Subject Fw: Objection on Cross-boundary Private Cars Trial Scheme

**Danny Lee**

24/02/2012 01:14

Dear Sir / Madam,

I am writing to raise my concern on the captioned initiative. I sincerely wish that your committee can object the trail scheme. The main reasons of my concern are as follows:

- I believe that allowing HK car driving to mainland would have trade off with allowing Mainland driving to HK. However, there is no public consultation at all on such high impact policy.
- Given government's policy keep discouraging private car usage in HK, it is illogical to encourage mainland car driving to HK.
- The poor driving attitude of mainland driver is very likely to put HK citizens in danger.
- Mainland car is likely to bring gasoline from Mainland's gas. The quality of such gasoline is far below HK standard and deteriorate air pollution in HK, especially in central business area of HK.

Once again, as a responsible representative of HK citizens, please kindly reflect our concern to the government and stop putting HK environment and safety to the point of no return.

Regards,  
Lee Yuk Ming
