Subject: West Kowloon Legco P&P inquiry involving C.Y.Leung To whom it may concern.
History: ➤ This message has been forwarded.

I find it interesting legco select committee panel members including Chinese media reported the meeting yesterday, the facts are before you by reference to the following statement. Wonder those involved ever read through these documents in English to make comments ?

Statement by Mr. Eric Andrew Johnson, competition co-ordinator.

37. I cannot recall what exactly was Mr. Tsang said at the time, but he treated the matter as serious and if I recall correctly, tried to reach Mr. Leung by phone---
39. Ten years on, I cannot recall exactly what was said in the meeting
43. I cannot recall I informed the S for P & L---

There are at least three times Johnson cannot recall what exactly he said as a full time co-ordinator of HKSARG.
