#### LEGISLATIVE COUNCIL PANEL ON DEVELOPMENT

# Revision of Fees and Charges under the Purview of the Water Supplies Department

# **PURPOSE**

This paper outlines the Administration's proposed revision of 24 government fees and charges for services under the purview of Water Supplies Department which do not directly affect people's livelihood or general business activities.

#### THE PROPOSAL

- 2. In line with the "user pays" principle, it is Government's policy that fees and charges should in general be set at levels sufficient to recover the full cost of providing the services. The 24 items of fees and charges concerned are prescribed in Schedule 1 to the Waterworks Regulations (Cap. 102A) under the Waterworks Ordinance (Cap. 102) which were all last revised on 1 August 2012.
- 3. A review of the cost of providing the relevant services at the 2013-14 price level has been carried out recently. The result shows the present cost recovery levels range from 16.7% to 94.5%. In order to achieve full cost recovery gradually and avoid a steep fee increase, we propose to adopt the following lines for fee revision in our proposal:
  - (a) for existing cost recovery rate less than 40%, adopt an increase of about 20%;
  - (b) for existing cost recovery rate of between 40% and 70%, adopt an increase of about 15%; and
  - (c) for existing cost recovery rate of over 70%, adopt an increase of about 10% or lower.
- 4. Details of the fee and charge revision proposal, ranging from an upward adjustment of 5.9% to 20.1%, are at the **Annex.** After the proposed revision is implemented, the cost recovery rates will range from 20.0% to 100.1%. We will revise the fees and charges once the legislative amendment procedures are completed.

## **EFFICIENCY IMPROVEMENT MEASURES**

5. The Administration will continue to enhance efficiency and streamline procedures so as to contain the costs of providing these public services.

# FINANCIAL IMPLICATION

6. When the proposed fee and charge adjustments are implemented, the estimated increase in revenue is about \$1.9 million per annum.

## **WAY FORWARD**

7. Members are invited to note the proposed fee and charge revision as set out in paragraph 3 to 4 above and detailed in the **Annex**. We will proceed with the necessary legislative amendments to implement the adjustments.

Development Bureau Water Supplies Department June 2013 **Proposed Revision of Fees and Charges under the Waterworks Regulations**
