24 June 2010

Mr Daniel SIN
Secretary General of the Legislative Council Secretariat
Legislative Council Building
8 Jackson Road
Central
Hong Kong

Dear Mr. SIN,

Panel on Development

Follow-up on the meeting between Legislative Council Members and Kowloon City District Council Members on 28 January 2010

Proposed Environmentally Friendly Transport System at Kai Tak

Thank you for your letter of 1 June 2010 relating to us the concern of Members of LegCo and Kowloon City District Council (KCDC) on the proposed environmentally friendly transport system (EFTS) at Kai Tak. Our response to the suggestion of enhancing the transport connectivity of old districts in Kowloon City District is as follow -

The Government has commissioned consultants to study the feasibility of the proposed EFTS. The scope of the study covers the feasibility of extending the EFTS to adjoining districts with connections to the existing and proposed rail networks as far as possible. In order to have a better understanding of the public's views, the Civil Engineering Development Department and their consultants met with the KCDC members in February 2010 and listened to their views on the EFTS. The consultants are studying the views collected with an aim to enhance the connectivity between Kai Tak and the adjacent areas.

Yours sincerely,

(Robin H N LEE)
for Secretary for Development
