For whom may concern,

We strongly support the third runway in HKIA base on below points:

1. To maintain Hong Kong economic position of the world – the door of Greater China in both tourist and commercial aspects.
2. Keep HK as a most attractive city in Asia that provide the high quality airport.
3. To provide a better service for passengers with faster and less queue time included both inbound and outbound visitors.
4. More competitive power for HK when compare with South China nearby city like SZ, ZH, Macau and also other Asian countries like Singapore, Taiwan.
5. Proud of HK that we have a greatest airport in coming future.
6. Create employment in near 20 years.
