Dear Miss Lam

I support the Proposed Amendments ----- Only The HK Government has the power to significantly reduce the suffering and pointless loss of life caused by the current Pet Shop and Breeder trade. Miss Sally Anderson of HKDR and the SPCA and other expert animal welfare organisations have already detailed far better than I can, the problems caused by the current status quo be it health related or the conditions under which breeder animals lead an unbearable and unnatural life only be be discarded when then are of no further use.

I hope this Government will lead the way to a more caring society as regards the welfare of all living creatures
