# Thinking Out of The Box

STUDENTS - How Do They Learn?

Are They Interpersonal, Logical,

Artistic, Numerical or Musical Learners?

Yes, But Mostly

They Are **DIGITAL LEARNERS!!**

How Much Versatility Does Our Curriculum Provide?

Do Our Children Comprehend? Examine? And Create?

Are we Reaching our children?

Are We Engaging Them?

Why not use the Technology that Our Children Love

& Create More Effectively,

Communicate More Effectively,

Capture More Effectively

& Most of All, *Teach* More Effectively?

Do We Know How to Use the WWW to Teach Our Next Generation?

Whatever

Whenever

Wherever

Think of the Ways We Can Use the Internet – Blogs, Face Book, Online Learning, Webcams, GPS..

To Teach - Writing, Reading, Listening & Speaking...

Since Our Children are all **Cyber Kids**

Why Are We Still Using **Analog Methods?**

Think of The Ways We Can Use the E-Platform to Teach –

Phonetic, Sonnets, Shakespeare, Debating,  $E=MC^2$  or Neuro Anatomy...

In Every Subject Imaginable, Even Tapestry!

We Need **A HUB** to Bring our Children, Teachers & Parents Together, And GROW Together.

**The HUB Is The Answer!!**

In Conclusion, Hopefully You're Seeing The Points-

How Do we Make Our Digital Kids Listen?

**Speak Their Language**

**Step Into Their Shoes**

**Share Their Experience**

**IT IS TIME TO CHANGE!!**
