Hon IP Kwok-him, GBS, JP
Chairman, Bills Committee on Marriage (Amendment) Bill 2014
Room 619, Legislative Council Complex,
1 Legislative Council Road, Central, Hong Kong
Email address: ipkh@dab.org.hk

Dear Chairman,

Subject: Against the amendments proposed by Dr. Chow Yat-ngok and Chan Chi-chuen

We would like to express our view that we oppose to the proposed amendment allowing a person undergoing sexual transformation to be treated as proper person for the purpose of marriage under the marriage ordinance with reasons as follows:

- 1/ Sexual identity is far more than physical gender but a holistic approach of sex roles should be taken into account!
- 2/ The passing of the new law would create much confusion and anxiety in the absence of common consensus of the right-thinking member of the society.
- 3/ We also oppose the amendments proposed by Dr. Chow Yat-ngok and Chan Chi-chuen which including to allow no sexual transformation is required that the person may change his/her gender and which may result same gender marriage.
- 4/ Our ministry are going to serve the young generation by helping them to develop a healthy mental and positive thinking in their lives. The same gender marriage thinking will confuse the young generation and spending much times in seeking their own gender identities which thus distort their healthy mental and physical developments. Therefore, it will make our ministry very difficult to help the young generation.

Thank you for your attention.
