LegCo Panel on Environmental Affairs visits Chemical Waste Treatment Centre (with photos)

Legislative Council Panel on Environmental Affairs conducted a visit to the Chemical Waste Treatment Centre ("CWTC") in Tsing Yi this afternoon (25 April) to better understand the operation and treatment processes of CWTC.

Members first received a briefing on the operation and treatment processes of CWTC. Accompanied by representatives of the Administration, Members then visited the facilities of CWTC, including the clinical waste and chemical waste reception centre and the central control room. Members also observed two waste treatment processes, namely incineration and mercury waste treatment.

Members participating in the visit included Hon Cyd HO Sau-lan, Chairman of the Panel, Hon Gary FAN Kwok-wai, Hon Kenneth LEUNG and Dr Hon Elizabeth QUAT, who are Panel members.

Ends/Friday, 25 April 2014
