

ITEM FOR PUBLIC WORKS SUBCOMMITTEE OF FINANCE COMMITTEE

CAPITAL WORKS RESERVE FUND

HEAD 701 – LAND ACQUISITION

HEAD 702 – PORT AND AIRPORT DEVELOPMENT

HEAD 703 – BUILDINGS

HEAD 704 – DRAINAGE

HEAD 705 – CIVIL ENGINEERING

HEAD 706 – HIGHWAYS

HEAD 707 – NEW TOWNS AND URBAN AREA DEVELOPMENT

HEAD 708 (PART) – CAPITAL SUBVENTIONS

HEAD 709 – WATERWORKS

HEAD 710 – COMPUTERISATION

HEAD 711 – HOUSING

Block allocations

Members are invited to recommend to Finance
Committee (FC) –

- (a) the approval of a total allocation of \$12,391.8 million for 2013-14 for the existing block allocations and proposed block allocation **Subhead 6101TX** under 11 Heads of Expenditure in the Capital Works Reserve Fund (CWRF);

/(b)

- (b) with immediate effect, the creation of a new block allocation **Subhead 6101TX** under **Head 706** for implementation of the Universal Accessibility Programme, subject to a financial ceiling of \$75 million for each Category D item, and the approval of \$2.449 million for 2012-13 for the subhead as set out in paragraph 8 below; and
- (c) with effect from 2013-14, the revision to the ambit of **Subhead 8001SX** under **Head 708** as set out in paragraphs 9 and 10 below.

I. PROPOSED PROVISION FOR 2013-14

PROPOSAL

We propose a total allocation of \$12,391.8 million for the block allocations under the following CWRP Heads of Expenditure for 2013-14 –

Head	Description	2013-14 proposed allocation (\$ million)
701	Land Acquisition	3,366.5
702	Port and Airport Development	0.0
703	Buildings	2,793.5
704	Drainage	232.5

/Head

Head	Description	2013-14 proposed allocation (\$ million)
705	Civil Engineering	1,194.4
706	Highways	827.3 ¹
707	New Towns and Urban Area Development	564.6
708 (part)	Capital Subventions	1,804.8
709	Waterworks	679.0
710	Computerisation	890.0
711	Housing	39.2
Total:		12,391.8

Subject to approval of FC, we would include the provisions in the CWRP Draft Estimates for 2013-14.

JUSTIFICATION

2. Unless otherwise approved, expenditure items under the CWRP must generally be approved by the FC on a project-by-project basis in accordance with the terms of the Resolution made by the Legislative Council (LegCo) in establishing the CWRP. To enable Members of FC and Public Works Subcommittee (PWSC) to make better use of their time and concentrate on the more important and higher value projects, FC has authorised the Administration to seek funding for the CWRP block allocations on a lump-sum basis once every year. Within the lump-sum approved for each CWRP block allocation, FC has further delegated to the Administration the power to approve expenditure on individual projects subject to the respective financial ceiling.

/3.

¹ At present, **Subhead 6100TX** is the only block allocation under **Head 706**. Subject to FC's approval for the creation of the proposed **Subhead 6101TX**, we propose an allocation of \$187.3 million for the new Subhead for 2013-14 (please see paragraph 8 below). Together with the proposed allocation of \$640 million for **Subhead 6100TX** for 2013-14, the proposed allocation for the two Subheads under **Head 706** is \$827.3 million for 2013-14.

3. Block allocations underpin the delivery of capital works projects in two main ways. First, they provide funds for works departments to establish the technical feasibility and prepare the detailed design/tender documents of major capital works projects prior to seeking FC/PWSC's funding approval for the construction works. Second, they enable works departments to carry out standalone minor improvement items of a smaller scale or at district level (e.g. minor building works for schools and public facilities, local roadworks and drainage improvements) in a more efficient manner.

OVERVIEW OF THE PROPOSED ALLOCATIONS

4. The proposed allocation for CWRP block allocations for 2013-14 totals \$12,391.8 million. This represents an overall increase of 7.5% against the approved allocation in 2012-13 as set out below –

Head	Description	CWRP block allocations		Percentage change (%)
		2012-13 approved allocation (\$ million)	2013-14 proposed allocation (\$ million)	
701	Land Acquisition	2,632.4	3,366.5	+ 27.9
702	Port and Airport Development	0.0	0.0	–
703	Buildings	2,916.2	2,793.5	– 4.2
704	Drainage	256.0	232.5	– 9.2
705	Civil Engineering	1,247.7	1,194.4	– 4.3
706	Highways	686.4 ²	827.3 ³	+ 20.5
707	New Towns and Urban Area Development	495.3	564.6	+ 14.0
708 (part)	Capital Subventions	1,731.3 ⁴	1,804.8	+ 4.2

/Head

² Subject to FC's approval for the creation of the new block allocation **Subhead 6101TX** and an allocation of \$2.449 million for 2012-13 for the Subhead (please see paragraph 8 below), the total approved allocation for 2012-13 for the two block allocations under **Head 706** would increase from \$684 million to \$686.449 million.

³ Please refer to footnote 1 above.

⁴ The Administration increased the 2012-13 approved allocation of **Subhead 8100MX** by \$14.5 million from \$661 million to \$675.5 million under delegated authority in November 2012 to meet the increased expenditure. The total approved allocation for 2012-13 for block votes under **Head 708** is therefore increased from \$1,716.8 million to \$1,731.3 million.

