Intro my self	
	Barry Chin, CSU, I am a lawyer
I support the change	
	I declare my interest
	I am a lawyer, I gain no interest, just want to be impartially comment something
	I gave time to Mr. Tsang, even now I very disappointed
	I also must give CY time. Now have not yet start, why don't I support him
	because this is just a small change
	because I dissatisfy the existing gvnt.
	Before 0325, I said to many of my friends, poor-rich gap (poor living standard) , if next term, I will gain more
	I was looking for a leader can balance (poor-rich gap) the society further, I dissatisfy the existing gvnt.
	I support CY's most of the changes, 1) I see the reason of the change
	1. Technology & Communications to a higher level (give them a voice)
	-- Tung's time, Tsang's time, CY's time
	2. Housing (pay more attention), I can hear CY gave many promise
	Such small change, how can you detect the change coming?
	4 Deputies, not a big deal, 73 m\$
	Those opposition just say (waste money, create layers, lack of communications). Those are too superficial)
	May be those complainants only don't know what is management, they think the reality is that simple.
	Those are Management 101 (*but can making noise to the public), only impress those w/o management experience (for 21Y, BA, simple theory)
1	MBA, case study, no answer (when graduate, I found no answer, just can show off my knowledge)
2	Ph.D., more advance theory, may not work in real life
3	Experience, invisible hand, irresional human behaviour (like we are blocking by some people in HK.
	Therefore, the more you know the less you say, bcs we human don't know the phernamina
	So, what they complaining, just lousy. We should not pay any attention to them

Those make complaint, may have the believe that	
1	Claiming, if they are the boss, they will have a perfect structure, change I agree, If I were the CY, many of the staff will leave
2	but what they say is the previous structure should not be changed Expect just change CY, the whole group intact, will change HK
3	It is very funny
4	why they are so funny, because, they don't have an inconsistent & honest believe
Without my involvement	
	Just give a simple comment, it is a bad one
1	Therefore, I can only give suggestion, in a constructive way
2	Just to criticize, said, the one before is better (disapprove, retreat what I have said), but without give good solution (but doing a show to voters) it is just a noise maker, do no good to the society
3	Tung Chi work hard (opposite party wish to turn over the existing gvnt) I feel is coming to a stage of riot, political assassination I think the majority of our people not support this ideas (only small number of people in HK) if majority of people not support, use force to oppress the riot, why not
	Management theory just an art (provide we act rationally)
	Just complaint on a management system, without a good solution (disapprove, retreat what I have said), what is the rationale
	Even you have a good suggestion
	Even you bargain on the system (they believe, the system is the major key) But they are manipulate human force
	in other words, change or no change, is not the system
	Next year, complaint the same thing again
	Just emotional hatred
