

Dear sir,

I am a local born HK citizen with a postgraduate degree in Business. I would like to let you know that I support the bill 「家庭暴力條例修訂」in the principal that it helps our society to protect family violence. However, it also draws my concern that the definition of family under the bill may include those partners of same sexuality. What is a family? FAMILY means Father And Mother I Love You. Who should be the father or mother if they are under same sex. I really don't know. Our society is already full of grey areas, injustice, unfairness, no right or wrong,...etc. Now, we are going to lose our very basic value-father and mother.

I appreciate that my voice could be heard.

thanks and regards,

Samuel Lee