Head	Description	CWRP block allocations		Percentage change (%)
		2012-13 approved allocation (\$ million)	2013-14 proposed allocation (\$ million)	
709	Waterworks	679.0	679.0	–
710	Computerisation	860.0	890.0	+ 3.5
711	Housing	24.8	39.2	+ 58.1
	Total	11,529.1	12,391.8	+ 7.5
	Total for works-related block allocations (i.e. excluding those under Heads 701 and 710)	8,036.7	8,135.3	+ 1.2

5. In drawing up the funding requirements for 2013-14, we have taken into account past expenditure patterns, existing commitments and projects expected to be undertaken in the coming financial year under each of the subheads. Balancing the need for fiscal prudence with the need to sustain the momentum of minor works items and preparatory work for major projects, we consider the proposed total allocation for the works-related block allocations appropriate. The Government will expedite the progress of existing minor works items and identify new minor works items for implementation. If supplementary provisions are required, we will seek FC/PWSC's approval as appropriate.

WORKS-RELATED BLOCK ALLOCATIONS

6. The following top five key expenditure subheads will take up around 61.6% of the total allocation for works-related block allocations for 2013-14 –

Subhead	2013-14 proposed allocation (\$ million)
(a) 3004GX – Refurbishment for government buildings (including public facilities with leisure, cultural services and environmental hygiene elements such as parks and public toilets)	1,782.0
(b) 5001BX – Landslip preventive measures	979.9

/Subhead

Subhead	2013-14 proposed allocation (\$ million)
(c) 3101GX – Minor building works (mainly to construct new public facilities of relatively minor scale, whereas 3004GX in (a) above is to fund refurbishment/renovation of existing facilities)	912.1
(d) 9100WX – Waterworks, studies and investigations	679.0
(e) 8100MX – Hospital Authority – improvement works, feasibility studies, investigations and pre-contract consultancy services for building projects	661.1
Total for top five key expenditure subheads	<hr/> 5,014.1 <hr/>

BLOCK ALLOCATIONS BY HEADS OF EXPENDITURE

7. Details on the funding sought for the existing and proposed new CWRP block allocations for 2013-14 are set out in Enclosures 1 to 11. We have highlighted in each Enclosure –

- (a) a comparison of the proposed allocation for 2013-14 against the 2012-13 approved allocation;
- (b) the main reasons for major variations (i.e. with variations greater than 15%); and
- (c) the key on-going expenditure items and new items in 2013-14.

We have deposited with the LegCo Secretariat a full list of all the items proposed to be funded under each of these block allocations for 2013-14. The list is prepared based on information currently available to departments and subvented bodies. Adjustment may be made to the list during the course of the year to cater for changing circumstances or evolving needs.

/II.

II. CREATION OF NEW BLOCK ALLOCATION FOR UNIVERSAL ACCESSIBILITY PROGRAMME

PROPOSAL

8. We propose to create, with immediate effect and subject to FC's approval, a new block allocation **Subhead 6101TX** under **Head 706** for implementation of Universal Accessibility (UA) Programme. We also propose to allocate \$2.449 million in 2012-13 and \$187.272 million in 2013-14 for the Subhead to implement projects under the UA Programme. The Controlling Officer of the proposed block allocation will be the Director of Highways. The details are as follows –

Proposed subhead	Proposed ambit
6101TX – Universal Accessibility Programme	For projects costing up to \$75 million each to provide universal accessibility facilities ⁵ to existing public walkways ⁶ to improve the accessibility for the public. It covers various costs to be incurred in the planning, design and construction of the projects, including consultants' fees and charges for project management, feasibility studies, investigation, design, contract procurement and construction supervision, as well as the construction cost.

Details on the funding sought for the proposed **Subhead 6101TX** for 2013-14 are provided at Annex 6B, and the justifications for the creation of the new Subhead are provided at Annex 6C.

/III.

⁵ Refer to the retrofitting of lifts or ramps, demolition of existing ramps and associated works.

⁶ Refer to footbridges, elevated walkways and subways.

III. REVISIONS TO THE AMBIT OF SUBHEAD 8001SX

PROPOSAL

9. We propose to amend the ambit of **Subhead 8001SX – Provisioning of welfare facilities** under **Head 708** as follows –

Original ambit: For provisioning of welfare facilities in Housing Authority's (HA's) Public Housing Estate Development, including reprovisioning of welfare facilities affected by HA's Comprehensive Redevelopment Programme (CRP), subject to a ceiling of \$30 million for each project.

Proposed revised ambit: For provisioning of welfare facilities in HA's Public Housing Estate Development, subject to a ceiling of \$30 million for each project.

JUSTIFICATION

10. The present ambit of **Subhead 8001SX** is to provide capital funding for the provisioning of welfare facilities in HA's public housing estate development, including reprovisioning of welfare facilities affected by HA's CRP whereby welfare facilities in a public housing estate which had been identified for redevelopment under the CRP were reprovisioned within the same estate after redevelopment or to another estate. With the completion of these reprovisioning of welfare facilities projects under the CRP as well as finalisation of project accounts in 2012-13, we propose to revise the ambit of **Subhead 8001SX** by removing the reference to CRP with effect from 2013-14, so as to reflect the future status of the subhead ambit. Under the proposed revised ambit, **Subhead 8001SX** will continue to cover both provisioning and reprovisioning of welfare facilities in HA's public housing development in general.

FINANCIAL IMPLICATIONS

11. The total proposed allocation for all the block allocations under the CWRP for 2013-14 is \$12,391.8 million.

/PUBLIC.....

