Bills Committee on Competition Bill

Legislative Council

1 Legislative Council Road, Central, Hong Kong

(By registered post)

Dear Sir/Madam,

Inhesion Industrial Co., Ltd is a SME and a company which established in 1979 and in the export trading sector.

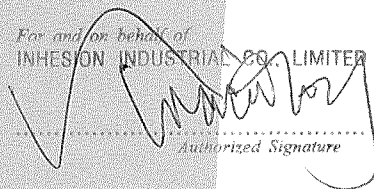

We are very support of the Competition Bill being proposed but we think there are several companies need to be examined due to their natural of functions such as Hong Kong Trade Development Council.

Hong Kong Trade Development Council is a "semi- government" organization who has a non-profit making nature and has a special function of promoting Hong Kong business and assisting the SME companies to explore the world market. We are assured that if HKTDC (Hong Kong Trade Development Council) is regulated by the New Law, it will greatly affected its service level and cost and more importantly will forced to lost its objective as a promoter of Hong Kong business, create opportunity and services for SME companies. It will be forced to behave like a private enterprise who need to focus

on profit and lost. As a result, HKTDC will not able to focus on its social responsibilities and lost the primary philosophy and/or reason why HKTDC is being set up.

Therefore, we asked you to consider “semi – government” organizations such as HKTDC should be exempted from the Competition Bill.

Yours Truly,

For and on behalf of
INHESION INDUSTRIAL CO., LIMITED

Authorized Signature

Signed by Ms Tracie Tong on behalf of Mr. Aric Chang

Managing Director
