11 August 2011

Dear Madam,

**Panel on Transport
Subcommittee on Matters Relating to Railways**

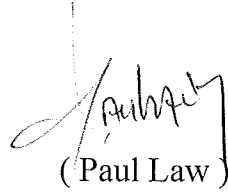

Motion passed at the meeting on 6 May 2011

The Administration would like to respond to the motion concerning the MTR Corporation Limited (MTRCL)'s design for its railway ventilation facilities passed in the Legislative Council Subcommittee on Matters Relating to Railways meeting on 6 May 2011.

2. We and the MTRCL understand the concerns of members of the Subcommittee and the public over the impact of railway ventilation facilities. Despite the design requirements and constraints, the MTRCL has consulted and will continue to consult the community on the location of ventilation facilities of new railway projects and try to locate them away from residential buildings and community facilities as far as technically feasible.

3. We would be grateful if you could relay the above response to members of the Subcommittee on Matters Relating to Railways for information.

Yours faithfully,

(Paul Law)

for Secretary for Transport and Housing