PUBLIC CONSULTATION

12. The Office of the Government Chief Information Officer (OGCIO) consulted the LegCo Panel on Information Technology and Broadcasting (ITB Panel) on the proposed allocation for the only block vote under **Head 710 – Computerisation** on 12 November 2012. ITB Panel Members had no objection to the funding proposal. Some Members sought further information regarding the breakdown of the increase in the proposed allocation of \$30 million. OGCIO provided the supplementary information to ITB Panel on 21 November 2012.

13. The Transport and Housing Bureau (THB) consulted the LegCo Panel on Transport on 16 November 2012 on the proposed creation of the new block allocation **Subhead 6101TX** under **Head 706 – Highways** for implementation of Universal Accessibility Programme. Members were generally supportive of the proposal. Some Members asked for further information concerning the locations of the projects proposed by the public. THB will follow up.

14. We consulted the LegCo Panel on Development on the funding proposals on 27 November 2012. Members were generally supportive of the proposal.

BACKGROUND INFORMATION

15. Over the years, FC has approved the establishment of block allocations under the CWRP on various types of public works projects, acquisition of land, capital subventions and computerisation projects. At present, there are a total of 24 block allocations under the CWRP, of which 20 are subject to a financial ceiling of \$30 million in spending on each item. Subject to FC's approval for the creation of **Subhead 6101TX**, the number of block allocations will increase to 25, with **Subhead 6101TX** being subject to a financial ceiling of \$75 million for each item. In the case of **Subhead A007GX – New administrative computer systems** under **Head 710 – Computerisation**, the financial ceiling is \$10 million per project. Projects exceeding the above ceilings in cost are submitted to FC for funding approval on a project basis.

/16.

16. As for the three remaining block allocations – **Subheads 1004CA – Compensation for surrenders and resumptions: miscellaneous** and **1100CA – Compensation and ex-gratia allowances in respect of projects in the Public Works Programme** under **Head 701 – Land Acquisition**, and **Subhead 5001BX – Landslip preventive measures** under **Head 705 – Civil Engineering**, FC has delegated the authority to the relevant controlling officers to approve individual items without a financial limit, provided the spending is a proper charge to the subheads and the aggregate expenditure does not exceed the annual allocation approved by FC.

17. As in past years, we include in this submission the proposed allocations for the block allocations under **Head 701 – Land Acquisition** and **Head 710 – Computerisation**, which are non-works items providing funds for land acquisition and computerisation projects under the CWRP for approval by the FC via PWSC in a single exercise.

18. We estimate that the proposed allocation of \$8,135.3 million for works-related block allocations in 2013-14 will create about 10 930 jobs (10 270 for labourers and another 660 for professional/technical staff) providing a total employment of 131 160 man-months.

Financial Services and the Treasury Bureau

**Proposed Allocation in 2013-14 for the Block Allocations under
Head 701 – Land Acquisition**

There are two block allocations under **Head 701**, namely, **Subheads 1004CA** and **1100CA**. The proposed allocation for 2013-14 is \$3,366.5 million. This represents a 27.9% increase from the approved allocation of \$2,632.4 million for 2012-13.

2. The proposed decrease in allocation for **Subhead 1004CA** (by \$14 million from \$31.5 million in 2012-13 to \$17.5 million in 2013-14) is mainly due to lower cashflow requirement of an on-going project (i.e. item 3 of Part I at Annex 1A).

3. The proposed increase in allocation for **Subhead 1100CA** (by \$748.1 million from \$2,600.9 million in 2012-13 to \$3,349 million in 2013-14) is mainly due to higher cashflow requirements resulting from the implementation of a number of on-going and new major projects (i.e. Part II at Annex 1B).

4. Details on the key expenditure items for each of the above subheads are set out at **Annexes 1A** and **1B**.

**Capital Works Reserve Fund
Head 701 Subhead 1004CA**

Compensation for surrenders and resumptions: miscellaneous

Ambit : Payment of compensation (including *ex-gratia* allowances) for the acquisition, surrender and clearance of all land and property reverting to the Government, including the costs of resuming and clearing sites in connection with the implementation of statutory outline zoning plans; for projects to be undertaken by non-government or quasi-government bodies, including the Hong Kong Housing Society and the Hong Kong Housing Authority; and for projects undertaken under the Foreshore and Sea-bed (Reclamations) Ordinance and not covered by any other funding arrangements.

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation

About 130 other on-going and new items with expected expenditure in 2013-14	327,486

Total of Parts I to III : 3,349,000

Head 702 – Port and Airport Development

We are not seeking any funding for the three subheads under **Head 702** for 2013-14 –

- (a) **Subhead 2001AX** – Consultants’ fees for feasibility investigations and design and major in-house investigations for Port and Airport Development Strategy (PADS) related civil engineering projects;
- (b) **Subhead 2002AX** – Consultants’ fees for feasibility investigations and design and major in-house investigations for PADS related transport projects; and
- (c) **Subhead 2003AX** – Consultants’ fees for feasibility investigations and design and major in-house investigations for PADS related territorial development projects.

**Proposed Allocation in 2013-14 for the Block Allocations under
Head 703 – Buildings**

There are three block allocations under **Head 703**, namely, **Subheads 3004GX, 3100GX and 3101GX**. The proposed allocation for 2013-14 is \$2,793.5 million. This represents a 4.2% decrease from the approved allocation of \$2,916.2 million for 2012-13.

2. Details on the key expenditure items for each of the above subheads are set out at **Annexes 3A to 3C**.

Minor building works

for items in Category D of the Public Works Programme

Ambit : Minor building works, fitting out works and minor alterations, additions and improvement works including furniture and equipment replacement incidental to such works, and slope inspections and minor slope improvement works, subject to a maximum ceiling of expenditure of not more than \$30 million per item.

