Dear Ms Liza Lam

I am writing to you to say that I fully support the proposed amendments to the Animal Trader Regulations. As an animal advocate and humane educator I have always found it extremely disappointing how animals in Hong Kong are not protected from unscrupulous and heartless breeding practices. The puppies and kittens that one regularly sees in Hong Kong pet shops frequently look sick and are then often abandoned due to astronomical vet bills. All this needless suffering could be reduced with humane laws created to help build a more compassionate and kind society.

Yours Sincerely

Courtney Link
