Extract from the Report of the Subcommittee on Review of the Comprehensive Social Security Assistance Scheme of the Panel on Welfare Services (LC Paper No. CB(2)871/07-08)

* * * * *

Recommendations of the Subcommittee

- 62. The Subcommittee recommends that the Administration should
 - (a) conduct a comprehensive review of the CSSA Scheme expeditiously, including the items which should be classified as basic needs for the purpose of inclusion in the CSSA standard rates, with a view to ensuring that the different standard CSSA rates are adequate to meet the essential needs of different categories of recipients, in particular children and elderly on CSSA;
 - (b) relax the DE arrangements under the CSSA Scheme;
 - (c) review the adjustment methodology and set up a committee (comprising members from the community, academics and CSSA recipients) to examine the establishment of a new mechanism for determining CSSA rates so as to ensure that the rates would be adequate to meet the needs of CSSA recipients;
 - (d) make adjustment to the CSSA standard payment rates ahead of the annual adjustment cycle at times of high inflation according to the latest month of SSAIP:
 - (e) relax the residence requirement for applying for CSSA. Most members also suggest that the Administration should consider removing the seven-year residence requirement;
 - (f) conduct a review of the operation of the discretionary mechanism in respect of the residence requirement;
 - (g) review and relax the policy of requiring CSSA applicants, especially the elderly applicants, to apply for CSSA on a household basis; and
 - (h) allow CSSA recipients on dental grant to receive dental treatment and emergency dental services at the same designated dental clinics.
- 63. The Subcommittee also recommends that the Panel should follow up the above with the Administration.