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation
Director of Architectural Services	836,437	912,147	+ 9.1%

Part I : On-going key items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Construction of waterfront promenade at Hoi Yu Street, Quarry Bay	19,500	4,500
2. Construction of a Marine Park Visitor Centre with coach loading area at Hoi Ha	19,000	9,000
3. Construction of new e-Channels at Lok Ma Chau Control Point	19,000	6,000
4. Re provisioning of Lamma Police Post to Yung Shue Wan, Lamma Island	18,590	9,620
5. Landscaped and training area (site B) adjacent to Tuen Mun Children and Juvenile Home at Yeung Tsing Road, Area 31, Tuen Mun	18,090	12,000
6. Construction of a new private cars clearance building at Lok Ma Chau Control Point	17,900	5,000
7. Alteration and addition works for installation of replacement weather radar at Tate's Cairn Radar Station	17,000	12,000

Head 703 Subhead 3101GX – Continued

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
8. Upgrading of the security standard of main gate area at Siu Lam Psychiatric Centre	16,000	3,500
9. Demolition of Block B, ex-Kennedy Town Police Married Quarters	11,200	5,000
10. Construction of transformer and switch building for upgrading power supply Tai Lung Experimental Station, Sheung Shui	7,500	5,000

Part II : Proposed new items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Demolition of existing structures at the vacated Electrical and Mechanical Services Department Kowloon Bay Vehicle Servicing Station	13,500	3,000
2. Setting up a dispensary and in-situ reprovisioning of Elderly Health Centre at Tung Chung Health Centre	12,100	8,000
3. Setting up a dispensary and provision of essential power supply at Tang Chi Ngong Specialist Clinic	10,494	1,000
4. Setting up a Chinese Medicines Identification Unit at 2/F and 3/F (part), Public Health Laboratory Centre	9,031	160
5. Alteration and improvement of radio antenna tower at Tai Mo Shan as a back-up radio hub	8,000	500
6. Re-fitting out project for newspaper and article administration division of Office for Film, Newspaper and Article Administration	7,000	5,950
7. Construction of a public toilet at Lung Kwu Tan, Tuen Mun	6,900	500
8. Demolition of seawater pump house at Sheung Wan	5,500	5,500

Head 703 Subhead 3101GX – Continued

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
9. Boardwalk at High Island Geotrail at Hong Kong Global Geopark of China	4,000	3,400
10. Development of an open space with pet corner at Po Kong Village Road/Shung Wah Street sitting-out area in Wong Tai Sin District	4,000	800

Part III : Others

	Estimate 2013-14 \$'000
About 2 420 other on-going and new items with expected expenditure in 2013-14	811,717

Total of Parts I to III : 912,147

**Proposed Allocation in 2013-14 for the Block Allocation under
Head 704 – Drainage**

The provision sought for the only block allocation **Subhead 4100DX** under **Head 704** is \$232.5 million. This represents a 9.2% decrease from the approved allocation of \$256 million for 2012-13.

- _____ 2. Details on the key expenditure items are set out at **Annex 4**.

**Capital Works Reserve Fund
Head 704 Subhead 4100DX**

***Drainage works, studies and investigations
for items in Category D of the Public Works Programme***

Ambit : Minor works including slope inspections and minor slope improvement works, feasibility studies and site investigations in respect of drainage projects, subject to a maximum ceiling of expenditure of not more than \$30 million per Category D item. Items may also be included in Category D to cover the costs of preliminary feasibility studies and investigations to enable drainage projects to be included in Category C of the Public Works Programme, and consultants' fees and charges for feasibility investigations and design (including preparation of tender documents) of drainage projects in Category B or (subject to the Secretary for Financial Services and the Treasury's approval) Category C of the Public Works Programme.

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation
Director of Drainage Services	256,000	232,482	– 9.2%

Part I : On-going key items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Supply and installation of an additional combined heat and power generator at Tai Po sewage treatment works	19,880	8,402
2. Shek Wu Hui sewage treatment works—further expansion phase 1A—consultants' fees and investigations	19,800	7,680
3. Rehabilitation works for the trunk sewers at To Kwa Wan Road	19,500	14,000
4. Provision of covers and deodorisation facilities to primary sedimentation Tanks no. 1 and 2 at Siu Ho Wan sewage treatment works	19,500	5,400
5. Upgrading of methane gas, hot water and sludge transfer pipes in Yuen Long sewage treatment works	17,000	5,500

Head 704 Subhead 4100DX – Continued

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
6. Construction of additional sewage rising mains and rehabilitation of the existing sewage rising main between Tung Chung and Siu Ho Wan—consultants' fees and investigations	16,900	4,500
7. Replacement of high voltage installation for variable frequency converter no. 2 at main pumping station of Stonecutters Island sewage treatment works	12,820	8,200
8. Improvement of Yuen Long town nullah (town centre section)—stage 1 improvement works—consultants' fees and investigations	9,000	4,320
9. Sulphate reduction, autotrophic denitrification and nitrification integrated process demonstration trial at Sha Tin sewage treatment works	6,500	5,525
10. Revamping of sewage treatment information centre at Sha Tin sewage treatment works	6,000	4,600

Part II : Proposed new items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Upgrading of Kwun Tong preliminary treatment works—consultants' fees and investigations	28,000	800
2. Upgrading of West Kowloon and Tsuen Wan sewerage—consultants' fees and investigations	25,000	800
3. West Kowloon and Tsuen Wan village sewerage—consultants' fees and investigations	23,000	800
4. Expansion of Sha Tau Kok sewage treatment works—phase 1—consultants' fees and investigations	20,000	3,700
5. Rehabilitation of trunk sewers in Tuen Mun—consultants' fees and investigations	19,280	800

