

Legislative Council Panel on Constitutional Affairs

**Provisional Recommendations on Delineation of Geographical
Constituencies in respect of the 2012 Legislative Council Election**

PURPOSE

This paper seeks Members' views on the provisional recommendations of the Electoral Affairs Commission ("EAC") on the delineation and the names of geographical constituencies ("GCs") for the 2012 Legislative Council ("LegCo") Election.

BACKGROUND

2. Under section 18 of the Electoral Affairs Commission Ordinance (Cap. 541) ("EACO"), the EAC is required to submit to the Chief Executive a report on the recommendations for the delineation of GCs and the names proposed for each constituency in relation to a LegCo general election not more than 36 months from the preceding general election. As the last general election of the LegCo was held on 7 September 2008, the EAC is required to submit the aforesaid report for the 2012 LegCo Election to the Chief Executive by 6 September 2011.

POPULATION FORECASTS

3. Section 20(6) of the EACO requires that the EAC shall endeavour to estimate the total population of Hong Kong or any proposed GC in the year in which a LegCo general election is to be held for the purpose of making recommendations on the delineation of GCs. An Ad Hoc Subgroup ("AHSG"), formed under the Working Group on Population Distribution Projections chaired by the Planning Department, took up the task of providing the EAC with the necessary population forecasts. Statistics of the latest official population (2009-based) released by the Census and Statistics Department have been used as the basis for projection in this demarcation exercise. The AHSG has produced a report which estimates that the total population of Hong Kong will be 7,180,700 as at 30 June 2012. The population forecasts in the report have been adopted for the delineation of GCs.

THE PROVISIONAL RECOMMENDATIONS

4. Based on the population forecasts mentioned in paragraph 3 above and following the statutory criteria stipulated in sections 18 and 19 of the LegCo Ordinance (LCO) (Cap 542) and section 20 of the EACO and the established working principles at Annex A, the EAC has drawn up the provisional recommendations on the boundaries and names of the GCs in respect of the 2012 LegCo Election.

5. The EAC recommends that the existing boundaries and the names of the five GCs should remain unchanged and that the 35 seats for GCs be allocated among the five GCs based on their respective projected population as at 30 June 2012. Having regard to section 20(1)(a) of the EACO which provides that the EAC shall ensure that the population in each proposed GC is as near as practicable to the resulting number¹, the EAC has adopted a two-step approach to allocate the 35 seats-

- (a) Step One: seats are allocated amongst the 5 constituencies by dividing the projected population of each GC by the population quota² and allocating seats according to the integer of the calculated number subject to the statutory limits³. Accordingly, 33 seats are first allocated to the 5 GCs; and
- (b) Step Two: As to the allocation of the remaining two seats, all six possible options for seat allocation have been worked out as shown in page 3 of the booklet entitled '2012 LegCo Election Lists of the Provisional Recommendations on GC Areas', which is included in the public consultation document on the EAC's provisional recommendations (Copy at Annex B). After considering the six options, the one with the smallest range of percentage deviation of the population from the resulting number in the individual GCs (i.e. Option C) is adopted.

6. The number of seats proposed to be allocated to each GC in accordance with the aforesaid method is as follows-

¹ The resulting number is obtained by multiplying the number of seats allocated to the GC and the population quota.

² The population quota is arrived at by dividing the total projected population of Hong Kong by the total number of seats for all GCs (i.e. $7,180,700 \div 35 = 205,163$).

³ According to section 19 of the LCO, the number of Members to be returned for each GC must not be less than 5 nor greater than 9.

Proposed Name and Code of GC	Population	Seats allocated in Step-One	Seats allocated in Step-Two	Proposed Number of Seats
Hong Kong Island (LC 1)	1,295,800	6	1	7
Kowloon West (LC 2)	1,081,700	5	0	5
Kowloon East (LC 3)	1,062,800	5	0	5
New Territories West (LC 4)	2,045,500	9	0	9
New Territories East (LC 5)	1,694,900	8	1	9
Total:	7,180,700	33	2	35

7. The recommendations of the EAC fulfill all the relevant statutory criteria and established working principles. The booklet entitled ‘2012 LegCo Election Lists of the Provisional Recommendations on GC Areas’ (at **Annex B**) sets out the details of the seat allocation process.

