Provision of Barrier Free Access Facilities to Schools

Purpose

This paper informs Members on the provision of barrier free access facilities for persons with disabilities in public sector schools.

Provision of lifts at schools

2. It is Government's policy to create a barrier-free physical environment for persons with disabilities to facilitate their access to building and use of facilities, thereby enabling them to integrate into society. To this end, all new Government buildings (including public sector schools) will meet the mandatory requirements as set out in the Design Manual on Barrier Free Access promulgated by the Buildings Department, and wherever practicable, achieve a standard beyond the statutory requirements. In this regard, all 223 new schools constructed after 1997 provide lifts in compliance with the prevailing Design Manual. For schools built before 1997, lifts were provided to 640 schools which did not have lifts, through the second and later phases of the School Improvement Programme.

3. Today there are 140 public sector schools which for technical or other reasons, do not have lifts, including 6 schools housed in single storey premises which do not require lifts. We will complete installation of lifts for 9 schools under the annual major repairs programme from 2013 to 2015. In addition, another 6 schools will have lifts upon completion of works on their redevelopment, reprovisioning or extension of school premises from 2012 to 2017. The remaining 119 schools may apply for improvement works for provision of lifts under the annual major repairs programme, subject to availability of funding and assessment on technical feasibility. The list of schools is given in the

Appendix. We would continue to explore the feasibility upon receipt of such applications and process their requests in accordance with established criteria, such as technical feasibility, urgency of their need for lifts, availability of alternative measures to solve the inaccessibility problem and availability of funding. As a standing practice, around five schools were provided with lifts in each financial year.