Head 704 Subhead 4100DX – *Continued*

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
6. Rehabilitation of trunk sewers in Kowloon, Sha Tin and Sai Kung—consultants' fees and investigations	13,190	800
7. Enhancement of odour control measures at To Kwa Wan preliminary treatment works and Kwun Tong intermediate sewage pumping station	4,000	1,500
8. Preventive lining to the stormwater drains in Mainland South district (2013-14)	3,000	1,500
9. Preventive lining to the sewers in Mainland South district (2013-14)	3,000	1,500
10. Pilot scheme for condition survey of rising mains in Mainland North district	2,000	1,260

Part III : Others

	Estimate 2013-14 \$'000
About 290 other on-going and new items with expected expenditure in 2013-14	150,895

Total of Parts I to III : 232,482

**Proposed Allocation in 2013-14 for the Block Allocations under
Head 705 – Civil Engineering**

There are three block allocations under **Head 705**, namely, **Subheads 5001BX, 5101CX** and **5101DX**. The proposed allocation for 2013-14 is \$1,194.4 million. This represents a 4.3% decrease from the approved allocation of \$1,247.7 million for 2012-13.

2. Details on the key expenditure items for each of the above subheads are set out at **Annexes 5A to 5C**.

**Capital Works Reserve Fund
Head 705 Subhead 5001BX**

Landslip Preventive Measures

Ambit : Landslip preventive works and related studies (other than those directly related to specific development projects in the Public Works Programme).

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation
Director of Civil Engineering and Development	1,006,700	979,937	– 2.7%

Part I : On-going key items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Landslip prevention and mitigation programme, 2008, package I, landslip prevention and mitigation works in Central and Western District	321,910	83,162
2. Landslip prevention and mitigation programme, 2008, package I and M, landslip prevention and mitigation works in Wan Chai	315,260	66,723
3. Landslip prevention and mitigation programme, 2008, package A, landslip prevention and mitigation works in Hong Kong Island South and West	279,890	42,548
4. Landslip prevention and mitigation programme, 2008, package M, landslip prevention and mitigation works in Wong Tai Sin	225,610	83,779
5. Landslip prevention and mitigation programme, 2008, package B, landslip prevention and mitigation works in New Territories East and West	195,520	64,789
6. Landslip prevention and mitigation programme, 2009, package F, landslip prevention and mitigation works in Mainland West (South)	165,850	32,878

**Proposed Allocation in 2013-14 for the Block Allocations under
Head 706 – Highways**

At present, **Subhead 6100TX** is the only block allocation under **Head 706**. The proposed allocation for 2013-14 is \$640 million. This represents a 6.4% decrease from the approved allocation of \$684 million for 2012-13.

2. The Transport and Housing Bureau proposes to create a new block allocation **Subhead 6101TX** under **Head 706** in 2012-13 for implementation of the Universal Accessibility Programme. Subject to Finance Committee's approval for the creation of the new **Subhead 6101TX**, the proposed allocation for the new Subhead is \$187.3 million for 2013-14. The overall proposed allocation for the two subheads under **Head 706** for 2013-14 is \$827.3 million.

3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 6A** and **6B**.

**Capital Works Reserve Fund
Head 706 Subhead 6100TX**

***Highway works, studies and investigations
for items in Category D of the Public Works Programme***

Ambit : Minor works covering highways, railways and railway development, bridges, subways and other structures, footways, vehicle parking, street lighting, roadside slopes, road resurfacing (including joint replacement), road reconstruction and rehabilitation, traffic engineering, etc. as well as feasibility studies and site investigation in respect of highway projects, subject to a maximum ceiling of expenditure of not more than \$30 million per Category D item. Items may also be included in Category D to cover the costs of preliminary feasibility studies and investigations to enable highway projects to be included in Category C of the Public Works Programme, and consultants' fees and charges for feasibility investigations and design (including preparation of tender documents) of highway projects in Category B or (subject to the Secretary for Financial Services and the Treasury's approval) Category C of the Public Works Programme.

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation
Director of Highways	684,000	640,000	– 6.4%

Part I : On-going key items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Road improvement at junction of Wo Yi Hop Road near Cheung Wing Road	20,430	2,750
2. Improvement of Kam Pok Road—Man Yuen Chuen section	19,960	9,344
3. Provision of lifts to the footbridge at Wong Chuk Hang Road	17,310	2,555
4. Preventive maintenance programme (2013-18) of roadside man-made slopes/retaining walls in New Territories—investigation and detailed design	16,600	3,870
5. Provision of lifts to the footbridge at Irving Street	15,880	2,260

Head 706 Subhead 6100TX – Continued

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
6. Proposed link bridge over Yuen Long Nullah connecting Kiu Hing Road and Kung Um Road via an unnamed road	15,170	5,479
7. Proposed improvement works to coach bays at Man Kam To Control Point	13,960	3,100
8. Preventive maintenance programme (2012-17) of roadside man-made slopes/retaining walls in Hong Kong Island—investigation and detailed design	13,620	4,046
9. Improvement to cycle track by laying colour dressing at Shing Mun River promenade north bank section between Sand Martin Bridge and Twin Bridge	4,800	3,000
10. Installation of beam barriers to prevent vehicles from falling into pedestrian subways in Sha Tin and Tai Wai Town areas	4,200	2,700

Part II : Proposed new items

Head 706 Subhead 6101TX**

Universal Accessibility Programme

Proposed : For projects costing up to \$75 million each to provide universal Ambit accessibility facilities¹ to existing public walkways² to improve the accessibility for the public. It covers various costs to be incurred in the planning, design and construction of the projects, including consultants' fees and charges for project management, feasibility studies, investigation, design, contract procurement and construction supervision, as well as the construction cost.

