Dear Liza,

I fully support the increase of penalties for animal cruelty and ban illegal trading and breeding of animals. My dog was rescued from an illegal breeder and the condition she was in was unimaginable. No animals should suffer in the name of humans greed. No animals should be abused. What makes human more special and have the right to do something so inhuman. Nothing! We are all equal!

I hope one day we could totally eliminate animal cruelty, illegal trading and breeding. For now, we are here to take the first step to make a change for those who cannot speak, for those suffering everyday, every minute, every second.

You have my full support. Please let me know if further action or information is required. Thank you.

Monica
