

**Panel on Environmental Affairs**

**Subcommittee on Combating Fly-tipping**

**List of follow-up actions arising from the discussion  
at the meeting on 17 May 2010**

- (1) To consider including in the basic conditions of works contracts the need for contractors to ensure that dump trucks leaving the sites are weighed and recorded in the chits for cross checking at public fills to avoid overloading and possible fly-tipping activities. To also review the propriety of the contingency allowance of 5% for overloading of dump trucks in consultation with the trades.
- (2) To consider setting a deadline for the mandatory introduction of the trip-ticket system to private construction projects, starting with large-scale projects.
