|---|--------------|
| 1. Briefing on environmental initiatives in the Chief Executive's Policy Address | January 2013 |
| 2. Retrofitting franchised buses with selective catalytic reduction devices | January 2013 |

The Government commenced a trial jointly with franchised bus companies in September 2011 on retrofitting Euro II and III franchised buses with selective catalytic reduction ("SCR") devices, which could reduce nitrogen oxides emissions, in order to assess the technical feasibility and effectiveness of the retrofit. Subject to satisfactory trial results, the Government will fund the full cost of retrofitting Euro II and III buses with SCRs. The Government has reported the interim findings of the trial to the Subcommittee on Improving Air Quality of the Panel on Environmental Affairs on 27 June 2012. The Government plans to finalize the trial report by end of 2012, and then report the findings to the Panel in January 2013 and seek support for funding application to the Finance Committee for the large scale retrofit programme.
