To : Clerk to Panel on Economic Development

Attn. : Miss Michelle Lee

Dear Sir/Madam,

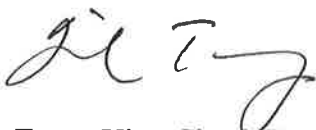

Submission to the Legislative Council Panel on Economic Development
The Third Runway Project in the Hong Kong International Airport

The aviation industry is one of the few industries in Hong Kong that is enjoying solid growth year on year. It's economic contribution, including employment, revenue generation and synergy with other industries, including retail, hotel, catering, recreation, logistics, road transport, etc., makes it invaluable to Hong Kong.

Besides, the well-established extensive network has brought immense efficiency to the travelers as well as cargo shipments. The Hong Kong International Airport is indeed the pride of the people of Hong Kong.

Restricting ourselves with the two runways will only hold us back. For the sake of the future of Hong Kong, we fully support HKIA to build the Third Runway.

Regards,

Tsang Ying Cheuk Daniel
