC(2004-05)8. The organisation chart of OGCIO after merger is at Enclosure 5. Apart from the Government Chief Information Officer (GCIO) (D6), OGCIO has 16 directorate posts, namely, one Administrative Officer Staff Grade B (D3), one Deputy Director of Information Technology Services (D3), two AOSGC (D2), four Assistant Directors of Information Technology Services (D2) and eight Chief System Managers (D1).

/17.

17. Since its establishment in 2004, OGCI0 has on several occasions made adjustments to the distribution of work among its divisions so as to realign resources in the light of operational needs and policy emphasis, without affecting the overall functions of OGCI0, the set up of its divisions and the general distribution of work among its directorate posts. The latest of such changes were made in December 2008. The organisation chart at Enclosure 6(a) reflects the revised nomenclature of the post titles to align the duties of various divisions more closely and clearly with the five action areas in the 2008 Digital 21 Strategy, namely –

- (a) facilitating a digital economy;
- (b) promoting advanced technology and innovation;
- (c) developing Hong Kong as a hub for technological co-operation and trade;
- (d) enabling the next generation of public services; and
- (e) building an inclusive, knowledge-based society.

18. As a result of the above change, the former Assistant Government Chief Information Officer (A) (IT Policy) (AGCIO(A) (IT Policy)) post was renamed as AGCIO(Strategy and Programme Management) (AGCIO(SP)) in December 2008 to tie in with its responsibility for reviewing and formulating the Digital 21 Strategy and the action programme for delivering it. The job description of AGCIO(SP) is at Enclosure 6(b). The former AGCIO(A) (IT Policy) post also had some responsibilities related to the action area of “Facilitating a Digital Economy”. These have been taken up by AGCIO (Digital Economy Facilitation) (AGCIO(DE)) who is in charge of the new Digital Economy Facilitation Division, which was formerly known as the Industry Development and E-Business Division when the OGCI0 was established in 2004.

19. With the finalisation of Statements of Desired Outcome (SDOs) for each action area, OGCI0 now has long-term objectives to guide Hong Kong’s development for the years to come. They have also reviewed and refined their action plans to reflect the SDOs. Henceforth, OGCI0 plans to adopt a more evolutionary approach in refining the strategy and action plans. Instead of conducting a major fundamental review of the Digital 21 Strategy every three to four years, OGCI0 will review the achievements in the five action areas on a regular and continued basis and, if necessary, refine the strategies and action plans to meet changing circumstances. This reflects the approach of continuous refinement, and would more closely integrate policy formulation with implementation in accordance with the original rationale for establishing OGCI0.

In order to implement the above new approach, the responsibility for reviewing and formulating the Digital 21 Strategy will need to be transferred from AGCIO(SP) to other AGCIOs responsible for the various action areas.

Proposed deletion of the AGCIO(SP) post

20. As a result of the above transfer of duties, only a few responsibilities of AGCIO(SP) remain, relating to programme management, measurement of outcomes and servicing of various committees. There is no longer a need to retain the AGCIO(SP) post in OGCIO. A de-layering approach will be adopted, in which the Deputy Government Chief Information Officer (Policy and Customer Service) will absorb the remaining responsibilities of the AGCIO(SP) post which could be deleted. The proposed organisation chart of OGCIO and the revised job descriptions of directorate posts in charge of various divisions in OGCIO after the proposed revision and redistribution of duties are at Enclosures 7(a) to 7(j).

Encls. 7(a)
- 7(j)

Redeployment from TELA

21. The Film Services Office (FSO) of TELA now serves to assist the development of the film industry in Hong Kong. We propose to transfer the entire FSO and to redeploy the Secretary-General of the Film Development Council, a non-civil service position created at the equivalent rank of D2 to head FSO, to CreateHK. The duties of the Secretary General will remain largely the same after the transfer.

Other changes in directorate establishment

22. In considering the redeployment plans to CreateHK, ITC has critically assessed the implications on the duties of its directorate officers and considered it necessary to rationalise the duties of its Assistant Commissioners (ACs) accordingly. ITC has separately submitted its proposal to revise and redistribute the duties of its ACs vide ESC Paper EC(2009-10)2.

Changes in the non-directorate establishment

Redeployment from OGCIO

23. There is a team comprising two non-directorate civil service posts including one Systems Manager and one Analyst/Programmer I under the Digital Economy Facilitation Division of OGCIO, which is currently responsible for facilitating the development of the digital entertainment industry. We propose to redeploy the team together with one Personal Secretary I post to CreateHK. The civil service posts to be redeployed are set out at Enclosure 7(k). The duties of the team will remain largely unchanged after the transfer.

Encl. 7(k)

/Redeployment

Redeployment from TELA

Encls. 8(a)
- 8(c)

24. FSO has 26 non-directorate civil service posts and four non-civil service contract (NCSC) staff. Apart from redeploying all civil service staff and NCSC positions in FSO, we also propose to redeploy four other non-directorate civil service posts from TELA to CreateHK to provide administrative support. The organisation charts of TELA before and after redeployment are at Enclosures 8(a) and 8(b). The civil service posts and NCSC positions to be redeployed are set out at Enclosure 8 (c). After the proposed transfer, the posts will continue to support the development of the film industry in Hong Kong.