Controlling Officer	Estimate for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 proposed allocation
Director of Highways	2,449 ³	187,272 ³	+ 7,546.9% ⁴

Part I : On-going key items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
Nil		

¹ Refer to the retrofitting of lifts or ramps, demolition of existing ramps and associated works.

² Refer to footbridges, elevated walkways and subways.

³ Subject to Finance Committee's approval for creation of the proposed **Subhead 6101TX**.

⁴ Since this is a new subhead to be created in the last quarter of 2012-13, there is only a relatively small initial expenditure in that year.

Head 706 Subhead 6101TX – *Continued*

Part II : Proposed new items

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
1. Provision of Universal Accessibility Facilities for Public Walkways – Investigation, Design and Constructions (including projects under the original programme and new suggestions, priorities of which will be discussed and determined by the relevant District Councils)	Not applicable	187,272

Part III : Others

	Estimate 2013-14 \$'000

Total of Parts I to III :	187,272

**Justifications for the creation the new Subhead 6101TX
for implementing the Universal Accessibility Programme**

The Administration announced a new policy on “universal accessibility” in August 2012. The new policy aims at expanding the scope of the Administration’s programme to retrofit barrier-free access facilities to existing public walkways (i.e. footbridges, elevated walkways and subways) so as to facilitate access of the public. To support the new policy, we propose to seek approval from the Finance Committee (FC), with immediate effect, to create a new block allocation **Subhead 6101TX** – “Universal Accessibility Programme” under **Head 706**, together with an allocation of \$2.449 million and \$187.272 million for the subhead in 2012-13 and 2013-14 respectively, to facilitate the implementation of the works projects under the new policy.

2. The Administration has been installing barrier-free access facilities at public walkways (for instance, installing ramps in footbridges constructed in earlier years that only have staircases) for years, and has planned to launch more than 170 projects. During the visits of the Chief Executive and his political team to the 18 districts earlier on, many elderly asked the Administration to install more barrier-free access facilities. With the aging population, we have to speed up our progress, as well as to expand the existing programme to retrofit barrier-free access facilities at public walkways, to bring further convenience to the public.

3. The Administration announced in August 2012 that the policy in operation would be enhanced, and a new lift installation programme would be launched to respond to public requests, thereby creating a “universally accessible” environment in the community to improve the accessibility of the public walkways –

- (i) from now on, when considering about retrofitting barrier-free access facilities to existing or newly constructed public walkways, the Administration would treat lifts and ramps equally (unless the site conditions dictate one form over another). This is a change from the current practice which gives priority to ramps; and
- (ii) as long as site conditions permit, we will still consider installing lifts at walkways where there is already a standard ramp installed. After a lift has been installed, we will evaluate whether to keep the ramp or demolish it for more spacious pavement or to make way for roadside greening.

4. When the Administration announced the new policy, a list of more than 230 proposals was publicised, among which include some 170 projects in the original programme (as mentioned in paragraph 2 above). Out of the some 170 projects, construction works of ten have already been commenced, and another 160-plus projects are at the planning and design stages. The remaining some 60 projects in the list are preliminary suggestions raised by the District Councils and members of various districts in the past. We were at the same time inviting members of the public to propose lift locations where they consider necessary on or before 31 October 2012.

5. The new policy has received overwhelming response from the public. We have received so far over 2 600 proposals within the ambit of the new policy, involving about 250 suggested locations/public walkways (some amended proposals may fall within the some 160 items, mentioned in paragraph 4 above). The distribution of the proposals according to the 18 districts in Hong Kong in preliminary findings is provided at Annex 6C-1.

6. We have also received about 2 750 proposals falling outside the ambit of the new policy, involving about 260 public walkways or locations, including those involving the jurisdiction of the Mass Transit Railway Corporation Limited, the Housing Authority, the Link Real Estate Investment Trust and private developments, as well as proposals of hillside escalator/lift systems. We are now consolidating the relevant information, and after which we will refer the information to the organisations concerned for following up. Regarding the proposals of hillside escalator/lift systems, we will follow the existing public works system to consider and handle.

7. We are currently analysing the information provided by the public. After consolidating the lists of lift retrofitting works on existing walkways and upon obtaining funding approval from the FC, we will immediately start consulting the relevant District Councils to determine the priorities for the projects. Once a project is supported by the district and confirmed to be technically feasible, we will commence the design and construction works as soon as possible according to its priority.

8. We wish to implement the new policy as soon as possible to start the works projects in various districts in Hong Kong. The proposed projects are located in various districts in Hong Kong and a large number of retrofitting works have to be carried out every year. As a result, we have to establish a mechanism to ensure efficient and flexible works arrangement and resource allocation. The works departments will then be able to commence and complete the works as soon as possible according to the actual circumstances and progress of works, thus benefitting the public.

Circumstances of works and funding utilisation

9. Retrofitting works for barrier-free access facilities are located in various districts in Hong Kong, with most of them carried out on public walkways in densely populated urban areas. As retrofitting works may impact underground facilities, residents or traffic nearby, uncertainties are anticipated. Same as other public works, each item has to go through different stages including consultation with stakeholders, technical feasibility study, design, ground investigation, advance works, temporary traffic arrangement and construction works etc. If problems arise at any of the stages mentioned above, for example receiving many diverse views during the consultation period, other stages of the works and the subsequent timetable will be duly revised.

