I object to build a incinerator in Shek Kau Chau.

Reason:

1) Shek Kau Chau, Cheung Chau, and South Lantau are HK back garden. Don't put such big rubbish bin in our back garden. Put it in other industrial area or next to power plants.

2) South Lantau is one of the best location for airport professional like pilot or engineer to stay. So many professional will move to other countries if HK Government put the incinerator in the location.

3) HK people need this back garden in South Lantau to breath fresh air, don't destroy it.