Redeployment from ITC

Encls. 9(a)
- 9(c)

25. The Design Team in ITC now has five non-directorate civil service posts and two NCSC staff. The team is responsible for all matters related to design and branding, including the administration of the various funding schemes under DSI, administration of the funding support of \$100 million for HKDC and monitoring of the Design Incubation Programme administered by the Hong Kong Science and Technology Parks Corporation. We propose to redeploy these five civil service posts and two NCSC staff in the Design Team of ITC, together with their existing duties, to CreateHK. The organisation chart of ITC before and after the redeployment are at Enclosures 9(a) and 9 (b) respectively. The civil service posts and NCSC positions to be redeployed are set out at Enclosure 9(c).

Further redeployment plans

26. There will be scope to redeploy staff from TID to CreateHK to support the development of creative industries. However, given the other more pressing priorities of TID at the moment, it will conduct a review on its manpower to implement the redeployment at a later stage, taking into account the impact of these priorities on staff deployment in short to medium term and developments on other fronts.

27. After the initial establishment of CreateHK, we will review and identify further scope for redeployment as well as hiring of NCSC staff according to the CreateHK's operational needs, for example, the need to hire staff from outside the Government to ensure good knowledge of the industries, and in the light of any further re-organisation of departments under CEDB. CEDB will work with relevant departments to finalise the redeployment plans and any new redeployment plans will be taken forward in accordance with the established mechanism.

/Overall

Overall Summary of the Changes in Staffing Position

28. The establishment of the new office of CreateHK through redeployment and integration of existing resources will not involve any overall change in the number of staff, including both civil service posts and non-civil service positions. Upon the setting up of the new office, CreateHK will have a planned civil service establishment of 39 posts, including one directorate post and 38 non-directorate posts. Apart from civil service posts, the new office will also have seven non-civil service staff. A summary of the staff redeployment arrangements in CTB and the relevant departments is at Enclosure 10.

Encl. 10

Alternatives considered

29. We have critically explored the scope for other directorate officers of comparable ranks in CTB to absorb the duties of the proposed post. PSCT is at present underpinned by the Commissioner for Innovation and Technology (CIT) (D6), GCIO (D6) and Deputy Secretary (Communications and Technology) (DSCT) (AOSGB1) (D4). CIT is the head of ITC, which is charged with the mission to spearhead Hong Kong's drive to become a world-class, knowledge-based economy. CIT is also the controlling officer of the \$5 billion Innovation and Technology Fund. GCIO heads OGCI, which is responsible for the Government's Information and Communication Technology (ICT) policies, strategies, programmes and measures under the Digital 21 Strategy, and providing information technology services and support within the Government. DSCT is charged with the policy responsibilities for broadcasting, telecommunications, and control of obscene and indecent materials. As they are already fully committed to their existing workload, it is operationally not possible for them to take up the whole range of duties of the Head of CreateHK post without adversely affecting the discharge of their own schedule of duties. Furthermore, due to the Government's plans to speed up development of creative industries, the workload of CreateHK is expected to increase in the coming years.

Adjustment to the establishment ceiling for Head 47, Head 55, Head 155 and Head 180

30. Upon the proposed establishment of CreateHK with effect from 1 June 2009, 38 non-directorate posts from OGCI, TELA and ITC will be transferred to CTB to support the operation of CreateHK. We will process the changes in the non-directorate establishment through the Departmental Establishment Committee. The ceiling placed on the total NAMS value of non-directorate posts in the permanent establishment under Head 55 in 2009-10 would be increased from \$18,328,000 by \$16,618,000 to \$34,946,000, to be offset by reductions in NAMS values of \$1,594,000, \$2,254,000 and \$12,769,000 under Heads 47, 155 and 180 respectively.

/Staff

Staff Consultation

31. CTB has briefed the concerned staff of OGCIO, TELA and ITC in February and March 2009 on the proposed redeployment proposals. They generally understood the justifications for the redeployment.

FINANCIAL IMPLICATIONS

32. The proposed changes in directorate establishment will bring about an additional notional annual salary cost at mid-point of \$245,400 as follows –

Rank	NAMS (\$)	No. of post
Creation of permanent post		
Head 55		
Head of CreateHK (D3)	1,763,400	1
Less: Deletion of permanent post		
Head 47		
AOSGC (D2)	1,518,000	1
	245,400	0

The additional full annual average staff cost, including salaries and staff on-cost, is about \$308,000.

33. The proposal will require the permanent redeployment of 38 non-directorate posts and seven NCSC staff from OGCIO, TELA and ITC to CTB which is cost-neutral². We will seek the approval of FC in due course for the necessary changes to the 2009-10 Estimates for the relevant Heads of Expenditure.

PUBLIC CONSULTATION

34. We consulted the Legislative Council Panel on Information Technology and Broadcasting on this proposal on 9 February 2009. Members generally supported the proposal.

BACKGROUND

35. In the 2007 Policy Address, the Chief Executive (CE) pledged that Hong Kong should accelerate the development of creative industries in the next five years in order to maintain our competitive edge. The CE further announced in

/the

² A slight increase in NAMS value of \$1,000 is required for adjusting the NAMS ceiling of the relevant Heads of Expenditure due to rounding effect.

the 2008 Policy Address the setting up of a dedicated office to provide better support and one-stop service for the creative industries through integration of existing resources. Currently, the Government has been supporting the film and design industries through FDF and DSI. The Financial Secretary has announced in the 2009-10 Budget that the Government will earmark \$300 million to support the development of Hong Kong's creative industries other than the film and design industries in the coming three years.