8. As for the maps showing the delineation of the GCs, please refer to the whole set of the public consultation document which has been distributed to Members earlier.

PUBLIC CONSULTATION

9. Pursuant to section 19 of the EACO, the EAC shall consult the public on the provisional recommendations for a period of not less than 30 days. The public consultation period for this provisional recommendations runs from 23 June 2011 to 22 July 2011 (both dates inclusive).

10. During the consultation period, members of the public are welcome to give their views to the EAC in writing. A public forum was also held on 4 July 2011 for members of the public to put forth their views to the EAC orally.

11. The EAC will take into account the views received during the public consultation period in finalising the recommendations.

ADVICE SOUGHT

12. Members are invited to note and comment on the EAC's provisional recommendations. Members may also forward their views to the EAC Secretariat by post (at 10/F Harbour Centre, 25 Harbour Road, Wan Chai, Hong Kong), by fax (fax no.: 2511 1682) or by e-mail (eacnq@reo.gov.hk), before 22 July 2011.

**Delineation of GCs
for the 2012 LegCo Election**

(I) Statutory Criteria

Criteria stipulated under the LCO

- (a) there are to be 5 GCs for the purpose of returning Members at elections for those constituencies (section 18(1));
- (b) at a general election, 35 Members are to be returned for all GCs (section 19(1)); and
- (c) the number of Members to be returned for each GC is to be a number, not less than 5 nor greater than 9 (section 19(2)).

Criteria stipulated under the EACO

- (a) the EAC shall ensure that the extent of each proposed GC is such that the population in that constituency is as near as practicable to the number which results (i.e. “the resulting number”) when the population quota is multiplied by the number of members to be returned to the Legislative Council by that GC pursuant to any electoral law (section 20(1)(a));
(Note: The population quota is defined in section 17(1) of the EACO as the total population of Hong Kong divided by the total number of members to be returned for all the GCs in that election, i.e. $7,180,700 \div 35 = 205,163$. The total population of Hong Kong is projected as at 30 June 2012);
- (b) where it is not practicable to comply with section 20(1)(a) in respect of a proposed GC, the EAC shall ensure that the extent of the constituency is such that the population in that constituency does not exceed or fall short of the resulting number applicable to that constituency, by more than 15% (section 20(1)(b));
- (c) the EAC shall have regard to the community identities, the preservation

- of local ties and physical features such as size, shape, accessibility and development of the relevant area or any part thereof (section 20(3));
- (d) the EAC may depart from the strict application of section 20(1)(a) and (b) only where it appears that one or more of the considerations in section 20(3) renders a departure necessary or desirable (section 20(5));
 - (e) the EAC shall ensure that each proposed GC is to be constituted by two or more contiguous whole District Council constituencies (section 20(2)); and
 - (f) the EAC shall have regard to the existing boundaries of Districts and existing boundaries of GCs (section 20(4)).

(II) Working Principles

- (a) the boundaries of the existing 5 GCs should form the basis of consideration in the current demarcation exercise;
- (b) for those existing GCs where the population falls within the permissible range of the population quota requirement, their boundaries would be adopted as far as possible to form new GCs;
- (c) Hong Kong Island, Kowloon and the New Territories are to be treated separately, as these areas have been regarded as distinct from one another;
- (d) splitting of Districts by District Council Constituency Areas should be avoided unless there are very strong reasons. Where splitting is necessary, it should affect the least number of Districts; and
- (e) factors with political implications will not be taken into consideration.