10. The Highways Department has been undertaking programmes to retrofit ramps and lifts for public walkways without standard barrier-free access facilities and taking forward the programmes in small packages, funded under the block allocation **Subhead 6100TX “Highway works, studies and investigations for items in Category D of the Public Works Programme”**. On the recommendations of the Equal Opportunities Commission, the Administration has then planned to expedite the implementation of retrofitting works for barrier-free access facilities. In order to avoid a substantial reduction of funding available for other works items under the block allocation **Subhead 6100TX**, the Administration proposes to FC in July 2011 to approve a funding of \$292.1 million and create a public works programme item to take forward the design and retrofitting works in phases. As an individual item of retrofitting works is of a smaller scale, the Administration has then prepared to apply to the FC for a certain number of designated works items en bloc at one time. Nevertheless, practical experience shows that under such arrangement, even if a works item is ready and there is public request for early implementation, an en bloc application for funding will only be made until other items in the next round of funding application are ready.

11. Since a large number of works items will be implemented under the new policy, the swift launching and implementation of which will depend directly on the effectiveness of the funding allocation and deployment. The funding arrangement mentioned in paragraph 10 above does not allow sufficient flexibility in the implementation of retrofitting items to deal with the actual situation and meet public demand. As such, some projects which are supported by the public and are ready may not be able to implement as soon as possible. This may slow down the overall progress of the new policy and efficiency of works, and fail to meet the public’s expectations for expediting the lift retrofitting projects.

Creation of a dedicated block allocation subhead for “Universal Accessibility Programme”

12. In order to flexibly implement lift retrofitting works projects so as to implement and complete such works as soon as possible, we consider that it is more desirable to cover the cost of the works under the block allocation. To avoid competing with other projects for resources under the existing block allocation **Subhead 6100TX** due to the expedition of retrofitting works, we propose, with immediate effect and subject to FC’s approval, the creation of a new block allocation **Subhead 6101TX – “Universal Accessibility Programme”** under **Head 706 – “Highways”** designated for the retrofitting works under the new policy. As such, we will follow the established practice of respective block allocation and apply to the FC every year a block allocation on a lump-sum basis according to the forecast on the nature, scale and number of the retrofitting works for the coming year, so as to finance the Category D works expected to be carried out in the next financial year.

13. Through the abovementioned proposed funding arrangement, greater flexibility on works implementation will be allowed for the works departments. Upon approval of the funding, a lift retrofitting project will be able to proceed to the next stage, as long as with public support solicited and the preparatory works completed. Should any problem lead to the suspension or even shelving of an item, another lift retrofitting project can take its place immediately depending on the actual circumstances without having to wait for the next round of funding application. On the other hand, the creation of a dedicated block allocation subhead for “Universal Accessibility Programme” can avoid affecting works progress due to resources allocation issues. This arrangement can expedite the progress of lift retrofitting works under the new policy, and facilitate the early commencement and completion of the works. New lifts can be made available to the public as soon as possible, thus benefitting the general public, especially the elderly and the disabled.

Coverage of the dedicated fund

14. The proposed new block allocation **Subhead 6101TX** is applicable to cover the costs incurred in the planning, design and construction stages of lift retrofitting projects for public walkways under the “Universal Accessibility Programme”, including consultants’ fees and charges for project management, feasibility studies, investigation, design and contract procurement and construction supervision, and the construction cost. We further propose that FC delegates the authority to the Director of Highways as the Controlling Officer of the new Subhead to approve the expenditure of individual project under the subhead. The expenditure on individual item is subject to the financial ceiling of \$75 million and the annual overall expenditure should not exceed the annual provision approved by the FC. In general, a project requiring the retrofitting of one to two lifts will require about \$20 million to \$40 million. As the installation

of more complex items may require a number of lifts (for example the installation of four lifts) with possible demolition of the associated ramps, the related costs might reach \$75 million. Therefore, we propose a ceiling of \$75 million be set for each individual item. Although the proposed ceiling of expenditure is higher than the ceiling of \$30 million of other block allocation subheads, the expenditure ceiling can enable the Government to exercise the delegation for a more efficient implementation of the projects in light of the similar nature of each of the lift retrofitting works. When approving individual item, the Administration will also ensure cost-effectiveness consideration is met.

15. Moreover, as mentioned in paragraph 10 above, a funding of \$292.1 million was approved by FC in July 2011 for upgrading ten barrier-free access facilities retrofitting works and the design of barrier-free access facilities at about 180¹ existing walkways under the original programme to Category A, so as to proceed with the respective construction and design works. As the ten barrier-free access facilities retrofitting works have commenced, the costs will not be funded by the new block allocation subhead. For the projects under investigation or design, the construction cost and other related costs of these projects will be funded by the new block allocation **Subhead 6101TX** upon confirmation of technical feasibility, completion of the design and securing support from the district councils.

Funding requirement

16. For 2012-13, we propose an allocation of \$2.449 million for the new **Subhead 6101TX**. The fund will be used to cover the expenditure incurred for the “Universal Accessibility Programme” during the year, including the cash flow requirements for the construction costs of the 24 retrofitting projects. For 2013-14, we propose an allocation of \$187.272 million for the Subhead. The fund will be used to cover the expenditure incurred for the programme during that year, including the feasibility study and design for about 60 barrier-free access facilities retrofitting projects, and the construction costs of about 60 barrier-free access facilities. We estimate that the annual provision for the Subhead will gradually increase to over \$1,000 million in subsequent years.