ESTABLISHMENT CHANGES

36. The establishment changes under various Heads for the past two years are as follows –

Establishment (Note)	Number of posts		
	Existing (as at 1 April 2009)	As at 1 April 2008	As at 1 April 2007
<i>Head 47</i>			
A	17 [#]	17	17
B	127	128	126
C	486	488	444
Total	630	633	587
<i>Head 55</i>			
A	4 [#]	4	4
B	10	10	10
C	38	38	38
Total	52	52	52
<i>Head 155</i>			
A	7 [#]	7	7
B	49	48	48
C	113	113	113
Total	169	168	168
<i>Head 180</i>			
A	3 [#]	3	3
B	25	25	24
C	126	125	125
Total	154	153	152

/Note

Note :

- A - ranks in the directorate pay scale or equivalent
- B - non-directorate ranks the maximum pay point of which is above MPS point 33 or equivalent
- C - non-directorate ranks the maximum pay point of which is at or below MPS point 33 or equivalent
- # as at 1 April 2009, there were no unfilled directorate posts

CIVIL SERVICE BUREAU COMMENTS

37. The Civil Service Bureau supports the proposed creation of the one-rank grade of Head of Create Hong Kong to lead CreateHK in driving the development of a creative economy in Hong Kong and the proposed revision and redistribution of duties of the directorate posts in OGCIO. The grading and ranking of the proposed post are considered appropriate having regard to the level and scope of responsibilities required.

ADVICE OF THE STANDING COMMITTEE ON DIRECTORATE SALARIES AND CONDITIONS OF SERVICE

38. The Standing Committee on Directorate Salaries and Conditions of Service has advised that the grading proposed for the post would be appropriate if the proposal were to be implemented.

Commerce and Economic Development Bureau
April 2009

Creative Economy Development

Vision

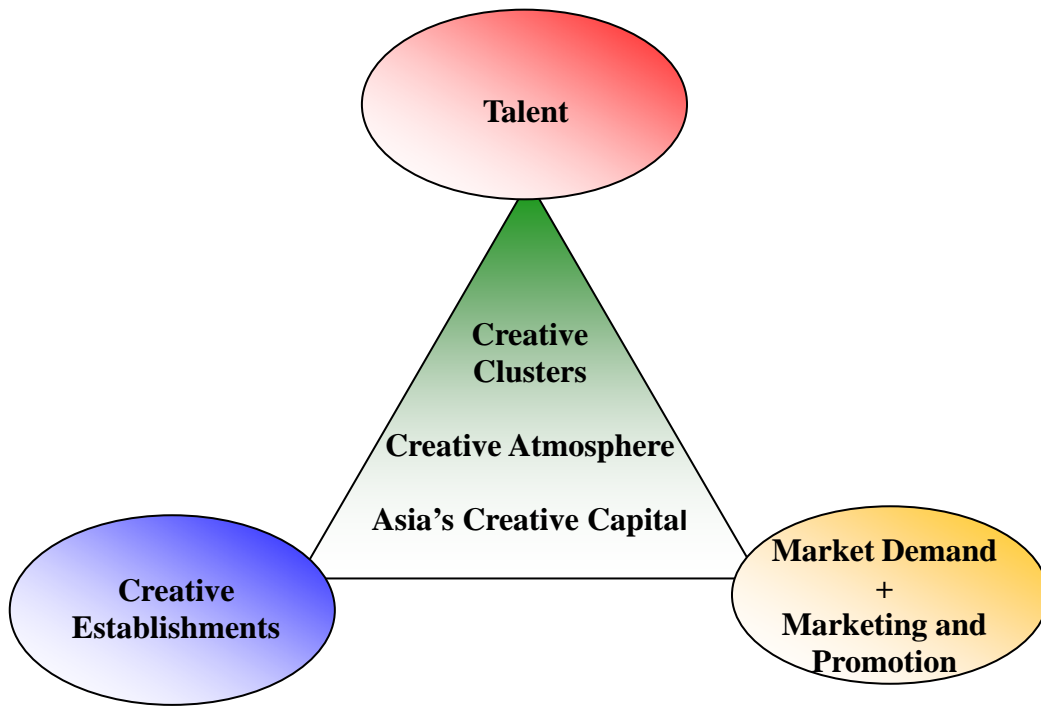

To build Hong Kong into a regional creative capital.

Mission

To foster a conducive environment in Hong Kong to facilitate creative industries development.

Strategic Direction: Seven strategic areas

- (a) nurturing a pool of creative human capital which will form the backbone of our creative economy;
- (b) facilitating start-ups and development of creative establishments;
- (c) generating demand for innovation and creativity and expanding local market size for creative industries;
- (d) promoting creative industries on the Mainland and overseas to help explore outside markets;
- (e) fostering a creative atmosphere within the community;
- (f) developing creative clusters in the territory to generate synergy and facilitate exchanges; and
- (g) promoting Hong Kong as Asia's creative capital.

