Submission paper to the Panel on Environmental Affairs

Environmental Infrastructure Projects for discussion on 22 March 2014

The Danish Chamber of Commerce welcomes the Hong Kong Government's initiatives in tackling the issue of disposal of municipal solid waste in the SAR. The vision, strategy and targets for the reduction of the quantity of municipal waste cited in the Hong Kong Blueprint for Sustainable Use of Resources 2013 – 2022 are essential for the continuing competitiveness and liveability of Hong Kong. It is recognized that investment in essential infrastructure will be essential and these are likewise supported.

The Danish Chamber stands ready to support the Secretary for the Environment and his colleagues in knowledge transfer from Denmark to assist Hong Kong in meeting the targets.

Please contact the undersigned should any additional information be needed.

Yours faithfully,

Frank Jensen

Chair, Danish Chamber of Commerce