17. The actual expenditure of the newly created capital works block allocation **Subhead 6101TX** depends on the number of projects planned for the coming year and the scale of individual projects. When working out the implementation schedules of the projects, the works departments will consider various factors, including the practical experience in the implementing of new policy, resource deployment, market situation and public response, so as to set the

¹ Of the 180 items under the original programme, it is estimated that about 160 items will be technically feasible and be implemented.

schedule of works for the coming year and determine the amount of funding to be sought.

18. Regarding recurrent expenditure, the recurrent expenditure of the “Universal Accessibility Programme” mainly covers the operational expenses, scheduled maintenance fees and other related costs of the lifts. The recurrent expenditure of each lift varies depending on its design, each with an average of about \$400,000 per annum. The annual recurrent expenditure depends on the number of lifts to be completed during the year. For 2013-14, we expect that there will not be any recurrent expenditure involved as retrofitting projects are still under construction stage.

**Proposed Allocation in 2013-14 for the Block Allocations under
Head 707 – New Towns and Urban Area Development**

There are three block allocations under **Head 707**, namely, **Subheads 7014CX, 7016CX and 7100CX**. The proposed allocation for 2013-14 is \$564.6 million. This represents a 14.0% increase from the approved allocation of \$495.3 million for 2012-13.

2. The increase in the proposed allocation for **Subhead 7100CX** (by \$49.3 million from \$55.3 million in 2012-13 to \$104.6 million in 2013-14) is mainly due to higher cashflow requirements for on-going projects and new projects in 2013-14 (i.e. Annex 7C).

3. Details on the key expenditure items for each of the above subheads are set out at **Annexes 7A to 7C**.

**Capital Works Reserve Fund
Head 707 Subhead 7014CX**

Rural Public Works Programme

Ambit : Small scale works projects costing up to \$30 million each to upgrade the infrastructure and improve the living environment of rural areas in the New Territories.

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation

**Proposed Allocation in 2013-14 for the Block Allocations under
Head 708 (part) – Capital Subventions**

There are five block allocations under **Head 708**, namely, **Subheads 8100BX, 8100EX, 8100MX, 8100QX and 8001SX**. The proposed allocation for 2013-14 is \$1,804.8 million. This represents a 4.2% increase from the approved allocation of \$1,731.3 million¹ for 2012-13.

2. For **Subhead 8100BX**, the proposed increase in the allocation (by \$11.5 million from \$1.8 million in 2012-13 to \$13.3 million in 2013-14) is mainly due to higher cashflow requirements for on-going projects (i.e. Part I of Annex 8A).

3. For **Subhead 8100EX**, the proposed increase in the allocation (by \$102 million from \$458 million in 2012-13 to \$560 million in 2013-14) is mainly due to higher cashflow requirements for spatial re-organisation works arising from the new four-year undergraduate programme (i.e. Annex 8B).

4. For **Subhead 8001SX**, the proposed increase in the allocation (by \$23.8 million from \$84 million in 2012-13 to \$107.8 million in 2013-14) is mainly due to higher cashflow requirements for on-going and new projects (i.e. Annex 8E).

5. Details on the key expenditure items for each of the above subheads are set out at **Annexes 8A to 8E**.

¹ The Administration increased the 2012-13 approved allocation of **Subhead 8100MX** by \$14.5 million from \$661 million to \$675.5 million under delegated authority in November 2012 to meet the increased expenditure. The total approved allocation for 2012-13 for block votes under **Head 708** is therefore increased from \$1,716.8 million to \$1,731.3 million.

Head 710 Subhead A007GX – Continued

Project description	Project Estimate \$'000	Estimate 2013-14 \$'000
10. Feasibility study for computer equipment and services for 2016 population by-census, Census and Statistics Department	3,698	3,346
 Part III : Others		
		Estimate 2013-14 \$'000
About 570 other on-going and new items with expected expenditure in 2013-14		784,759
	Total of Parts I to III :	890,000

**Proposed Allocation in 2013-14 for the Block Allocation under
Head 711 – Housing**

The provision sought for the only block allocation **Subhead B100HX** under **Head 711** is \$39.2 million. This represents a 58.1% increase from the approved allocation of \$24.8 million for 2012-13.

2. For **Subhead B100HX**, the proposed increase in the allocation (by \$14.4 million from \$24.8 million in 2012-13 to \$39.2 million in 2013-14) is mainly due to higher cashflow requirements for on-going projects (i.e. Annex 11).

_____ 3. Details on the key expenditure items are set out at **Annex 11**.

**Capital Works Reserve Fund
Head 711 Subhead B100HX**

***Minor housing development related works, studies and investigations
for items in Category D of the Public Works Programme***

Ambit : Minor works, feasibility studies and site investigations in respect of housing related works, subject to a maximum ceiling of expenditure of not more than \$30 million per Category D item. Items may also be included in Category D to cover the costs of preliminary feasibility studies and investigations to enable housing related projects to be included in Category C of the Public Works Programme, and consultants' fees and charges for feasibility investigations and design (including preparation of tender documents) of housing related projects in Category B or (subject to the Secretary for Financial Services and the Treasury's approval) Category C of the Public Works Programme.

Controlling Officer	Allocation for 2012-13 \$'000	Estimate for 2013-14 \$'000	Percentage change as compared with the 2012-13 allocation
Permanent Secretary for Transport and Housing (Housing)	24,780	39,231	+ 58.1%