(a) *Talent*

- To train a large pool of creative talent as the essential fuel to propel the development of the creative economy
- To groom local creative talent as well as to attract talent from outside Hong Kong

(b) *Creative Establishments*

- Facilitate start-up of creative establishments
- To help local talent set up their own business amidst the high cost of operation in Hong Kong
- Provide financial incentives as well as business knowledge for them to become sustainable establishments

(c) *Market Demand*

- To sustain the survival and growth of our creative industry establishments by generating new demand for innovation and creativity and expanding local market size

(d) *Marketing and Promotion*

- To promote local creative industries on the Mainland and overseas
- To generate sustainable and expandable demand for local creativity in Mainland and overseas markets

/(e)

(e) Creative Clusters

- Some areas in Hong Kong are characterised by a particularly active presence of cultural and creative activities, e.g. Hollywood Road, “Soho” and Shek Kip Mei
- To build on existing strength and establish creative clusters to become the focal point of the creative economy

(f) Creative Atmosphere

- To facilitate the fostering and strengthening of a more creative environment within our community and create audience
- Conducive to the building of creative capacity and generate sustainable local demand

(g) Asia’s Creative Capital

- To develop Hong Kong’s position in creativity and innovation in the region
- To introduce major signature events
- To attract talent to come to Hong Kong for creative ideas and exchanges or as a base for them to develop creative businesses and enrich Hong Kong’s diversity in creativity
- Promoting Hong Kong as Asia’s creative capital

The Way Forward

Immediate:

- Refine development strategy taking into account views of the industries and the Legislative Council
- Set up the dedicated office: CreateHK

