Dear Ms Mak,

**Legislative Council Panel on Transport
Meeting on 2 June 2011**

**Provision of barrier-free access facilities
at public footbridges, elevated walkway and subways**

At the captioned meeting of the Legislative Council Panel on Transport, we briefed members on the Administration's proposal to provide barrier-free access facilities at public footbridges, elevated walkways and subways, and our plan to submit the funding application concerned to the Public Works Subcommittee and the Finance Committee. At the meeting, Members requested the Administration to provide supplementary information on the following :

- (a) the 19 facilities for which detailed design of the retrofitting works will be conducted in the initial batch;
- (b) the other facilities for which the detailed design work will be conducted after the technical feasibility for the retrofitting works is confirmed; and
- (c) the facilities for which retrofitting works have been confirmed not feasible after investigation (sorted according to the reasons why the works are not feasible, as per the request of Members).

The requested information is now set out at Annex for Members' information.

Yours sincerely,

(Apollonia LIU)
for Secretary for Transport and Housing

Encl.
