**Subject:** Objection to BSD and SDD

---

Dear Sir,

I strongly object to the BSD and SSD and I hope that Legco votes against the measures. My family have lived in Hk for 64 years and we agree that we have never seen a Government policy that undermines the free market principles at the very core of this city. If you undermine the business community here, then all you are left with is a barren rock. No one benefits from these ill conceived measures. I hope that Legco has the foresight to vote against the bill, which is unconstitutional to say the least.

These measures will only benefit people those who own their properties through holding companies, like many of the Senior Government officials.

I hope that this objection will not fall on deaf ears, nor be dismissed as an outsider's views. I believe that three generations of service to build HK to where it is, allows me this voice.

Regards

Nigel Sayer