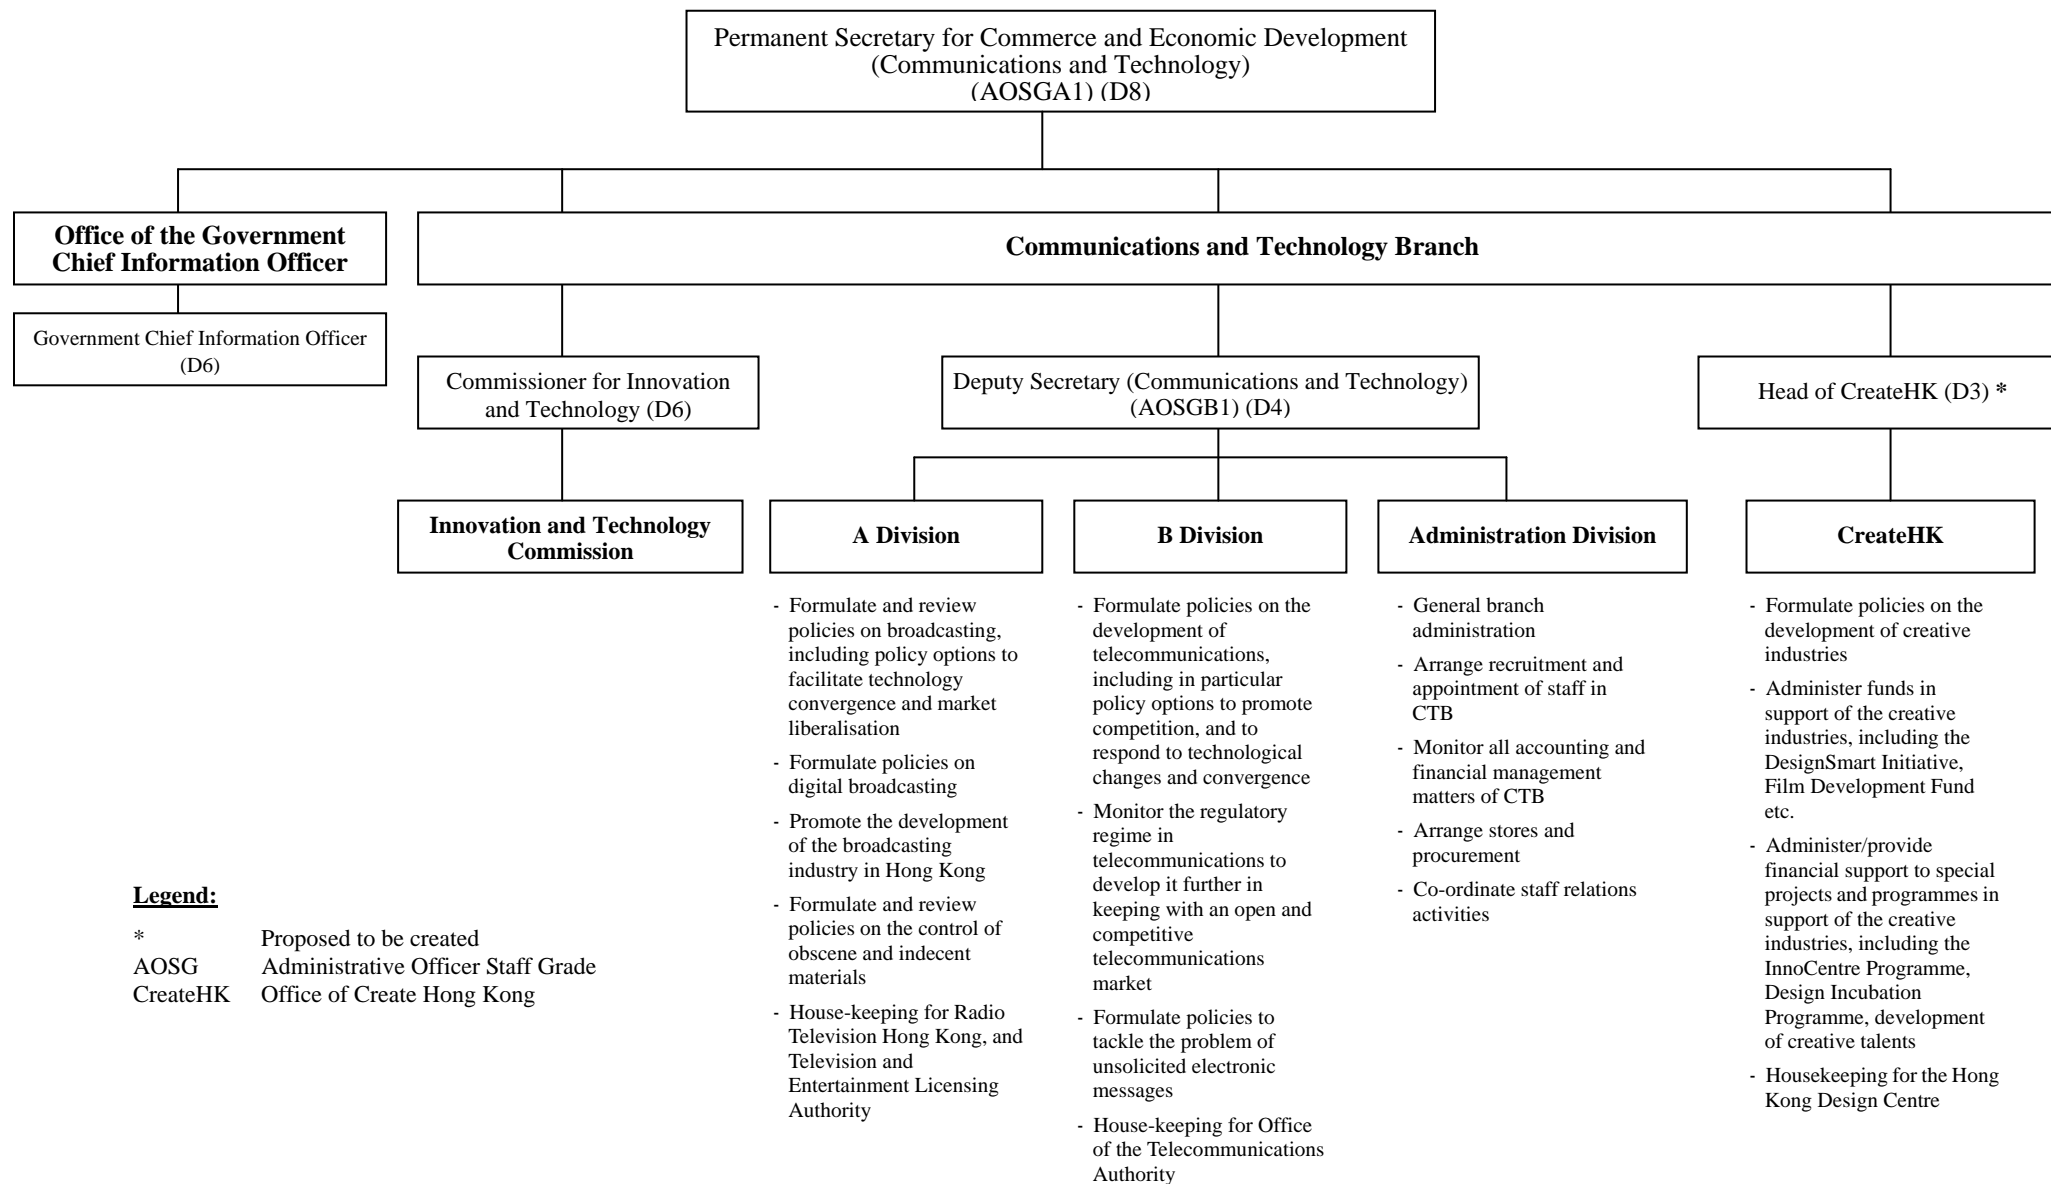

Mid-term:

- Develop and implement support measures
- Commission in-depth study for the long-term creative industries development