二零一二年立法會選舉

地方選區範圍之

臨時建議概要

2012 Legislative Council Election

Lists of the Provisional Recommendations

on Geographical Constituency Areas

按照現有的地方選區分界作暫定的議席分配

選管會建議沿用 5 個現有地方選區的分界為地方選區分配 35 個議席。為符合要確保各建議中的地方選區的範圍須使其人口在切實可行的範圍內，盡量接近所得數目的法定準則，如在第 2 頁載列的圖表所示，5 個地方選區獲分配的議席數目是以每個地方選區人口的預測數字除以標準人口基數(此基數是以預測香港人口總數除以議席的總數而得到，即將 $7,180,700 \div 35 = 205,163$)後，再取計算出的數字的整數及按法例的議席數目上下限調整而得到。根據上述方法共分配 33 個議席。在分配餘下的 2 個議席時，所有可能的分配方案已被列出 (如在第 2 頁載列的圖表的註 2 所示)，達至地方選區的人口與其相應所得數目偏差百分比的幅度最小的方案會被採納。以選管會所建議，按現有的 5 個地方選區分界及上述方法為地方選區分配 35 個議席，符合所有有關的法定準則及既定工作原則。

Proposed allocation of seats based on existing boundaries of Geographical Constituencies (GC)

The EAC recommends that the existing boundaries of the 5 GCs should be maintained and that the 35 seats be allocated among these GCs. In order to meet the statutory requirement of ensuring that the extent of each proposed GC is such that the population in that constituency is as near as practicable to the resulting number, seats are allocated amongst the 5 GCs, as shown in the table in page 2, by dividing the projected population of each GC by the population quota (which is arrived at by dividing the total projected population by the total number of seats, i.e. $7,180,700 \div 35 \text{ seats} = 205,163$) and allocating seats according to the integer of the calculated number subject to the statutory limits. 33 seats are allocated under the aforesaid method. In allocating the two remaining seats, all possible options for seat allocation are worked out (as shown in note 2 of the table in page 2) and the option with the smallest range of percentage deviation of the population from the resulting number in the individual GCs would be adopted. By maintaining the existing boundaries of the 5 GCs and allocating the 35 seats amongst them as recommended by the EAC, all the relevant statutory criteria and established working principles are fulfilled.

註 Note:

- 根據《立法會條例》(第 542 章)第 19(2)條，每個地方選區須選出的議員人數不得少於 5 名，亦不得多於 9 名。
In accordance with section 19(2) of the Legislative Council Ordinance (Cap 542), the number of Members to be returned for each GC is to be a number not less than 5 nor greater than 9.
- 由於新界西已獲分配法例規定的一個地方選區可得的議席數目的上限，餘下兩個議席只可分配予其他的 4 個地方選區。分配方案共有六個。
As New Territories West has been allocated the maximum number of seats for a GC under the law, the two remaining seats can only be allocated to other four GCs. There are six options for the allocation.

方案 Option Proposed GCs and codes	A	B	C	D	E	F
香港島 HONG KONG ISLAND (LC 1)	[6]+(1) {-9.77%}	[6]+(1) {-9.77%}	[6]+(1) {-9.77%}	[6] {+5.27%}	[6] {+5.27%}	[6] {+5.27%}

上述六種方案，方案 C 所得的個別地方選區人口與其所得數目偏差百分比的幅度最小(即是將不同地方選區的每位議員所代表的人口的差距減至最少)，因此香港島及新界東獲分配餘下的兩個議席。

Among the six options, Option C has the smallest range of percentage deviation of the population from the resulting number in the individual GCs (i.e. the variations among different GCs in terms of the number of persons represented by each Member in the GCs would be reduced to a minimum). Hence, the remaining seats should be allocated to Hong Kong Island and New Territories East.

[] 應得議席數目 number of entitled seats

() 獲分配的餘下議席數目 number of remaining seat to be allocated

{ } 地方選區的人口與其所得數目偏差百分比 percentage deviation of the population from the resulting number

- “所得數目”是將該地方選區獲分配的議席數目乘以標準人口基數(即 205,163)計算出來。
Resulting number is obtained by multiplying the number of seats allocated to the GC and the population quota (i.e. 205,163).