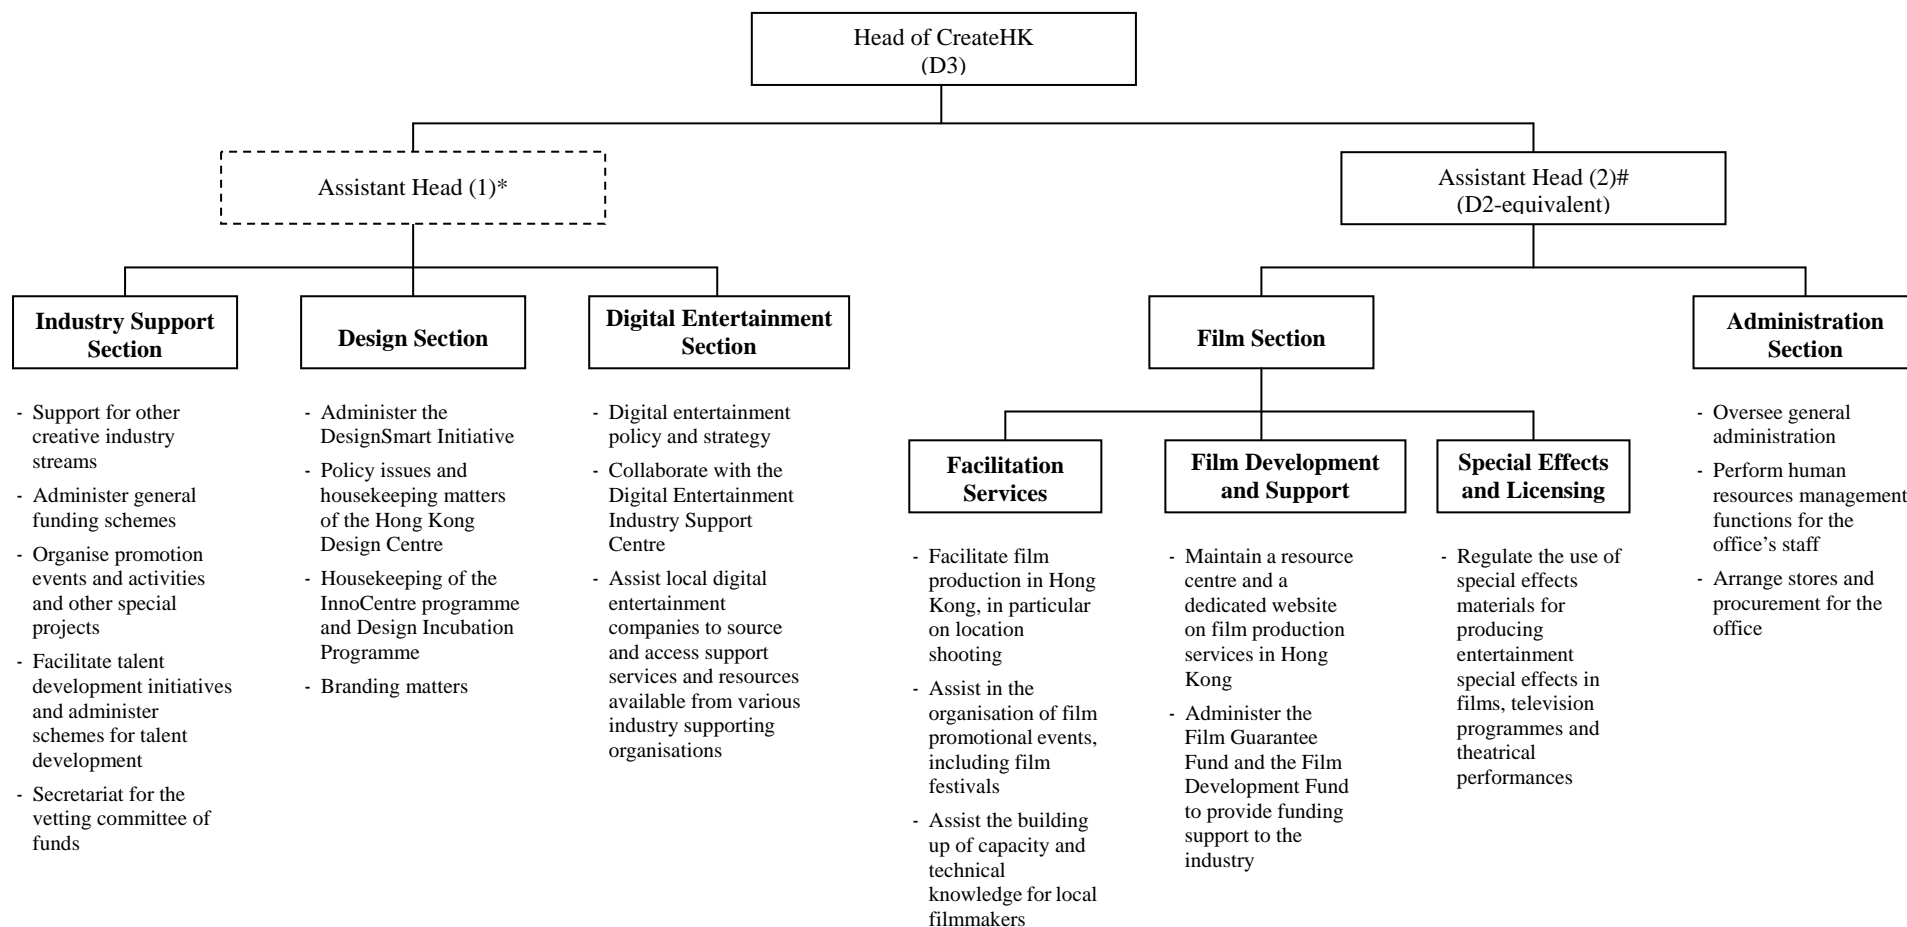

Long-term:

- Formulate long-term strategy based on the results of the commissioned study

Existing and Proposed Organisation Chart of the Communications and Technology Branch, Commerce and Economic Development Bureau after Establishment of the Office of Create Hong Kong

Proposed Organisation Chart of the Office of Create Hong Kong, Communications and Technology Branch

Legend:

Head of CreateHK - Head of Create Hong Kong

* The redeployment plan of the Assistant Head (1) of CreateHK (AH(1)) is being considered and may be finalised after the office has been created. The section heads of the Industry Support, Design and Digital Entertainment sections will report directly to the Head of CreateHK until the post of AH(1) has been established.

Non-civil service position

**Job Description
Head of Create Hong Kong**

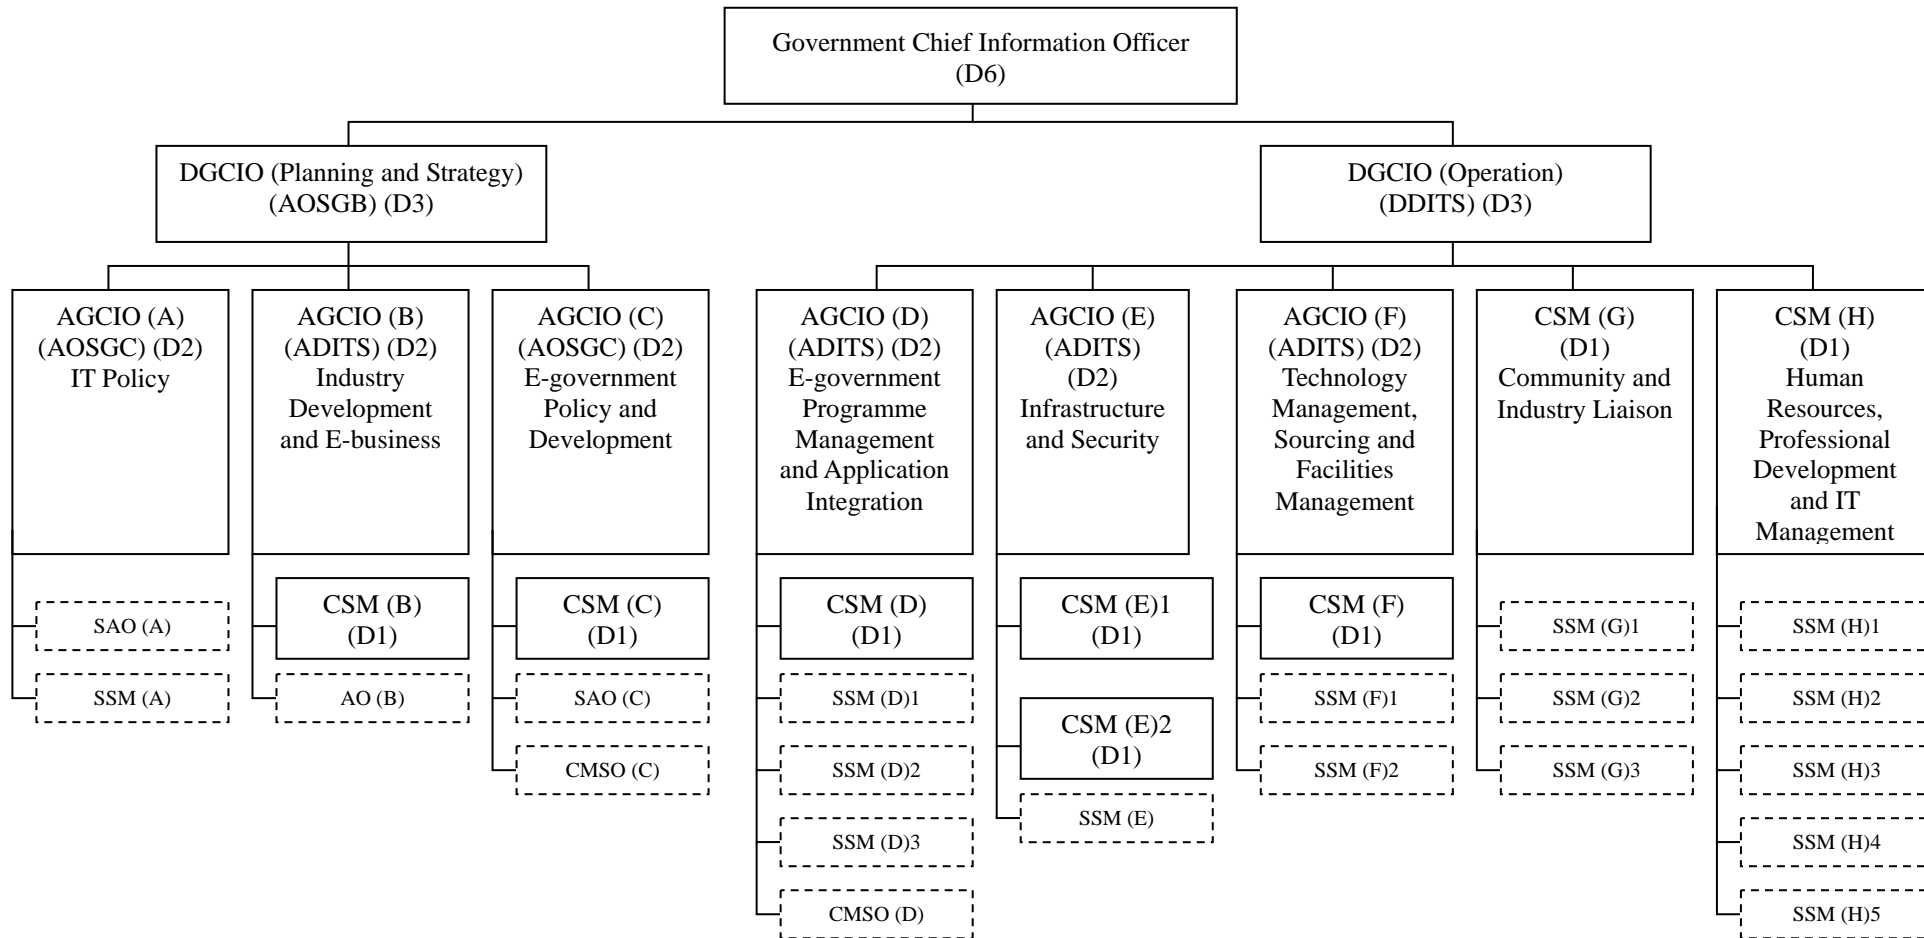

Post title : Head of Create Hong Kong (CreateHK)
Rank : Head of Create Hong Kong (D3)
Responsible to : Permanent Secretary for Commerce and Economic Development (Communications and Technology)

Main Duties and Responsibilities –

1. To formulate policies and strategies for the development of the creative industries;
2. to develop and implement initiatives to drive the creative economy, and review the effectiveness of such initiatives;
3. to act as the Head of CreateHK, and be responsible for resources and manpower planning, management and control, including securing allocation and achieving performance targets, staff development and management, staff discipline and relations;
4. to oversee the administration and management of the Film Development Fund, the DesignSmart Initiative and other funds established to promote the development of the creative industries;
5. to supervise the Secretariat of the Film Development Council which advises the Government on the formulation of strategies for the development of the film industry;
6. to co-ordinate the creative industries and Government/public organisations to ensure smooth implementation of all publicly funded activities related to creative industries, and collaborate with them to provide one-stop service for the promotion of the creative industries;
7. to administer and provide financial support to special projects and programmes in support of the creative industries, including the InnoCentre Incubation Programme, design incubation, development of creative curriculum and talents;

8. to act as the principal representative of the Hong Kong Special Administrative Region in promoting creative industries in the international arena;
9. to liaise and co-ordinate with relevant bureaux and departments on measures to promote and safeguard the interest of creative industries;
10. to housekeep the performance of the Hong Kong Design Centre; and
11. to conduct research on policies and practices for supporting creative industries development both locally and overseas.

Organisation Chart of the Office of the Government Chief Information Officer after the Merger in 2004

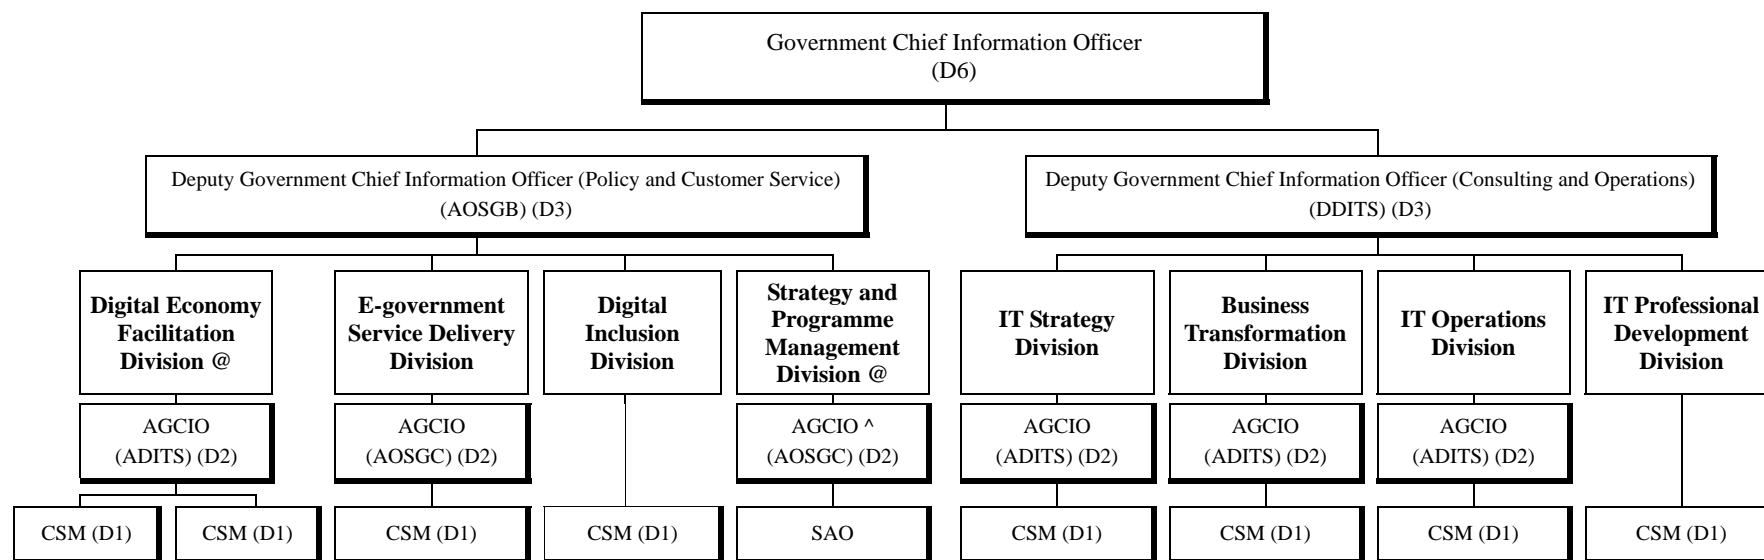

Legend:

- ADITS – Assistant Director of Information Technology Services
- AGCIO – Assistant Government Chief Information Officer
- AO – Administrative Officer
- AOSG – Administrative Officer Staff Grade
- CMSO – Chief Management Services Officer
- Non-directorate posts

- CSM – Chief Systems Manager
- DDITS – Deputy Director of Information Technology Services
- DGCIO – Deputy Government Chief Information Officer
- IT – Information Technology
- SAO – Senior Administrative Officer
- SSM – Senior Systems Manager

Existing Organisation Chart of the Office of the Government Chief Information Officer

- Facilitate development of eCommerce infrastructure, standards and practices
- Facilitate development of IT industry
- Facilitate development of the Hong Kong Computer Emergency Response Team Coordination Centre, HongKong Post Certification Authority and Cyberport
- Facilitate development of Internet domain name administration in Hong Kong
- Facilitate development of paperless trading services in the Government
- Provide support services for the Government Electronic Trading Services
- Facilitate IT co-operation with Mainland and overseas countries
- Oversee the implementation of the Electronic Transactions Ordinance
- Administer the Certification Authority Registration Office
- Organise Hong Kong Information and Communications Technology (ICT) Awards
- Act as secretariat for the IT Industry Facilitation Task Force

- Oversee and administer the daily management of GovHK
